HOMŒOPATHY.

P. M. LEONARD, M. D, respectully tenders his professional services to the citizens of Fort Wayne and vicinity, as Homœopathic Physician and Surgeon. He may be found at the office of Dr. Brooks, on Calhoun street, in building north of Canal Bridge, at all times when not professionally engaged.

To the Afflicted.

DR. M. FALOON'S Practice is confined entirely to all obstinate or critical diseases such as

CANCERS, TUMORS, ULCERS, SCROFULA, SALT RHEUM, TETTER, ERYSIPELAS, KINGS EVIL, BARBER'S ITCH, SCALD HEAD, FEVER SORES, PILES, KIDNEY DISEASES, LUMBAGO, DYSPEPSIA, CATARRH, FISLE OR FISTULA, CANKER OR NURSING SORE MOUTH, ETC; ETC.

All Diseases of the Eyes

Successfully treated.

His mode of treating CANCERS is by giving Medicine internal, to operate on the blood, and apply external Medicine, which separates the cancer from the good flesh, and consequently removes it out by the roots and without the use of any caustic medicine or surgical operation.

He has samples of Cancers removed by him, for any person to examine that wishes, which will convince any rational person that it is the only true method by which a permanent cure can be effected.

Dr. F. will give references to hundreds of persons cured of the above diseases, through different parts of the United States.

Dr. M. FALOON has recently located in Fort Wayne, Ind., Office and dwelling on corner of Clinton and Wayne streets.

A CARD FOR THE LADIES.

THE GREAT TURKISH PERIODICAL REMEDY—For the immediate removal of Obstructions, Irregularities, Prolapsus Uteri, (Falling of the Womb,) Leuchorrhea or Whites, &c. &c.

These Pills have never in a single instance failed in producing the menses. Too much cannot be said in their favor. No woman can enjoy good health when that particular part of her peculiar organization is deranged. Sickness at stomach, headace, languor, debility, pain in the head, side and back, loss of appetite, costiveness, &c., are some of the symptoms which attend irregular menstruation. As certain as these Pills to remove one and all of these symptoms.

Be sure and get the genuine, which has our signature on each box. These Pills may be had by addressing Dr. Sanfloy and Co., and enclosing $1; the Pills will be sent by return mail.

N. B.—Ladies whose health will not permit of an increase of family, will find these Pills a successful preventive.

Ladies who are pregnant should not use these Pills, as they are sure to bring on miscarriage, though no injury to health would follow. Address,

Carter's Spanish Mixture.

THE GREAT PURIFIER OF THE BLOOD!

THE BEST ALTERATIVE KNOWN

Not a Particle of Mercury in it!

An infallible remedy for Scrofula, King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Boils, Ague and Fever, Chronic Sore Eyes, Ringworm or Tetter, Scalded-head, Enlargment and pain of the Bones and Joints, Salt Rheum, Stubborn Ulcers, Syphilitic Disorders, and all diseases arising from an injudicious use of Mercury, Imprudence in Life, or Impurity of the Blood.

This great alterative Medicine and Purifier of the Blood is now used by thousands of grateful patients, from all parts of the United States, who testify daily to the remarkable cures performed by the greatest of all medicines, "*Carter's Spanish Mixture.*" Neuralgia, Rheumatism, Scrofula, Eruptions of the Skin, Liver Disease, Fevers, Ulcers, Old Sores, Affection of the Kidneys, Diseases of the Throat, Female Complaints, Pains and Aching of the Bones and Joints, are speedily put to flight by using this inestimable remedy.

For all diseases of the Blood, nothing has yet been found to compare with it. It cleanses the system of all impurities, acts gently and efficiently on the Liver and Kidneys, strengthens the Digestion, gives tone to the stomach, makes the skin clear and healthy, and restores the Constitution enfeebled by disease or broken down by the excess of youth, to its pristine vigor and strength.

For the DISEASES OF FEMALES it is peculiarly applicable, and wherever it has become known, is regularly prescribed with the happiest effects. It invigorates the weak and debilitated, and imparts elasticity to the worn-out frame, clears the skin, and leaves the patient fresh and healthy; a single bottle of this inestimable remedy is worth all the so-called Sarsaparillas in existence.

The large number of certificates which we have received from persons from all parts of the United States, is the best evidence that there is no humbug about it. The press, hotel keepers, magistrates, physicians, and public men, well known to the community, all add their testimony to the wonderful effects of this *Great Blood Purifier.*

Call on the Agent and get an Almanac, and read the details of astonishing cures performed by *Carter's Spanish Mixture,* (in most cases where every thing else has signally failed.) The limits of an advertisement will not admit their full insertion.

DOCTOR HOOFLAND'S

CELECRATED

GERMAN BITTERS,

PREPARED BY

Dr. C. M. JACKSON, Philadelphia, Pa.

Will effectually cure

Liver Complaint, Dyspepsia, Jaundice,

Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disordered Liver or Stomach

Such as Constipation, Inward Piles, Fulness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and difficult Breathing, Fluttering at the Heart, Choaking or suffocating sensations when in a lying posture, Dimness of Vision, Dots or webs before the sight, Fever and dull pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden Flushes of Heat, Burning in the Flesh, Constant imagining of evil and Great depression of spirits.

THE proprietor in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article but one that has stood the test of a ten year's trial before the American people, and its reputation and sale is unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and individuals in all parts of the country is immense, and a careful perusal of the Almanac published annually by the proprietor, and to be had gratis of any of its Agents, cannot but satisfy the most skeptiesll that this remedy is really deserving the great celebrity it has obtained.

IS a sure cure for Dyspepsia—will remove all Flattulency and Heaviness from the Stomach—keep you free from Costiveness, assist Digestion, give a good Appetite, and impart a healthy tone to the whole system. It is a certain preventive of

Fever and Ague.

For sale by all the principal Druggists, and HOSTETTER, SMITH & CO., Sole Manufacturers and Proprietors, No. 257 Penn st., Pittsburgh.

☞CAUTION.☜

Carefulness should be our study, but more particularly when the health is at stake. Since these Bitters have, from their medical qualities, become so popular, there have been a great many concoctions called Stomach Bitters, and often represented to be the same in virtue as Dr. Hostetter's, palmed upon the public. Be careful of these vilainous compounds! Our Bitters are put up in square quart bottles, and covered with the patent metallic cap, stamped "Hostetter's Stomach Bitters," and Dr. J Hostetter blown on the glass. All others are imitation.

PURIFY THE BLOOD.

Moffat's Life Pills

AND

PHŒNIX BITTERS,

FREE FROM ALL MINERAL POISONS.

THE great popularity which *Moffats Life Pills* an *Phœnix Bitters* have attained, in consequence of the extraordinary cures effected by their use renders it unnecessary for the proprietor to enter into a particular analysis of their medicinal virtues or properties. Having been more than twenty years before the public, and having the united testimony of more than *Three Millions* of persons who have been restored to the enjoyment of perfect health by them, it is believed that their reputation as the best vegetable medicine now before the public, admits of no dispute. In almost every city and village in the United States there are many who are ready to testify to their efficacy in removing disease, and giving to the whole system renewed vigor and health.

In cases of SCROFULA, ULCERS, CURVY or ERUPTIONS of the skin, the operation of the Life Medicines is truly astonishing, often removing in a few days every vestige of these loathsome diseases, by their purifying effects on the blood. FEVER and AGUE, DYSPEPSIA, DROPSY, PLAES, and in short most all diseases, soon yield to their curative properties. No family should be without them, as by their timely use much suffering and expense may be saved.

Religion—What is It?

'Tis not to go to church to-day,
To look devout and seem to pray,
And ere to-morrow's sun goes down,
Be dealing scandal through the town.

Not every sanctimonious face
Denotes the certain region of grace,
A phiz that seems to scrowl at sin,
Oft veils hipocrisy within.

'Tis not to mark our duty's walk,
Or of our own good deeds to talk,
And then to practice secret crime
And so mispend and waste our time.

'Tis not for acts and creeds to fight
And c l ourz al the ru'e o' right,
When all we wish is at the best,
To see our church excel the rest.

'Tis not to wear the Christian's dress,
And love to all mankinds profess,
Then treat with scorn the suffering poor,
And fast against them close the door.

Ah, no! Religion means not this,
Its fruit far sweeter, fairer is:
In heavenly soil alone it thrives,
And more than blossoms where it lives.

Religion! 'tis the rule of life,
The bond of love, the bane of strife,
Its precept this, "to others do,
As you would have them do to you."

It grieves to hear an ill report;
And scorns with human woes to sport;
Of other's deeds to speak no ill;
But tell of good, or else be still.

And does *Religion* this import;
Oh! may our souls its indulgence court;
Haste, haste, the bright and blissful day
When the whole earth shall own its way.

From an English Paper.

What a Royal Marriage is to Cost.

The proposed marriage of our Princess Royal with a Prussian Prince has never been popular in England. The political attitude of Prussia of Prussia during our late war disgusted the people of this country with the Prussian king his government, and the rumors—which rest on good authority—as to what the marriage is to cost us are notlikely to render the projected royunion more favourably received. The Sun makes the following remarks on this subject:—

"Electors, do not forget Prussia! Many will wonder what they are to remember—are they to recollect her dirty conduct before the war, at the beginning of the war, all through the war, and at the end of the war? Is it her bullying Neufchatel and Switzerland, her getting the prisoners liberated to avoid a conviction of treachery and her now playing the Emperor of the French false, and Switzerland, too, by refusing to settle the business? Yes—all and any of these if they please; but probably no effort of memory is needed—the contemptible meanness, the avarice, self-seeking, and political crouching of Prussia are never likely to be forgotten by the generation which has witnessed the war with Russia. But what have electors to do with Prussia just now? Why bring her up at the hustings in 1857? Has Lord Palmerston indicated any wish to maintain the honor of England at Berlin or at Dantzig? Lord Palmerston will have to guard both the honor and the purse of England in the new Parliament, if we be not much mistaken; and Prussia will be the source of danger. We pray, as in duty bound, for her Majesty Queen Victoria, for his Royal Highness Prince Albert, for Albert Prince of Wales, and for all the Royal Family, the Princess Royal surely included; and amongst our prayers we certainly ask that they may never dishonor their position, nor disgrace their country, nor become channels to enrich German poverty, or to satisfy German longings for the proceeds of English taxation. We have had too much of that already. Leopold of Belgium and Queen Adelaide will never be forgotten. True or false, it will always be believed that a German Princess instigated a Monarch, shrewd in such matters, to get her the enormous sum of £100,000 per annum as the price of his signature to the Reform Bill, and for what on earth could it be wanted but for needy German cousins? Now the rumor has been that the new Parliament will be asked for £50,000 per annum!—for the interest of £1,000,000 at 5 per cent., to marry the Princess Royal to a *Prussian* prince! Could Prussia and its royal family be degraded further in the eyes of Europe, we should say that such a mercenary transaction would sink them yet lower. Happily for us the credit of Prussia is not in our keeping: for we certainly would not discount a single draft on *her* honor. But we must bethink ourselves of the credit of our own Royal Family, and of our own pockets. These *are* points for the hustings. Nothing made Queen Adelaide so unpopular with the nation, and so indisposed it to mourn for her death as the repulsive Germanism which taxed the people so unmercifully, either to enable her to roll in wealth or to enrich her poor German relations. We would not have our young Princess brought in the same mortifying position. We should like our Royal Family to be favorites with the country. They will be so if only reasonable support is asked for them, but if our Princesses are to cost £50,000 a year each, bless us—where is the end to be? If the daughters are to be salaried in this style, and the sons in proportion; and if the latter are to swallow up military sinecures retained as special rewards for veteran service, Lord Palmerston may rest assured that the country will think we pay too much for the whistle of royalty, and that the opinion will spread that a president is better. Prodigiously less costly at least. Let electors be awake.—There is the utmost danger of a job. The Prince and the Premier will need the voice of the country to enable them to resist the urgency of German, especially of Prussian, avarice. They must be able to reply that England will not endure it. That England expect her Princesses to marry husbands who can support them—especially if they marry members of a royal family. That England would much rather have had nothing to do in the royal marriage line with a country it despises more than any other in Europe, but that, if the young people are in love, why the country of the husband must maintain the happy pair. We have no objection to give our Princess Royal £50,000 as a *dowery*, and to have done with it. Against any further taxing of the country to enrich a Prussian husband we firmly protest. Fifty thousand pounds per annum, then to the electors, if they now speak out. It is in a *new* Parliament that Courts and Cabinets get through with such jobs as these. Nothing will prevent something of the kind but pledging the candidates to vote against it. It is folly to talk of *reducing* expenditure if such annual burdens are to be inflicted on us. If taxpayers do their duty at the hustings, and on that condition only, they will obtain for themselves the reward of £50,000 per annum."

The "Republican" Clerical Epidemic.—Mr Burch, a Black-Republican political preacher of Albany, is charged with some serious derelictions into which his amorous propensities have led him.

Indian Murders in Iowa.

By the letters below, our readers will learn that a terrible murder of white settlers has taken place in the north-western part of Iowa. Twenty bodies of the slain had already been found. The letter is as follows:

FORT DODGE, IOWA, MARCH 13.

Dear Sir: This town is in a perfect blaze of excitement. For two months past reports of depredatons by the Indians have been received here, but occasioned no alarm. Yesterday, however some residents from the vicinity of Spirit Lake Dickenson county, arrived here, bringing intelligence that some forty persons were missing, and that the bodies of fourteen had been found lifeless and mutilated.

Three companies of volunteers, raised in Webster City and this place, will start to-morrow morning to hunt the murderers. The Sioux, Chippewas, and Winnebagoes deny any connection with these dreadful acts; and Major W. Williams, Indian Agent at this point, says that the villains are criminals who have been banished the several tribes.

Among the families known to be killed are those of Mr. Howe (consisting of seven persons.) Mr. Gardner's, Mr. Lucas's, and Mr. Mattock's. But fourteen bodies had been found when the messengers left, the residents being fearful to search for their neighbors.

I am going with the volunteers in the morning, and will give you the news of our movements the first opportunity, if the red-skins in the mean time do not shoot me. We are all well armed with revolvers, Bowie-knives, and rifles, and the most of us would like a little brush—all, however, through patriotism, humanity, and a land warrant.

Yours, truly,

GEORGE W. BRIZEE.

P. S. A messenger who has arrived since the above was written, states that twenty bodies had been found up to the time of his departure; and that it was ascertained that two half breeds were among the Indian gangs.

Arrest and Release.—E. F. Nexsen, the Gramercy Bank financier, was recenly arrested in New York city on a requisition, but subsequently released on his pledge to afford every facility to those up the affairs of the broken banks and to protect, so far as he is able, the creditors. He claims that a true exhibit will show larger assets than has been supposed. He is conceded to be the only person who can make an accurate exhibit. It is said he will return as soon as he is assured of his personal safety.—*Madison Courier.*

We hope the above is not altogether true. How any one had the authority to arrest the scoundrel and then release him we cannot imagine. The thousands of poor men in this State who have suffered through his roguery, demand that he should be treated like any other guilty criminal. There should be a stop put to these kid-gloved scoundre's who prey upon society. They should as fast as arrested, be consigned to some penitentiary, and as ours is now conducted, upon the system of reformation, perhaps it would do them some good. Banks, like churches, are getting to be excellent cloaks for rascality. All manner of cheating is practised. The Presidents and cashiers steal the capital and deposites and it is politely called "failing," "defaulting," or something of the kind. This Nexsen should be brought back, and not only be compelled to make every possible restitution to his creditors, but should suffer the extreme rigor of the law.—*New Albany Ledger.*

How Old Reed was Reformed.—We once knew a man by the name of Reed, commonly known as "old Reed," quite notorious in his way and whose religious belief is, that after death he shall appear in the shape of some animal, and thinks he will be a horse. Now, old Reed has been a hard man, and has not been in the habit of treating his family as a religious man should. One day, after his wife had suffered from neglect and borne his abuse untill her patience was completely exhausted, she determined to give him a plain lecture, and to touch him upon his religious belief: so, resolutely seating herself by his side, and looking him full in the face, while a tear-drop glistened in her eye, she commenced: "Reed, I am going to have a serious talk with you: I have something to say to you, and you must hear it. I have a duty to perform, and I shall do it; and then if you are miserable hereafter, it shall not be my fault. You believe Reed, that when you die you will turn into some animal, and you think you will be a horse. Now, if you keep on in your present course, and continue to neglect and abuse your family, squandering your money in drink, when you die you will turn into some poor old twelve-shilling horse, and some old clam-peddler will get you, and you will be hard-worked and half-starved, and I'll see you every day in a rickety old wagon, full of clams. But now, Reed, it needn't be so. Your future may be even according to your theory—a bright, a happy one—for if you will reform, and turn right about, and become a better man—be kind and affectionate to your family, be kind and treat them as you should, when you die you will turn into a five hundred dollar horse, and some West-End buck will get you and give you a bushel of oats a day, rub you down with peastraw, and have you docked and tail set up." Old Reed was converted—has reformed—and is patiently waiting for death to introduce him into his converted horse-heaven.

☞ An interesting story is told of the famous Parisian hair-dresser, Leger, recently deceased. He was so modest a man that he not unfrequently spoke of the sublime inspirations which he had in his art. One evening he was called in to dress the hair of a very beautiful woman then much admired in Paris. He found a quantity of flowers, ribbons and wreaths on the table to choose from, and, by change, near them a pair of silk stockings, which that lady was to wear. Leger cast a glance of contempt at the ordinary articles prepared for him, and seizing on the stockings declared that he would dress her hair with them. The Lady, who had full confidence in his taste, made no objection, and the same night she appeared with an incomprehensible *chef-d'aeuvre* on her head, producing an admirable effect.

The next morning the lady received several applications from persons whom she knew, requesting to know where they could obtain a head-dress of similar beauty, and inquiring whether it could not be lent for an hour. The lady replied that the principal material was a web of the tarantula spider, which never lasted but one night, and that consequently lending was out of the question. Strange to say not one of them was ever able to find the material mentioned by the lady.

Care of an Old Strawberry Plat.—1. Do not remove the winter covering of straw, or other protection, till the weather becomes soft and the plants begin to start. 2. When you have taken away this protection, thin out the vines, leaving the youngest and hardiest; and when you think you have thinned them enough, take out the third of what are left. 3. Then spade in a good dressing of fine vegetable mold with a little ashes, well mixed. 4. Cover the ground with tanbark, about an inch deep, except close to the plants, where it should be thin. 5. If a severe frost is threatened, spread a little clean straw over the plants for the night.

Decidedly Magoonish.—It is said that in his lecture on 'Mind your own business,' Dr. Magoon relates the following story:

"A young man went from New York city to the West where he commenced business on his own account, and married. His friends in the city were interested in his welfare, and when a merchant was about to journey to the place where the young man had located, he was requested to visit the emigrant and ascertain how he lived, what sort of a wife he had chosen, his prospects, &c. Accordingly the New Yorker ascertained the residence of his young friend, and called upon him quite early in the morning.—He found him in a small, neat cottage, and just taking his breakfast. The introduction of the New Yorker to his wife was quite off-hand and uncerimonious and he was requested to be seated and partake of the morning meal. The young wife had prepared the steak, biscuit and coffee with her own hands, and for a table had used her kneading board, over which a napkin was spread and the 'board' placed on her lap. The New Yorker declined a seat at the table, and took his leave. On making his report to his New York friends as to how he found his young friend living, he described the style as 'magnificent!'—and for the explanation of the superlative he sat that were he the owner of that young man's furniture, he would not take ten thousand dollars for the legs of his table!"

Mr. Kalloch Escapes.—It is with no pleasure that we have published the trial of Mr. Kalloch. We merely wished to illustrate to our readers the character of Massachusetts justice. It was known before the trial commenced that the accused was to escape.

The trial, offensive to decency, has its moral, and,

Like the toad, ugly and venomous,
Bears yet a precious jewel in its head,

in the picture it presents.

The Reverend adulterer sits during the trial surrounded by his deacons, while he hears his fellow ministers testify to the purity of his character, and the moderation of his attributed—his wittols mount the stand to testify a tenderness as overflowing as that of their wives, and men and women, awaiting to be put in the same category, subscribe for his defence. The jury alone agrees to disgrace in regard to to the agreeable pastor.

All this might have happened in any State; but only in Massachusetts could the community withdraw their eyes from such a tableau to exclaim; how wicked they are in South Carolina; how much holier are we!—*Albany Argus.*

Marrying in Fun.—Another instance of the folly of "marrying in fun" is just now exciting the good people of Fonda. It seems that a banking officer of that town met at a ball a young lady from this neighborhood, who was very good-looking, sprightly and attractive. While waltzing with her, he proposed in jest that they should be married. The lady accepted his proposition and they adjourned to a side-room, where a person present was called upon to perform the ceremony, which he did to the infinite amusement of all concerned. The gentleman thought no more of the matter until the breaking up of the ball, when his fair partner called upon him to conduct her to his residence. He demurred, and thought she had better go to her own residence. She said that the house of her husband was her home; "whither thou goest I will follow thee." He didn't hardly understand that she was his wife. She insisted upon her martial rights, and claimed that as the ceremony had been performed by a Justice of the Peace, it was a perfectly fair and legal transaction. The gentleman inquired into matters; found that her positions were correct, and that he was in a bad box. He is now endeavoring to ignore his wife and back out of the bargain, with little prospect of success, however. The lady has before been married, and was, it is understood, divorced from her former husband, but under such circumstances as admitted of her marrying again.—*Albany (N. Y.) Transcript.*

On Sight and on Demand.—One of "Porter's" is responsible for the following anecdote:

Judge C——, a well known and highly respected Knickerbocker, on the shady side of fifty, a widower with five children—full of fun and frolic ever ready for a joke to give or take, was bantered the other evening by a miss of five and twenty, for not taking a wife; she urged that he was hale, hearty, and deserved a matrimonial messmate. The judge acknowledged the fact, admitted that he was convinced by the eloquence of his fair friend that he had been very remiss, and expressed contrition for the fault confessed; ending with offering himself to the lady, telling her she certainly could not reject him, after pointing out to him his heinous offence.

The lady replied that she would be most happy to take the situation, so uniquely advertised, and become bone of his bone and flesh of his flesh; but there was one, to her scruples obstacle.

"Well," says the judge, "name it. My profession is to surmount such impediments."

"Ah! judge, this is beyond your powers. I have vowed if I ever marry a widower, he must have ten children."

"Ten children! Oh! that's nothing" says the Judge. "I'll give you five now, and my notes on demand in instalments for the balance."

Fact!

A Gay Lothario.—A good story is told of a fellow of North Carolina. Having been put in jail for marrying thirteen wives, he made his escape. He was seen three or four days afterward by a gentleman who recognized him. The gentleman, anxious to secure the reward for his apprehension, invited him to his house to dine, and then slyly slipped out in pursuit of a constable, but great was his horror on his return to find that the culprit had absconded with his own wife.

Are you Planting Out a Grape-Vine?—Then dig the ground two feet deep, and at least a space of four feet in diameter, and also dig and mix in with the earth one bushel of *well-rotted* barnyard manure for each vine. Do *not* use *fresh* manure, and if you have no old, then mix one quart of lime and two quarts ground or broken bones, with one gallon of chamber ley; scatter it over the ground beforehand, and dig in thoroughly. When you plant the vine, see to it, first, that the roots are not dry and dead; cut one; if it is dead; try another; if any are blackened and dead, cut them away. The roots of young grape-vines will not bear much exposure, and often plants are set out when not a single root will grow, and thus the plant is not better than a cutting. Cut your vine after planting, so that only two bud are left to grow. If you have been careful to prepare the ground as above—have spread out the roots carefully, in setting—have not trod upon the ground, and afterward are careful to keep the ground hoed in two weeks, all summer, your vines will be six feet high in October.—*Ohio Farmer.*

Have you a Choice Grape-cutting that you Want to Grow?—Then go to the woods, dig some roots of a wild grape-vine, cut them into pieces of only one, or at most, two buds; insert the lower end, by the common cleft grafting method, into the piece of wild vine root; plant, it in the earth, leaving the bud of the cutting just level with the top of the ground. Every one so made will grow, and in two years become bearing plants.—*Ibid.*

My Artificial Stone House.

EDS. COUNTRY GENTLEMAN.—I wish to say some words to your readers upon the best and cheapest material used and recommended by Fowler and others—artificial stone walls, made of lime, sand, and cinder, &c. But I object to the usual method of using it in what is called "grout" houses, cement houses, &c. It is sloppy and annoying work to build it up in troughs, as is usually done. The fluid runs down over the walls, and each layer does not harden fast enough to build on, as soon as it is often wished.

I use the same material, and propose to obviate these objections by a neater and pleasanter mode of use, which shall be easier and stronger work than the usual mode. I make my material into blocks of stone, and build my houses of these. Thus, make cheaply some 20 or 30 boxes, of sides only, without top or bottom, of proper size, say two feet long, one foot high, and fourteen to eighteen inches wide. These are the dimensions of the future blocks. Make up, of a morning, sufficient material in a bed, fill up all the boxes; smooth the tops, and go off. Next morning rap off the boxes; let the blocks stand to dry and harden; set the boxes in a new place, and fill up as before.—Do this under a shed, or if out of doors, cover over the blocks during the first rains, and they will soon harden enough to use. In this way any Irishman may, in twenty-five mornings, at fifty cents or less, each, *turn out* stone enough for a large house.

Then build your house, as any one would of stone. The blocks for first story may be 14 or 16 or 18 inches wide, and for second stery, 10 or 12, narrowing the mould boxes by nailing a board or two inside, or sawing the ends narrower. Walls so built are dry; but they may be made still more so, and warmer if possible, and still cheaper, if any could wish it, by putting a wooden cylinder or two into the mould box, and knocking it out after the box is lifted off, thus making dead air in the wall. Besides this, the wall is of course, to be furred and lathed and plastered inside. Of course some blocks are to be made solid, for corners and ends of the walls.

The dimensions of your house being given, one can easily calculate the number of blocks needed, and any farmers boy may make them.

In laying the wall, if, in order to bring a flush wall for door or window, it should be necessary to leave a few inches between some few blocks, the space may be easily filled by pieces of brick or regular stones well mortared in.

I commend this as the *best* plan for building a cheap and durable house—better than brick, as good as stone, and lasts forever. If nice finish is needed, cement and color the outside wall, and lay it off by times, like stone as indeed it is.

If any one doubts this plan, try it on a smoke-house, or hog-pen, or shed of any kind, or indeed, a stone wall.

No rats infest this house, no storm can shake it, no wind whistle thro' it. Dry, tight, warm in winter and cool in summer, it is the cheapest, strongest, and best.

A proportion of the ingredients which Fowler and all others recommend, is—say 10 bushels or barrow loads of lime, twenty of sand, and 70 of stones, &c., and any quantity of water. I take it for granted your readers understand something of the gravel wall plan. I write merely to advocate the block stone plan—the same material, but in different shape. One can see how cheap must be the walls of a house with only one tenth lime, and that so cheap, and the other materials nine

Democratic Nominations.—The balloting for democratic candidates for City Offices is being held to-day, and will be kept open until 9 o'clock P. M. The following are the candidates:—For Mayor, W Stewart and L Wolke; Treasurer, H G Wagner and Ch. Piepenbrink; Marshal, P McGee; Clerk, T Meegan and J Strout; Civil Engineer, S McElfatrick; Assessor, Jas. Howe; Street Commissioner, John Hardendorf and M Langan. For School Trustees, Wm Rockhill, C E Stargis, and W H Link—all in favor of free schools, and opposed to any distribution of the School Fund.

S S Mores has withdrawn and declines being a candidate for mayor.

The Congressional Vacancy.—The Noble Co. Democrat makes a suggestion—which is not intended so much as a suggestion as an inquiry—that the democrats in this district dispense with a regular nomination and put our old candidat-Hon. Robert Lowry again on the track by common consent. The Democrat does not recommend this course, but simply makes the suggestion, to elicit a consideration of the matter.

Personally, we should have no particular objection; but we think it probable there may be others wishing a chance to visit Washington to whom such an arrangement would not be exactly satisfactory.

Indiana Appointments.—We hear that Gov. Jos A. Wright of this state will be tendered the appointment of Minister to Prussia; and Judge James W. Borden of this city that of Commissioner to the Sandwich Islands. Both are good appointments, worthily bestowed, and show a just appreciation on the part of the Executive of the gallant support given by Indiana to the democratic cause.

Democratic Mass Convention.

The Mass Convention on Saturday evening was certainly the largest assemblage ever convened for such a purpose in our city. The Court House was literally crammed and packed, and hundreds were outside who could not gain admission. As a matter of course there was so much noise and confusion that it was impossible to do any business, and the people were so closely wedged together, that they could not get to the ballot box to deposite their votes. P. McGee being the only candidate proposed, was nominated by unanimous consent for Marshal. It being utterly out of the question to ballot for the candidates for other offices, with any hope of getting through before the commencement of the Sabbath, it was finally resolved to abandon the attempt, and adjourn the convention until 9 o'clock this morning, at which hour the ballot is to be opened and continue until 9 at night, so as to give all a chance to have a vote in the nomination of candidates.

As this is a *democratic* convention for the nomination of candidates for *city* offices, it is to be hoped none but democrats who reside within the city will interfere, and proper means should be adopted to confine the voting exclusively to that class of citizens.

The experience of last Saturday is enough to satisfy all right-thinking men and honest democrats of the utter absurdity and impracticability of nominating candidates by mass convention, and the absolute necessity of adhering to our successful and time-honored system of nominating by delegate conventions. We are aware that very plausible arguments may be used in favor of the opposite course; it may be urged that the people can do their own business best in their own way,—that they know their own rights and are prepared to defend them—that all political powers rests in the sovereign people—*vox populi, vox Dei*—and much more of the same sort. We are not disposed to deny that these all sound very fair and democratic; but we take a more rational and common sense view of the matter; and when it is inconvenient if not impracticable for the people *en masse* to exercise those rights, we contend that it is equally democratic and much more sensible for them to delegate the exercise of such powers and such rights to a smaller and less unwieldy body than a mass convention. This has been the almost invariable practice of the democratic party, and when it has been departed from they have usually been glad to return to it. It has been long tried and found to answer, as the general success and excellence of the organization of the democratic party abundantly proves. The people meet together in their primary meetings—in wards for city, and townships for county purposes,—and select a portion of their number—men whom they can trust, and delegate to them to power to act in their behalf, instructing them how to vote, if thought necessary, in their conventions. Can anything be simpler or more purely democratic than this course? And how much better and more satisfactorily such a delegate convention will transact its business than an unwieldy and unmanageable crowd like that of last Saturday.

There have always been among us a few discontented and bogus democrats, jealous of those whose devoted attention to the interest of the democratic party gave them an influence which they exercised for the public good. The cry of *clique*, and corrupt *party leaders* is nothing new. Such men have often sought to break down our party organization—and we regret to see such men yet exist among us, and are now striving by every means to distract the party, or thrust themselves into positions they are unworthy to fill. They have always hitherto failed, and they will again fail. The organization of the democratic party will be kept up, and the regular democratic method of delegate conventions, under which we have been so successful, will be adhered to. The best interests of the party dictate that course, and the inconveniences of the Mass Convention system have been so clearly demonstrated, that the disorganizers will have to abandon the project, acquiesce in the will of the majority, and again sink into the obscurity nature intended them for.

The State Sentinel.—We welcome the reappearance on our table of the Indianapolis State Sentinel, which had been temporarily suspended in consequence of the lamentable disaster which destroyed their office. The energy and determination shown by the proprietors, in so promptly recommencing their paper, is deserving the substantial approbation of the democracy throughout the state. This can be best shown by an immediate and extensive subscription to the paper—accompanied, of course, by the payment in advance.

SCHOOL TRUSTEES.

In our last we alluded to the effort of the Times to create the impression that the democrats, and especially the Catholic and Lutheran portion of that party, were seeking to destroy our Common School. We denied the charge, so far as the mass of the party was concerned, though we admitted there might be a few who were desirous of distributing the school funds; and we further pointed out the consequences that must inevitably arise from any such attempt. For this we have been severely taken to task by two correspondents in the Jeffersonian. They both willfully misrepresent our position, representing us as making the very charge we were defending them from, and on the false premises thus assumed labor stoutly and with many words to demolish us and prove we were wrong in doing what we did not do. Of course it is needless to attempt any reply to such rigmaroles. One of the writers is well known to our readers as a man fond of seeing himself in print, meddling with matters that he does not understand and has no business with, and as a perfect monomaniac on religious matters. He is not, and never was, a democrat, further than he could use that party to subserve what he thought the interests of his church. In his own opinion he is undoubtedly "some pumkins;" but others differ in this view of his capabilities, and whatever his aspirations may be they look upon him at present as anything but infallible. The other correspondent we judge to be a man of much the same calibre.

Our position of last week we are satisfied is the correct one—namely, that the democratic party, or even the mass of the Catholics or Lutherans did not wish to disturb our common school system or divert its funds from their legitimate purposes; but that a few injudicious men might entertain such a design. This view is abundantly sustained by the events of the past week. The only candidates put in nomination for School Trustees are warm friends of our public school; and we are assured by all classes that they have never entertained any wish to disturb the system or make it an issue at the polls. So much for our first position. Our second, that there were hot-headed injudicious individuals who did wish this, is equally proved by the fluttering of these writers; they take the remarks to themselves. The cap fits and they have put it on; without noticing the bells affixed to it, they think it highly ornamental, and they strut before an admiring public through the appropriate medium of the Jeffersonian, with as much vanity and self-complacency as a newly made militia officer would in his equipments—fuss, feathers, and all.

We have devoted more space to this matter than it deserves, and will only briefly allude to another circumstance connected with it. Some few have felt sufficiently aggrieved to avail themselves of that last dread resort of offended dignity—stopping their papers. This we do not complain of—they paid up honorably and had a perfect right to stop whenever they saw fit.—They are old friends, and we regret to part with them; but we have no wish to force the paper on them, or intrude it on any one to whom it is obnoxious. A subscriber or two more or less is only like a drop in a bucket compared with the circulation of a newspaper. If they thought they could intimidate us from doing what we conceive our duty to the democratic party and the public, we have only to say that they entertain a very erroneous idea of our disposition and habits. Such things never trouble us an instant; and even if they did, they would in this case fail of their object, as their loss is already make up ten-fold by new subscribers. Should more do the same thing the effect would be the same. Our citizens will not see a press proscribed because the editor does his duty, but will sustain him in the conflict. We have abundant assurances that any other subscribers we may lose on this account will be made up in the same ratio as has been done with those who have already withdrawn the light of their countenances from us.

Democratic Victory in Albany.—The democrats in Albany, N. Y. have achieved a most glorious triumph, having routed the combined republican and know-nothing forces, and carried the city ticket by 300 majority, and elected seven of the ten aldermen.

☞ Notwithstanding the general cry of hard times, we observe preparations for an unusal amount of new buildings. Already workmen have commenced clearing off the ground for 12 or 13 new business houses—all to be three or four story brick buildings; and in all parts of the city piles of brick, stone, and lumber are accumulating for the erection of dwellings, called for by our rapidly increasing population. A few years, and we shall see such a city here as was never dreamed of by the most sanguine of our old settlers.

Who is Responsible?—The State Sentinel contains a letter from Dr. Sage, American Senator from Ohio and Switzerland, in which he distinctly and unhesitatingly asserts that the failure to pass the Appropriation Bills, through means of which the wheels of our state government are locked and our benevolent institutions closed, rests entirely with the republicans. He says:—

"It will be recollected by those who read the proceedings of the last Senate, that the Miller and Shyrock contested seats was laid over until two o'clock on the last Saturday of the session, by the consent of all parties, and made the special order for that day and hour. But when the hour arrived, the Democrats refused to take it up, but were clamorous from that time until the close of the session, and were continually making motions to take up those very bills failed to pass; thus showing a desire to pass upon the most important legislation of the State; but the Republicans, who had a majority in the Senate, refused to the last to let any business be done until the said contested seat was decided, thus showing that they considered that one case of more importance to the people of the State than the passage of those bills."

Fusion Injustice.—The fusionists, having a majority in the New York Legislature, have resolved to punish those cities which gave large democratic majorities at the late election. They have accordingly passed a bill taking the entire police force of New York and Brooklyn out of the hands of their respective Mayors, and placing it under the control of Commissioners appointed by the Legislature; another bill takes the control of the police of Buffalo from the democratic council and give it to the Republican Mayor. These changes have not been made because the citizens asked for them, but are a gross and uncalled for usurpation of power by the Legislature, to punish those cities for having dared to give majorities for Buchanan.

This unjust act of tyranny will not be submitted to without opposition, and having its constitutionality tested by the proper courts. It will be seen that the Mayor of New York has already served an injunction on the usurping commissioners and charged the police force not to obey their authority.

NEW YORK, April 22.

This morning, at the instigation of Mayor Wood, an injunction was served on the new Police Commissioners, the Mayor entering into bonds of $50,000 to abide the issue. There has been great excitement all day at the City Hall. The Mayor addressed the Police Captains, telling them that the new law was unconstitutional and charging them to obey no authority except the present Police Commissioners.

A Significant Fact.—At the late municipal election in Leavenworth City, Kansas, the free soil party were successful, and elected their Mayor by 160 majority. Leavenworth City was settled chiefly by southern men and has been looked upon as the head-quarters of the pro-slavery party. They however are not insensible to their own interests, and know that their property will be vastly more valuable under a system of free than of slave labor.

The result of this election shows the truth, force, and justice of the position the Democracy have occupied throughout this controversy, that if the people would turn out and express their real sentiment and will on the question of slave or free labor the cause of the latter would triumph; that if left to the regular and natural progress of affairs, undisturbed by outside interference, the people of Kansas would pursue their own interest and establish those institutions which were best adapted to the circumstances of the country.

Pittsburgh, Fort Wayne, & Chicago Railroad.—The Secretary of the Pittsburg, Fort Wayne and Chicago Railroad Company has issued a notice from their office in Pittsburgh, that the company are prepared to issue their new stock in exchange for that of the Ohio and Pennsylvania, Ohio and Indiana, and Fort Wayne and Chicago Railroad Companies, upon the terms and in the manner prescribed in the articles of consolidation.

Ohio and Pennsylvania, interest to July 1 1856, and 20 per cent. premium; Ohio and Indiana, interest to July 1, 1856, and par; Fort Wayne and Chicago interest to July 1, 1856, and 6 per cent. premium. Stockholders in either of the old companies, who may have assigned any portion of their stock previous or subsequent to the consolidation, (August 1, 1856,) without having had such stock transferred on the books of the old companies, and parties holding the certificates for such stock are notified that this company will not recognize the transfer of such assigned stock, as the full shares of the interest to July 1, 1856, and premium, have been credited to the original holders.

☞ It is surprising to witness the perfection to which our friend McDONALD has brought the Photographic Art. We have seen a portrait of Mr. Starkweather, our late County Auditor, taken after his death, by Mr. McDonald, in which the eyes and other features, are as perfect and the whole picture as natural and lifelike as if it had been taken during life. There are few artists who so thoroughly understand their profession as Mac, and none who take better pictures.

An Undeniable Fact.—It is a fact which cannot be controverted, that people will buy where they can get the best goods at the lowest price. This is the reason why Schwegman's Farmer's Depot has been so crowded with customers since he received his new goods. He has certainly got a superb assortment, and is well known for selling cheap. Besides this, he knows the value of printer's ink, and takes pains, by advertising freely and circlating handbills, to keep the people advised of the bargains he has in store for them. A course like this cannot fail of success.

Chinese Sugar Cane.—We have a copy of a neat little pamphlet of 106 pages, giving much useful information in relation to the Chinese Sugar Cane and sugar-making, which ought to be in possession of all who design cultivating the new cane. It is entitled "CHINESE SUGAR CANE and Sugar Making; its History, Culture, and adaptation to the Soil and Economy of the United States. With an account of various Processes of Making Sugar. Drawn from Authentic Sources. By Charles F. Stansbury, A. M. late Commissioner at the exhibition of the Industry of all Nations, at London."

For 28 cents a copy of the book and seed enough to plant two square rods will be sent free of postage. Address C. M. SAXTON & Co. Agricultural Book Publishers, 140 Fulton Street, New York.

Public Convenience.—It is a great convenience to the shopping community (which class, we presume, includes all the ladies of our city) to be able to find anything they may want, however new the style, without having to ransack every store in the city. This can always be done at TOWNLEY'S old established store, as they are continually receiving new goods; one of the firm living in the east for the express purpose of buying every novelty as soon as it appears, being on hand when bargains are to be had, and keeping the assortment always complete. At this time their store presents a magnificent appearance, being literally filled with gay and fashionable goods suited to the season, and every other article required by their numerous customers.—There is no store in the state where you may so certainly find the precise article you want or get it of better quality or at lower prices.

A Hint to Emigrants.

Many of our farmers have a strong inclination to emigrate to Iowa, under the delusion that they can better their condition. Our opinion is that they hun better remain where they are.—Land is dearer in Iowa than it is here, and no better. That the climate is worse and the prospects of crops more uncertain is a fact that cannot be denied. For proof take the following items from the Burris (Iowa) Commercial. Read them, and if you are wise stay here, where such a thing as a complete failure of winter wheat was never known.

No Winter Wheat.—Our exchanges from all parts of the country bring us bad news for winter wheat. In this section, the heavy frosts in March did the business. There will not be fall wheat enough raised in this and the counties adjoining, for next Fall's seed. In Mercer county, there was an unusual breadth of wheat sown last fall, but the seed and labor are a loss. In Louisiana county it is no better, and continued cold weather and unprecedented backwardness of the spring, add much to loss, since it will now be impossible to supply the deficiency with a spring wheat crop. We never had confidence in fall wheat growing in this country, and we are now more convinced than ever of the bad policy of depending upon that crop. In a country of heavy frosts and no snow, fall wheat must ever be a mere chance crop.

Scarcity of Fodder.—In this part of the country, fodder of all descriptions was never known to be so scarce. As a consequence, stock have suffered immensely, and in numerous instances cattle have actually died from starvation. The earth is still frost bound, and at this writing, prospects of a thaw are decidedly in the dubious. Talk of the earth being destroyed by fire in June next! If it gets comfortably *warmed up* by dog days, the way it is now going on, if we don't get grass soon, there will be an awful harvest of hides and horns, with a doubtful chance for beef steak, butter and cheese.

Tiffin & Fort Wayne Railroad.—From the report of the President of the Tiffin and Fort Wayne railroad, we would judge that this road was progressing most rapidly. The grading on the whole line—102 miles—is now principally completed, and ties for the whole work are contracted for, and are now being delivered on the track, in readiness for the laying down of the iron rails in May or June next. All the grading, right of way and other expenses of the company, have been fully paid by the company, without the issue or sale of a single bond or other security of the road for that purpose; and, from the commencement of the work to the present, each monthly estimate has been promptly paid without a single exception. This company has recently purchased iron rails, of Pennsylvania manufacture, for the road, of a house in the city of Philadelphia, and the delivery of which is to commence early in the opening of spring. Of the first mortgage bonds of the company, amounting in all to $11 500 per mile, there will remain unexpended in the iron purchase about $500,000, which the company propose to offer for sale to the market or stock board to enable the purchasing of cars and machinery, and to provide all other necessary fixtures and appurtenances for the road. The Tiffin and Fort Wayne Railroad in an important link in the Great American Central Railroad Line. This line is attracting great attention in the East, because it will furnish short and speedy means of transit from the East to the West—connecting the most important Western points with the great Eastern cities.—*Cin. Toledo, Wabash and Western Railway.—The receipts for March, were as follows:

Passengers	$19,399 99
Freight	31,811 53
Mails and Expresses	4,438 06
Total	$55,649 58

Cold Weather at the South.—We make the following extract from the Augusta (Georgia) correspodent of the New York Journal of Commerce, who writes this under date of April 10:

The recent cold weather has destroyed our fruit, and killed no inconsiderable amount of young cotton in this State. On the morning of the 7th instant, the mercury was down to twenty-five degrees, or seven degrees below the freezing point. Corn will probably grow again where it is cut down by frost, but cotton must be replanted; and as many do not keep seed for such a contingency, all the ground cannot be replanted, even if there time for so much extra labor.

The low temperature of March and the first week in April has operated advantageously on growing wheat, keeping it from shooting into head too rapidly, and causing it to tiller well and spread over the ground. In southern and central Georgia, wheat harvest usually commences the third week in May, so that in six weeks you may expect samples of our new crop in the New York market. Prices were calculated to cause an unusual breadth of land to be sown in wheat at our last seeding time, and we are expecting a fine harvest. One cultivator has used $2,000 worth of Peruvian guano, at a cost of over $70 a ton, delivered.

Feeding England.—A parliamentary paper has just been issued, showing the total imports of grain and flour into England for the past year. Three-fourth of the total supply of foreign flour were obtained from the United States, in addition to three-fifths of the amount of Indian corn and more than a fourth of the amount of wheat.

WASHINGTON, April 18.

No papers have been received beyond Columbus, Ga. The New Orleans letter mail has been received, which was due on the 12th.

The Post Office Department has invited proposals to the first of June, for carrying the entire letter mail overland from Mississippi to San Francisco, in four horse coaches, semi-monthly, weekly and semi-weekly. The Department has nearly completed arrangements for the construction of a wagon road.

A special dispatch to the Washington Evening Statesman, from New Orleans of the 16th says: Official advices are received in that city to the effect that the Mexican Government has admitted that contractors are engaged to open the Tchuantepec Road and have complied with the terms of the original contract, and that the official authorities have received the road.

NEW YORK, April 16.

The steamship Tennessee arrived here this morning.

Her news confirm the defeat of Lockbridge, who retreated without striking a blow, destroying all the fortifications below Castillo. Lockbridge subsequently formed a new battalion from the scattered troops, with the design of joining Walker via Panama.

The boiler of the steamer Scott exploded during the retreat of Lockbridge, when near Serapqua, killing and wounding fifty officers and men. The wounded were sent in the steamer Rescue to Puenta Arenas, while Lockbride remained up the river. He was well supplied with provisions.

ST LOUIS, April 22.

The officers of the steamer Minnehaha from the upper Missouri report that great excitement exists at Platte, mouth of the Nebraska River, in consequence of the Pawnee Indians having driven in a number of settlers at Salt Creek.

A fight occurred resulting in the killing of several of the Indians and one white man. Thirteen Indians were captured. Gen Thayer, of Omaha city, had raised a party of volunteers to protect the settlers.

CHICAGO, April 17.

Indian Troubles.—Advices have been received that the Sioux, after destroying a settlement at Spirit Lake, attacked Springfield, in Southern Minnesota, but were repulsed, with a loss of ten or twelve of their number.

A detachment of one hundred Government troops pursued them, but, being wholly without provisions, were compelled to return.

CHICAGO, April 22.

The Democratic Press says that a band of 600 Siox are committing depredations at South Bend on the Minnesota River. It is rumored that Mankato had been attacked, destroped by fire, and many of the inhabitants murdered by the Indians. The people were flocking to St Peters for security. Several companies of troops from Fort Snelling had been sent for. Great panic existed in various settlements. The farmers were prepering to join the pursuit.

CHICAGO, April 18.

On the 11th, Eli Grifford, a half breed, was hung by a mob for the murder of John Ingalls, of Jackson county, Iowa.

On the same day a mob entered the jail in Bellvue, took a prisoner accused of murder and counterfeiting, and hung him. Great excitement prevails in the vicinity.

TRENTON, N. J., April 14.

Trenton City Election.—The whole Democratic ticket for city officers have been elected by three hundred majority. The Common Councils is also Democratic. A great Democratic victory, this.—*Pennsylvanian.*

Arrival of the Arabia.

NEW YORK, April 16.

The steamship Arabia, with dates from Liverpool to the 4th inst., arrived off Sandy Hook this forenoon.

The difficulty between Austria and Sardinia was widening.

The elections were still progressing favorably for Palmerston.

Peace with China is probable.

The foregoing abstract of the steamer's news was received by telegraph from Sandy Hook.

She will not reach her berth till about half past two.

The steamships Emeu, Kangaroo and Hermann had arrived out.

Arrests continue at Paris of conspirators against Napoleon.

Reports from Madrid say that a Spanish force will, under every circumstance, occupy a portion of the Mexican territory for the protection of Spanish subjects.

Austria has issued a new circular against Sardinia.

France and England will remonstrate with both Sardinia and Austria to keep the peace.

Prussia announces a determination to maintain her policy respecting the Danish Duchies, and has ordered her coast defenses to be strengthened.

Russia is concentrating forces at Anapa, to act against the Circassians.

Chinese details confirm the previous telegraphic dispatchee, repeating the report that the Emperor has ordered Yeh to make peace upon any terms, but the report is doubted.

The American ship Highflyer has been wrecked at Formosa, the crew murdered and the ship burnt.

Four Days Later.

BALTIMORE, April 21.

The steamer Fulton with dates to the 8th inst arrived at New York this morning.

The Grand Duke of Tuscany has declined to conclude with the Papal Chair a concordant like the Austrian.

The accouchment of Queen Victoria was daily expected.

The English elections were over, with a few exceptions. There will be a large Liberal majority in the new House of Commods.

The amount of gold on the way to England from Australia, the greater portion of which could not be far distant, was estimated at £2,500,000.

The closing of five Chinese ports against European commerce was considered imminent.

At the last advices the Persian army was posted at Shiras. General Bukler was fortifying Arabians.

Some salutary reforms were progressing in Turkey. In two cases Christian witnesses had given evidence against Turks, in both instances the latter were found guilty.

A dispatch from Madrid says that Mexico recognises the justice of the Spanish demands.

The diplomatic rupture between Austria and Sardigia is not likely to be adjusted, but neither contemplates hostilites.

The Australian commercial advices are unfavorable.

In consequence of the spread of murrain in the north of England prohibits the importation of cattle skins, &c, which it is thought will affect the provision trade.

Murrain has also appeared among the cattle in Austria.

General Ashburton will commaud the military force which will be sent to China.

The Neufchatel Conference has indefinitely adjourned, as is said, on account of the impracticable demands of Prussia.

Liverpool Markets.—Breadstuffs dull. Provisions steady.

The Corn market throughout France was declining.

Flour closed quiet. Some forced sales at a decline of 1s. Corn has a declining tendency, holders are offering freely.

McHenry & Co's Circular quotes Flour at a decline of 6d a 1s; Western Canal 33s; Ohio 29s a 30s; Southern 28s 6d a 9d and 30s.

White Wheat 8s9d a 9s; red 7s 6d a 8s.

Lard is dull at 70s; holders demand an advance to 71s. Beef firm. Bacon buoyant. Pork quiet but firm. Tallow considerably declined; sales at 52t 6d.

The Sound Dues.—We suppose the abolition of the Danish Sound dues may be regarded as a fact accomplished. It is understood that the capitalization of them, proposed by Denmark, has been accepted by the European government interested, and that a treaty has been signed with the United States, by the forms of which, in consideration of the payment of an inconsiderable amount of money, ($393,000) this annoyance to our commerce is to be forever discontinued. The treaty must await, of course, the approval of the Senate; but of this, and necessary appropriation by Congress of the sum stipulated to be paid, there can be no reasonable doubt; and we take it for granted, therefore that the "Belt and Sounds" will be and remain free of toll from the opening of navigation this season.

It is gratifying to remember that this concession to the commerce of the world has initiated by the measures of our own Government; and it marks, also, the spirit of the age, that it has been accomplished by Denmark and the other powers interested through peaceful negotiations, and without a resort to arms.—*Washington Union.*

NEW ORLEANS, April 21.

Later from Mexico—By the arrival of the brig Union we have papers from the city of Mexico to the 4th.

A reactionary revolutionary government, headed by the clergy and Santa Anna's emissaries, han been discovered at the capital, which was to take place on the evening of the 1st. Several arrests were made, among them General Fraconis Aquilla, one of Santa Anna's ministers. Considerable excitement existed concerning the Spanish expedition.

The British Charge had delivered his ultimatum to the government, giving nine days for an answer.

Right at Last.—A gentleman from Kansas City, just arrived, informed us on Saturday that Colonel Lane was about to leave Kansas Territory for Salt Lake.

Judicial Appointments.—Gov. Willard has appointed Hon. John Pettit, of Lafayette, Circuit Judge of the 12th Circuit, in place of Andrew Ingram, resigned. Also, A. G. Davis Judge of the 10th Circuit, in place of T. J. Stanfield, resigned.

The appointments are excellent ones, and so far as an expression of public opinion has been had, appear to give general satisfaction.—*State Sentinel.*

Stand from Under.—The following eastern banks are reported *down*:—Exeter Bank, N. H. Tiverton Bank, R. I. It is also reported that the Commercial Bank, of Perth-Amboy, N. J. has gone by the board.—*Toledo Com.*

New Counterfeits.—Fives on the the Exchange Bank, Hartford, Conn., viguette, two females, eagle, shield and flags, two 5's on each end, dated Dec 1st 1856. This note made its appearance in New York about ten days ago. The first of last week a man was arrested in Cleveland with a large amount of them in his possession.

☞ The National Intelligencer contains a letter from ExGovernor Gorman, of Minnesota, announcing that he regards the bill for the removal of the seat of Government of that Territory from St Paul's to St Peter's, before the legislature at its last session, as having become a law, and saying that the Hon Reverdy Johnson has given an opinion endorsing the correctness of this view.

PHILADELPHIA, April 13.

Ex-President Pierce left for New Hampshire to-day to return on Saturday. Mrs. Pierce remains in this city. Her health is improving.

NEW YORK, April 17.

A man named John Scratcher was examined yesterday, on charge of attempting to effect the release of Huntington, the forger, from State Prison, by means of a forged pardon. Scratcher as alleged, has been endeavoring to obtain money from various parties to carry out this object. The affair, which is involved in complete mystery is to be further investigated.

BOSTON, April 11.

Chief Justice Shaw will to-day pronounce sentence of death upon Jas McGee and Chas L. Carter, for the murder of the Warden and Dept Warden of the State Prison. The sentence takes effect after one year's imprisonment.

Panic About Wheat.—The St. Louis Intelligencer of Monday says:

A very sudden and entirely unexpected rise has taken place in wheat. This results from the general disaster attending the wheat crop this year. The extraordinary cold and unfavorable season has destroyed many hundred thousand acres of wheat that a few weeks since was promising enough. We understand that some very heavy wheat consuming prophet in St. Louis is predicting that "good white" will soon bring $2 a bushel. It will be time then for the Comet to come.

☞ We notice similar accounts of the destruction of the wheat crop in most of our Illinois and Iowa exchanges. Those prairies, though very beautiful in summer, are anything but pleasant in winter, and thousands who are now going there will have cause to wish themselves back in the "tall timber."

Important Expedition.—The Philadelphia Inquirer, of April 14th says:

We learn that to-morrow, a corps of engineers headed by Mr Trautwine, of this city, will leave New York for Honduras, to make the final survey and to fix the exact location for a double track railroad to connect the Atlantic and Pacific Oceans. Porto Cabellos, on the Atlantic side, and Conchagua, or the Gulf of Fonseca, on the Pacific, will be the termini; embracing a distance of about 170 miles, through a highly fertile and diversified country, abounding in all the requisites for railroad building—fine timber, pure water and quarries of rock. The route lies through a section of country which offers but little more than ordinary obstacles to the construction of a road; a fact which the Hon E Geo. Squier, and the efficient engineers who surveyed the route in 1854, have fully demonstrated to an enterprising English company, which has now undertaken to build it.

Land Sales in Kansas.—The President of the United States has issued his proclamation for the sale of the Indian Trust Lands in Kansas Territory. The sale of the lands held in trust for the Iowa Indians will take place at Iowa Point, Doniphan County, on Wednesday, the 3d day of June next. A like sale will take place at Paoli, Lykins County, of lands held in trust for the Kaskaskia, Peoria, Piankeshaw and Wea Indians, on Wednesday, the 24th day of June next. Of the lands thus held in trust, under the treaty, forty-eight thousand acres are withheld from sale, one hundred and sixty acres having been given to each individual member of these confederated bands; ten sections as a national reservation, and six hundred and forty acres for the benefit of the American Indian Mission Association. The last sale, for the benefit of the Delaware Indians, "comprising the *western* portion of the lands ceded by the Delaware Indians," will take place at Osawkee, on Wednesday, the 15th day of July next. The sales will be for cash, and no bid will be recieved below the valuation placed upon the several tracts by the Commissioners appointed for the purpose.

Paper Towns in Nebraska.—We would advise all our friends to beware of paper towns. There is at this time a perfect town making mania; everybody seems desirous to be the owner of a town. All persons desiring to secure an interest in Nebraska would do well to examine for themselves or get a responsible agent to act for them. Never buy from floating speculators, unless you thoroughly examine the title and property, or you may be fleeced.—*Nebraska Pionier, March 24th.*

DIED—In this city, Thursday, 9th inst., of paralysis, ROBERT STARKWEATHER, Esq., in the 67th year of his age.

[*Communicated*]

The bands of affection that had for nearly two score years strongly bound and endeared him to his affectionate family, have alas been broken.

Judge Starkweather was born in Northamp. ton Mass. Dec. 25th, 1790. At about the age of three years he was left an orphan. From this time up to the age of nineteen he resided with an uncle of his, within which period he learned the trade of an iron moulder. At this period he left Mass., and went into the State of Vermont in the vicinity of the Green Mountains to work in an iron-foundry on his own account, from which place he went to Conn. on the Housatonic river and commenced working on a farm.

After this we find him in the city of Albany, N. Y. strugling against the adversities of fortune to obtain an education, which he had no means of accomplishing but from the earnings of his own hands during the intervening hours of school and study: at this place however, he succeeded in making himself competent as a teacher,—commencing and continuing as such in the town of Coxsackie, Green Co. N. Y. for the term of three years. From thence to Baltimore, the adjoining town and back to Coxsackie, for the next two or three years.

Not considering himself as yet proficient in his two favorit branches of learning—Grammar and Mathematics, he entered an Academy then established at Greensville, N. Y., under the tutorship of Prof. Parker, for the term of t ree months. From this time onward, there was no problem too deep or intricate for him to solve. He now marries, and with her, the companion of his bosom whom he ever cherished with truest devotion and affection, is next found in the State of Ohio, without means and among strangers, but not without ambition. He returns for a livelihood (with which he was no stranger) to farming; from thence to teaching in the different States of Virginia, Kentucky and Ohio; from thence to Athens, Greene Co. N. Y., in which town he held by the voice of the people for several successive years the office of Constable, discharging the duties thereof with all that promptness, firmness, accuracy and humane feeling, which has no signally characterized him through life; and leaving that office only, to accept the appointment of under Sheriff and jailor of said County, under Mr. Chancey Hall, Sheriff, elect in 1831. During this term of office, in a single instance where he extended the hand of friendship and generosity, in giving a confined debtor the privilege of his house and of his private table, within four days of the expiration of his term of confinement, was induced by dishonest advisers to leave Sheriff Starkweather to pay the debt—which, together with the attendant expenses of endeavoring (though unsuccessful) to return him to justice, amounted to about eighteen hundred dollars. Thus did fortune in the above instance frown on him, after having extended to his fellow man with feeling of purest charity, the mantle of comfort, and the pleasure of his own firside. With perseverence however, and ampition as yet uncrushed by the hand of misfortune, Judge Starkweather together with his family, whom (either in prosperity or adversity) he ever ardently cherished and loved, is now (twenty years ago) again seen wending his way westward in search of a new field for the still further development of talent and the more full exercise of those true and genuine virtue which ever characterized him through life.

He at last, after a tedious and prolonged journey of forty two days, reached Fort Wayne, where for the first time during the journey, he halted for rest for himself and family with any view of locating for the winter. He located in Indian Village, Allen county, Indiana, taking up some work, the occupation of farming and contracting the same, until 1831.—previous to which he was elected, and served as county Commissioner, for the term of three years. Then Associate Judge; and lastly elected Auditor of said county, in August 1851. Holding this office for the full term of four years;—was reelected, Oct. 1851 by the vote of the People and discharged the duties of the same up to the time of his death—all of which offices he filled with fullest regard to the best interest of all, and with unwavering firmness, frankness, credit and honor to himself.

It can be truly said of him, that in his bosom virtue sat enthroned, and directed him in all his private as well as public acts and business transactions with mankind.

FADED FLOWERS.—It causes sad reflections to take up a boquet once smilling with beauty, and gaze upon its withered leaves and faded colors. But how many faded flowers do we see on the great boquet of humanity; men and ladies, too, whose beauty has fled with almost the lightning's speed, and whose forms are sinking with premature decay. What a pity it is that all such do not know that ere disease has taken hold upon the vital parts, a simple preparation would restore them to health, to joy, and to beauty. Such a preparation, for instance, as Hostetter's Stomach Bitters, which drives away despondency, streng thens the weaker parts, and restores the whole system. It is recommended by physicians, and commended by all who have used it. Sold by all Druggists, Grocers, and dealers generally.

For sale by H. B. Reed, Meyer & Brother; J. D. Worden & Co., G. H Wagner.

☞ As a SPRING and SUMMER MEDICINE, Carter's Spanish Mixture stands pre-eminent above all others. Its singularly efficacious action on the blood; its strengthening and vivifying qualities, its tonic action on the Liver; its tendency to drive all humors to the surface, thereby cleansing the system according to Nature's own prescription; its harmless and at the same time extraordinary good effects, and the number of cures testified to by many of the most respectable citizens of Richmond, Va., and elsewhere, must be conclusive evidence that there is no humbug about it.

The trial of a single bottle will satisfy the most skeptical of its benefit.

HOOFLAND'S GERMAN BITTERS.

The Great Remedy for Nervous Debility

J M HULSHIZER, Doylestown, Pa., June 20, 1853, says: "My wife has been afflicted with a nervous debility since September, 1851, since which time I have been unable to find any physician or medicine that would benefit her in the least, until one day I called at the store of Dr. Harvey, of this town, for some tincture of iron, and described to him the afflictions of my wife; he then handed me a lot of papers to read, among which I found one describing your German Bittere. I immediately procured a few bottles from him, and am pleased to state that the use of the Bitters has done her more good than all the medicine she has heretofore taken. I wish you send me a half dozen bottles."

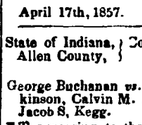
ROCKHILL & NELSON'S FIRST SALE OF THOROUGH-BRED Short Horn Cattle AT FORT WAYNE,

On the 28th day of May, 1857.



THESE CATTLE embrace several Bulls fit for service, Cows, Heifers, and Calves, that will compare in point of size beauty, and purity of blood, with any Durham Cattle ever offered for sale in the State.—Among them is the well known Kentucky Cow "EFFIE" and her FOUR CALVES, that have taken premiums in every contest, besides many others of equal merit, some of which are the finest milkers of any breed in this State or out of it. But their chief and crowning aduantage to the farmer is their great size, aptness to take on flesh, and early maturity, which has been so recently demonstrated in this County in the exhibition and sale of Mr. Ruffner's half and three fourth blood Steers, and which were also seen at the last Allen County Fair.

It is intended to have regular annual or biennal sales, of which this is the first, and that Farmers who are not duly prepared may have an opportunity to improve their stock, a credit of one year will be given on all sums of $200 and less, and 18 months on all sums over $200; the purchaser giving notes with approved security, waiving benefit of appraisement laws, with interest from day of sale, or a discount of 5 per cent. for cash.

Catalogue pedigree will be furnished previous to the day of sale, and also be more fully described in the 2nd vol. of the American Herd Book.

EAGLE DRUG STORE. MEEGAN & NILL, PROPRIETORS.

THE Proprietors would respectfully announce to the citizens of Fort Wayne and vicinity, that they have opened a DRUG STORE

Corner of Calhoun and Main sts.,

opposite Evans' Dry Goods Store, where they intend keeping always on hand a large and well selected stock of

DRUGS, CHEMICALS,

Paints, Varnishes,
Dye-Stuffs, Glass Ware,
Perfumery Extracts,
Hair, Nail, and Tooth Brushes,
Oils, Fancy Articles, &c., &c.,

and every approved Article for the Toilet, to suit the most fastidious. They will always keep on hand a PURE and carefully selected stock of

Brandies, Wines, Gins, &c,

all of which they will guarantee *Pure and Free from Adulteration*, and will sell in quantities to suit purchasers, for medical purposes only. In addition to the above, they intend always keeping on hand a large assortment of imported CIGARS of the most favorite or approved brands.

The proprietors would call attention to their carefully selected stock of

Drugs, Medicines, and Chemicals,

for their Prescription Department, which have been selected in the eastern markets, with special care, by one of the firm. To this department they direct the attention of Physicians, it being the object of the proprietors to devote their special care and attention to this branch of business, believing it a desideratum in and about Fort Wayne to know where to get Pure and Unadultered Medicines; also to know where *Prescriptions can be put up with care and neatness.*

Their object will be to protect the professional honor and character of the Physician by putting up such articles as they know to be pure, thereby giving the patient what the Physician intended. While they pledge themselves to the above, they, at the same time, will carefully guard against the many fatal mistakes which daily occur through the negligence or incompetency of Druggists or their Clerks.

The proprietors would call the attention of COUNTRY PHYSICIANS to their large and carefully selected stock of DRUGS, MEDICINES, &c, which they will sell on reasonable terms. While they do not wish to come in unfair competition with their neighbors, yet they say they *will not and cannot be under sold.*

As one of the firm lives on the premises, those requiring medicine at night will be promptly attended to.

PHYSICIANS always in attendance at the Eagle Drug Store, or procured when desired.

The Proprietors hope, by special care and attention to their business, to merit a liberal share of public patronage.

Nursery Notice.

THE undersigned, Proprietors of the ELM PARK NURSERIES, 4 miles east of Fort Wayne, will offer, the ensuing spring, great inducements to those wishing to set Orchards, or fit up Yards, Lawns add Ornamental Grounds.

They have a fine grown stock of

FRUIT TREES

in cultivation. No pains or expenses have been spared to obtain and test all the varieties of any celebrity, grown in any part of the United States.—The Trees are very thrifty, being grown in deep rich soil, without the use of manure, and much more certain to live than Eastern Trees that are grown almost exclusively by stimulating manures, in compact nursery rows, with scarce any roots; whilst ours have fine mass of fibrous roots, which, when taken fresh from the ground, will ensure their growth, if they receive any ordinary care in transplanting.

We have a fine stock of

Evergreens, Ornamental Trees, and Shrubbery,

including all the rare and beautiful Roses in cultivation; Peonies, white, pink, red and fragrant of different colors, besides SMALL FRUITS, such as Currants, Gooseberries, Strawberries, &c., &c.

GRAPE ROOTS of any size, from one year old plants to bearing vines, can be furnished in large or small quantities. The Grape is as easily grown as the Apple, and no person should d

A CARD.

WE take this opportunity of saying to our friends and the public that we now have in store one of the largest and best assorted stock of

DRY GOODS AND GROCERIES

ever offered in this market.

Our facilities for buying in the Eastern Markets are surpassed by any other house in the State.—Our Mr. JONAS W. BOWEN, devotes his whole time to the purchase of Goods in the New York, Boston and Philadelphia Market, which enables us, instead of purchasing and receiving all Goods at one time, to have

New Goods arrive almost every day.

Since the Spring received over seven hundred packages of goods, and more are on the way. Our stock is complete in each department, and we invite the attention of *Merchants, Farmers, Mechanics, and the public* generally to give us a call, and we assure them that it will be to their advantage to do so. Goods at one time, to have

Wholesale or Retail,

as cheap as can be afforded in this market.

One Price, and no abatement.

FORT WAYNE
MERCANTILE INSTITUTE.

Phœnix Block cor. Main & Calhoun Sts Ft. Wayne In

THE PRINCIPAL of this Institution, from past experience and success as a Teacher and Practical Book Keeper, has no hesitation in saying that the facilities here afforded to young men for qualifying themselves for the counting room, and various other mercantile pursuits are unsurpassed by any similar institution in the Union.

The course of instruction is thorough and practical, embracing Book-keeping by single and double Entry, and its application to every department of trade, as now practised by the most accomplished and experienced accountants (taught on an entirely new and successful plan, enabling the student to become much more self-reliant, in less time than an other plan,) Commercial law, Mercantile Correspondence, Commercial calculation, Practical and Ornamental Penmanship, &c.

The system of Penmanship adopted in this institution is unrivaled, giving a free and easy use of the hand and pen, thereby enabling the student to effect any style of writing. Young ladies and gentlemen desirous of qualifying themselves for teachers, will save much time and expense by securing this system taught in no other institution in the West.

The thorough and extensive course of Instruction, combined with the elegance, beauty and convenience of the rooms, the highly qualified teachers, and pleasant and healthy location, renders this the most attractive institution to all who may desire an accomplished commercial education.

Being impressed with the necessity of Ladies acquainting themseves more thoroughly with business transactions, the Principal has fitted up apartment with neatness, elegance and convenience, expressly for them.

The ladies Department is entirely separate from the male, having separate entrances from the street and will remain permanently conected with the institution.

Students are taught individually, and not in classes; therefore they can enter at any time, and advance in the ratio of their capacity.

TUITION:

For full Commercial Course, including Practical Penmanship $25,00
For same with Ornamental Penmanship 35,00

NOTICE
To Liquor Dealers and Merchants.

A COMPLETE assortment of the OILS necessary for

Making and Flavoring every kind of
LIQUOR.

and a package of the articles used for giving ARTIFICIAL STRENGTH to Liquors, (converting 70 gallons of Whisky to 100 gallons,) and every article necessary to commence a LIQUOR STORE, will be furnished for $20. Also all the information necessary to conduct such an establishment, thus enabling the new beginner to successfully compete with the oldest liquor dealers.

Address through the Post Office,

P. LACOUR, New Orleans.

LACOUR'S CONCENTRATED ACID for making VINEGAR is put up in 2 gallons packages, at $5 per package—in good shipping order.

PARLOR COOKING STOVES.—You will find three kinds of these Stoves at

BRANDRIFF'S.

COFFEE—Old Gov. Java, 6lbs for a dollar, at

J. U WINSLOW'S

Quit Drinking Poisonous Liquors.

PATENT IMPROVED PROCESS
FOR MAKING ALL KINDS OF
Liquors and Vinegar,
INSTANTLY, by the use of
LACOUR'S ESSENTIAL OILS.

THESE OILS are obtained by Distillation at the Chemical Laboratory, Parish of Jefferson, of PIERRE LACOUR, author of Lacour's Chemical Analysis, Lacour's Chemical Manipulations, Lacour on the Manufacture of Liquors, &c.

Purchasers are particularly requested to return the flasks and obtain their money, if the Oil does not give perfect satisfaction.

LACOUR'S OIL OF COGNAC converts neutral spirit to a superior imitation of Imported Brandies, viz: Otard, Dupuy, Sazerac, Marett, Cognacs, Poultney, Seignette, United Vineyard Proprietors, Castillon and London Dock Brandies. These Liquors will have a full fruitly flavor and a beautiful sparkling color. Common Rectified Whisky will be changed by the use of the Oil of Cognac to New York Brandy, Pine Apple Brandy, Common Cognac Brandy, &c.

LACOUR'S OIL OF RYE changes Rectified Whisky to Monongahela Rye Whisky, Old Virginia Malt Whisky, Bourbon Whisky, &c.

OIL OF CEDRAT changes common Rectified Whiskey to Old Irish Malt Whisky, and a superior article of Scotch Whisky.

OIL OF PEACH changes common Whisky to Virginia Peach Brandy, &c. Oil of Peach and Oil of Cognac will convert common Whisky to Apple Brandy.

OIL OF GIN converts the poorest Whisky to Holland Gin, Schiedam Schnapps, Rose Gin, Swan Gin, English Gin &c.

LACOUR'S CONCENTRATED ACID will, in five hours after being mixed, change five gallons of good Vinegar and twenty-five gallons of water to thirty gallons of the most acid Vinegar that can be found in the market. By the use of Lacour's Concentrated Acid, vinegar can be made for one dollar and sixty cents per barrel.

FOR MAKING LIQUORS, Lacour's Oils require no preparation—only pour the Oil into the Whisky and shake well. The Liquors thus made will have a fine natural aroma, a full, rich, oily taste; a beautiful transparent color, and a fine bead. Lacour's Oils exert three distinct properties in converting common Whisky to Brandy, Gin, &c. The first property combines with and subsides in the form of flocculent particles the whole of the grain oil (Amyle Alcohol). The Whisky is thus deprived of that peculiar irritating and burning taste, and becomes a neutral spirit; the second property consists in an oily mucilaginous taste imparted to the liquor, which renders it mellow and imparts an appearance of great age; the third property is exhibited in the rich vinous nutty odor that is imparted to the liquor, which renders distinction from the genuine brands impossible.

These oils are put up in quart flasks; each flask contains sufficient oil for making three hundred gallons of liquor. Full and comprehensive directions accompany the bottles. Price $2 per bottle.

For Sale at the corner of St. Charles and Poydras Streets, New Orleans.

One bottle of these oils, five in number, will be securly packed and shipped with bill of lading, to any part of the country, upon the receipt of $10, to the address of

P. LACOUR, New Orleans.

Purchasers are requested, as a guarantee of good faith, to furnish us the name of any house in New Orleans, and we will ship them a package of the Oils. If they do not perform all that is claimed for *them*, they will cost nothing.

HOMŒOPATHY.

P. M. LEONARD, M. D., respectfully tenders his professional services to the citizens of Fort Wayne and vicinity, as Homœopathic Physician and Surgeon. He may be found at the office of Dr. Brooks, on Calhoun street, in building north of Canal Bridge, at all times when not professionally engaged.

To the Afflicted.

DR. M. FALOON'S Practice is confined entirely to all obstinate or critical diseases such as CANCERS, TUMORS, ULCERS, SCROFULA, SALT RHEUM, TETTER, ERYSIPELAS, KINGS EVIL, BARBER'S ITCH, SCALD HEAD, FEVER SORES, PILES, KIDNEY DISEASES, LUMBAGO, DYSPEPSIA, CATARRH, FISLE OR FISTULA, CANKER OR NURSING SORE, MOUTH, ETC, ETC.

All Diseases of the Eyes

Successfully treated.

His mode of treating CANCERS is by giving Medicine internal, to operate on the blood, and apply external Medicine, which separates the cancer from the good flesh, and consequently removes it out by the roots, and without the use of any caustic medicine or surgical operation.

He has samples of Cancers removed by him, for any person to examine that wishes, which will convince any rational person that it is the only true method by which a permanent cure can be effected.

Dr. F. will give references to hundreds of persons cured of the above diseases, through different parts of the United States.

Dr. M. FALOON has recently located in Fort Wayne, Ind., Office and dwelling on corner of Clinton and Wayne streets.

A CARD FOR THE LADIES.

THE GREAT TURKISH PERIODICAL REMEDY—For the immediate removal of Obstructions, Irregularities, Prolapsus Uteri, (Falling of the Womb,) Leuchorrhea or Whites, &c., &c.

These Pills have, never in a single instance failed in producing the menses. Too much cannot be said in their favor. No woman can enjoy good health when that particular part of her peculiar organization is deranged. Sickness at stomach, headace, languor, debility, pain in the head, side and back, loss of appetite, costiveness, &c., are some of the symptoms which attend irregular menstruation. As certain as time are these Pills to remove one and all of these symptoms.

Be sure and get the genuine, which has our signature on each box. These Pills may be had by addressing Dr. Sanfloy and Co., and enclosing $1; the Pills will be sent by return mail.

N. B.—Ladies whose health will not permit of an increase of family, will find these Pills a successful preventive.

Ladies who are pregnant should not use these Pills, as they are sure to bring on miscarriage, though no injury to health would follow. Address,

Carter's Spanish Mixture.

THE GREAT PURIFIER OF THE BLOOD!

THE BEST ALTERATIVE KNOWN

Not a Particle of Mercury in it!

An infallible remedy for Scrofula, King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face; Blotches, Boils, Ague and Fever, Chronic Sore Eyes, Ringworm or Tetter, Scalded Head, Enlargement and pain of the Bones and Joints, Salt Rheum, Stubborn Ulcers, Syphilitic Disorders, and all diseases arising from an injudicious use of Mercury, Imprudence in Life, or Impurity of the Blood.

This great alterative Medicine and Purifier of the Blood is now used by thousands of grateful patients, from all parts of the United States, who testify daily to the remarkable cures performed by the greatest of all medicines, "*Carter's Spanish Mixture.*" Neuralgia, Rheumatism, Scrofula, Eruptions of the Skin, Liver Disease, Fevers, Ulcers, Old Sores, Affection of the Kidneys, Diseases of the Throat, Female Complaints, Pains and Aching of the Bones and Joints, are speedily put to flight by using this inestimable remedy.

For all diseases of the Blood, nothing has yet been found to compare with it. It cleanses the system of all impurities, acts gently and efficiently on the Liver and Kidneys, strengthens the Digestion, gives tone to the stomach, makes the skin clear and healthy, and restores the Constitution enfeebled by disease or broken down by the excesses of youth, to its pristine vigor and strength.

For the DISEASES OF FEMALES it is peculiarly applicable, and wherever it has become known, is regularly prescribed with the happiest effects. It invigorates the weak and debilitated, and imparts elasticity to the worn-out frame, clears the skin, and leaves the patient fresh and healthy; a single bottle of this inestimable remedy is worth all the so-called Sarsaparillas in existence.

The large number of certificates which we have received from persons from all parts of the United States, is the best evidence that there is no humbug about it. The press, hotel keepers, magistrates, physicians, and public men, well known to the community, all add their testimony to the wonderful effects of this *Great Blood Purifier.*

Call on the Agent and get an Almanac, and read the details of astonishing cures performed by *Carter's Spanish Mixture,* (in most cases where every thing else has signally failed.) The limits of an advertisement will not admit their full insertion.

DOCTOR HOOFLAND'S

CELEBRATED

GERMAN BITTERS,

PREPARED BY

Dr. C. M. JACKSON, Philadelphia, Pa.

Will effectually cure

Liver Complaint, Dyspepsia, Jaundice,

Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disordered Liver or Stomach

Such as Constipation, Inward Piles, Fulness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and difficult Breathing, Fluttering at the Heart, Choaking or suffocating sensations when in a lying posture, Dimness of Vision, Dots or webs before the sight, Fever and dull pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden Flushes of Heat, Burning in the Flesh, Constant imagining of evil, and Great depression of spirits.

THE proprietor in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is now and untried article but one that has stood the test of a ten year's trial before the American people, and its reputation and sale is unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and individuals in all parts of the country is immense, and a careful perusal of the Almanac published annually by the proprietor, and to be had gratis of any of its Agents, cannot but satisfy the most skeptical that this remedy is really deserving the great celebrity it has obtained.

CAUTION.

Carefulness should be our study, but more particularly when the health is at stake. Since these Bitters have, from their medical qualities, become so popular, there have been a great many concoctions called Stomach Bitters, and often represented to be the same in virtue as Dr. Hostetter's, palmed upon the public. Be careful of these villainous compounds! Our Bitters are put up in square quart bottles, and covered with the patent metallic cap, stamped "Hostetter's Stomach Bitters," and Dr. J. Hostetter blown on the glass. All others are imitation.

PURIFY THE BLOOD.

Moffat's Life Pills

AND

PHŒNIX BITTERS,

FREE FROM ALL MINERAL POISONS.

THE great popularity which *Moffat's Life Pills* and *Phœnix Bitters* have attained, in consequence of the extraordinary cures effected by their use renders it unnecessary for the proprietor to enter into a particular analysis of their medicinal virtues or properties. Having been more than twenty years before the public, and having the united testimony of more than *Three Millions* of persons who have been restored to the enjoyment of perfect health by them, it is believed that their reputation as the best vegetable medicine now before the public, admits of no dispute. In almost every city and village in the United States there are many who are ready to testify to their efficacy in removing disease, and giving to the whole system renewed vigor and health.

In cases of SCROFULA, ULCERS, CURVY OR ERUPTIONS of the skin, the operation of the Life Medicines is truly astonishing, often removing in a few days every vestige of these loathsome diseases, by their purifying effects on the blood. FEVER and AGUE, DYSPEPSIA, DROUSY, PIAES, and in short most all diseases, soon yield to their curative properties. No family should be without them, as by their timely use much suffering and expense may be saved.

POETRY.

Religion—What is It?

'Tis not to go to church to-day,
To look devout and seem to pray,
And ere to-morrow's sun goes down,
Be dealing scandal through the town.

Not every sanctimonious face
Denotes the certain region of grace,
A phiz that seems to scrowl at sin,
Oft veils hipocrisy within.

'Tis not to mark our duty's walk,
Or of our own good deeds to talk,
And then to practice secret crime
And so mispend and waste our time.

'Tis not for acts and creeds to fight
And call our zeal the rule of right,
When all we wish is at the best,
To see our church excel the rest.

'Tis not to wear the Christian's dress,
And love to all mankinds profess,
Then treat with scorn the suffering poor,
And fast against them close the door.

Ah, no! Religion means not this,
Its fruit far sweeter, fairer is:
In heavenly soil alone it thrives,
And more than blossoms where it lives.

Religion! 'tis the rule of life,
The bond of love, the bane of strife,
Its precept this, "to others do,
As you would have them do to you."

It grieves to hear an ill report;
And scorns with human woes to sport;
Of other's deeds to speak no ill;
But tell of good, or else be still.

And does *Religion* this import;
Oh! may our souls its inducence court;
Haste, haste, the bright and blissful day
When the whole earth shall own its way.

From an English Paper.

What a Royal Marriage is to Cost.

The proposed marriage of our Princess Royal with a Prussian Prince has never been popular in England. The political attitude of Prussia of Prussia during our late war disgusted the people of this country with the Prussian king his government, and the rumors—which rest on good authority—as to what the marriage is to cost us are notlikely to render the projected royunion more favourably received. The Sun makes the following remarks on this subject:—

"Electors, do not forget Prussia! Many will wonder what they are to remember—are they to recollect her dirty conduct before the war, at the beginning of the war, all through the war, and at the end of the war? Is it her bullying Neufchatel and Switzerland, her getting the prisoners liberated to avoid a conviction of treachery, and her now playing the Emperor of the French false, and Switzerland, too, by refusing to settle the business? Yes—all and any of these if they please; but probably no effort of memory is needed—the contemptible meanness, the avarice, self-seeking, and political crouching of Prussia are never likely to be forgotten by the generation which has witnessed the war with Russia. But what have electors to do with Prussia just now? Why bring her up at the busting in 1857? Has Lord Palmerston indicated any wish to maintain the honor of England at Berlin or at Dantzig? Lord Palmerston will have to guard both the honor and the purse of England in the new Parliament, if we be not much mistaken; and Prussia will be the source of danger. We pray, as in duty bound, for her Majesty Queen Victoria, for his Royal Highness Prince Albert, for Albert Prince of Wales, and for all the Royal Family, the Princess Royal surely included; and amongst our prayers we certainly ask that they may never dishonor their position, nor disgrace their country, nor become channels to enrich German poverty, or to satisfy German longings for the proceeds of English taxation. We have had too much of that already. Leopold of Belgium and Queen Adelaide will never be forgotten. True or false, it will always be believed that a German Princess instigated a Monarch, shrewd in such matters, to get her the enormous sum of £100,000 per annum as the price of his signature to the Reform Bill, and for what on earth could it be wanted but for needy German cousins? Now the rumor has been that the new Parliament will be asked for £50,000 per annum!—for the interest of £1,000,000 at 5 per cent.; to marry the Princess Royal to a *Prussian* prince! Could Prussia and its royal family be degraded further in the eyes of Europe, we should say that such a mercenary transaction would sink them yet lower. Happily for us the credit of Prussia is not in our keeping; for we certainly would not discount a single draft on *her* honor. But we must bethink ourselves of the credit of our own Royal Family, and of our own pockets. These *are* points for the hustings. Nothing made Queen Adelaide so unpopular with the nation, and so indisposed it to mourn for her death as the repulsive Germanism which taxed the people so unmercifully, either to enable her to roll in wealth or to enrich her poor German relations. We would not have our young Princess brought in the same mortifying position. We should like our Royal Family to be favorites with the country. They will be so if only reasonable support is asked for them, but if our Princesses are to cost £50,000 a year each, bless us—where is the end to be? If the daughters are to be salaried in this style, and the sons in proportion; and if the latter are to swallow up military sinecures retained as special rewards for veteran service, Lord Palmerston may rest assured that the country will think we pay too much for the whistle of royalty, and that the opinion will spread that a president is better. Prodigiously less costly at least. Let electors be awake.—There is the utmost danger of a job. The Prince and the Premier will need the voice of the country to enable them to resist the urgency of German, especially of Prussian, avarice They must be able to reply that England will not endure it. That England expect her Princesses to marry husbands who can support them—especially if they marry members of a royal family. That England would much rather have had nothing to do in the royal marriage line with a country it despises more than any other in Europe, but that, if the young people are in love, why the country of the husband must maintain the happy pair. We have no objection to give our Princess Royal £50,000 as a *dowery*, and to have done with it. Against any further taxing of the country to enrich a Prussian husband we firmly protest. Fifty thousand pounds per annum, then to the electors, if they now speak out. It is in a *new* Parliament that Courts and Cabinets get through with such jobs as these. Nothing will prevent something of the kind but pledging the candidates to vote against it. It is folly to talk of *reducing* expenditure if such annual burdens are to be inflicted on us. If taxpayers do their duty at the hustings, and on that condition only, they will obtain for themselves the reward of £50,000 per annum."

The "Republican" Clerical Epidemic.—Mr Burch, a Black-Republican political preacher of Albany, is charged with some serious derelictions into which his amorous propensities have led him.

Indian Murders in Iowa.

By the letters below, our readers will learn that a terrible murder of white settlers has taken place in the north-western part of Iowa. Twenty bodies of the slain had already been found. The letter is as follows:

FORT DODGE, IOWA, MARCH 13.

Dear Sir: This town is in a perfect blaze of excitement. For two months past reports of depredatons by the Indians have been received here, but occasioned no alarm. Yesterday, however some residents from the vicinity of Spirit Lake Dickenson county, arrived here, bringing intelligence that some forty persons were missing, and that the bodies of fourteen had been found lifeless and mutilated.

Three companies of volunteers, raised in Webster City and this place, will start to-morrow morning to hunt the murderers. The Sioux, Chippewas, and Winnebagoes deny any connection with these dreadful acts; and Major W. Williams, Indian Agent at this point, says that the villains are criminals who have been banished the several tribes.

Among the families known to be killed are those of Mr. Howe (consisting of seven persons.) Mr. Gardner's, Mr. Lucas's, and Mr. Mattock's. But fourteen bodies had been found when the messengers left, the residents being fearful to search for their neighbors.

I am going with the volunteers in the morning, and will give you the news of our movements the first opportunity, if the red-skins in the mean time do not shoot me. We are all well armed with revolvers, Bowie-knives, and rifles, and the most of us would like a little brush—all, however, through patriotism, humanity, and a land warrant.

Yours, truly,

GEORGE W. BRIZEE.

P. S. A messenger who has arrived since the above was written, states that twenty bodies had been found up to the time of his departure; and that it was ascertained that two half breeds were among the Indian gangs.

Arrest and Release.—E. F. Nexsen, the Gramercy Bank financier, was recently arrested in New York city on a requisition, but subsequently released on his pledge to afford every facility to those up the affairs of the broken banks and to protect, so far as he is able, the creditors. He claims that a true exhibit will show larger assets than has been supposed. He is conceded to be the only person who can make an accurate exhibit. It is said he will return as soon as he is assured of his personal safety.—*Madison Courier.*

We hope the above is not altogether true. How any one had the authority to arrest the scoundrel and then release him we cannot imagine. The thousands of poor men in this State who have suffered through his roguery, demand that he should be treated like any other guilty criminal. There should be a stop put to these kid-gloved scoundrels who prey upon society. They should as fast as arrested, be consigned to some penitentiary, and as ours is now conducted, upon the system of reformation, perhaps it would do them some good. Banks, like churches, are getting to be excellent cloaks for rascality. All manner of cheating is practised. The Presidents and cashiers steal the capital and deposites and it is politely called "failing," "defaulting," or something of the kind. This Nexsen should be brought back, and not only be compelled to make every possible restitution to his creditors, but should suffer the extreme rigor of the law.—*New Albany Ledger.*

How Old Reed was Reformed.—We once knew a man by the name of Reed, commonly known as "old Reed," quite notorious in his way and whose religious belief is, that after death he shall appear in the shape of some animal, and thinks he will be a horse. Now, old Reed has been a hard man, and has not been in the habit of treating his family as a religious man should. One day, after his wife had suffered from neglect and borne his abuse untill her patience was completely exhausted, she determined to give him a plain lecture, and to touch him upon his religious belief; so, resolutely seating herself by his side, and looking him full in the face, while a tear-drop glistened in her eye, she commenced: "Reed, I am going to have a serious talk with you: I have something to say to you, and you must hear it. I have a duty to perform, and I shall do it; and then if you are miserable hereafter, it shall not be my fault. You believe Reed, that when you die you will turn into some animal, and you think you will be a horse. Now, if you keep on in your present course, and continue to neglect and abuse your family, squandering your money in drink, when you die you will turn into some poor old twelve-shilling horse, and some old clam-peddler will get you, and you will be hard-worked and half-starved, and I'll see you every day in a rickety old wagon, full of clams. But now, Reed, it needn't be so. Your future may be even according to your theory—a bright, a happy one—for if you will reform, and turn right about, and become a better man—be kind and affectionate to your family, be kind and treat them as you should, when you die you will turn into a fire hundred dollar horse, and some West-End buck will get you and give you a bushel of oats a day, rub you down with pea-straw, and have you docked and tail set up." Old Reed was converted—has reformed—and is patiently waiting for death to introduce him into his converted horse-heaven.

☞ An interesting story is told of the famous Parisian hair-dresser, Leger, recently deceased. He was so modest a man that he not unfrequently spoke of the sublime inspirations which he had in his art. One evening he was called in to dress the hair of a very beautiful woman then much admired in Paris. He found a quantity of flowers, ribbons and wreaths on the table to choose from, and, by change, near them a pair of silk stockings, which that lady was to wear. Leger cast a glance of contempt at the ordinary articles prepared for him, and seizing on the stockings declared that he would dress her hair with them. The Lady, who had full confidence in his taste, made no objection, and the same night she appeared with an incomprehensible *chef-d'œuvre* on her head, producing an admirable effect.

The next morning the lady received several applications from persons whom she knew, requesting to know where they could obtain a head-dress of similar beauty, and inquiring whether it could not be lent for an hour. The lady replied that the principal material was a web of the tarantula spider, which never lasted but one night, and that consequently lending was out of the question. Strange to say not one of them was ever able to find the material mentioned by the lady.

Care of an Old Strawberry Plat.—1. Do not remove the winter covering of straw, or other protection, till the weather becomes soft and the plants begin to start. 2. When you have taken away this protection, thin out the vines, leaving the youngest and hardiest; and when you think you have thinned them enough, take out the third of what are left. 3. Then spade in a good dressing of fine vegetable mold with a little ashes, well mixed. 4. Cover the ground with tanbark, about an inch deep, except close to the plants, where it should be thin. 5. If a severe frost is threatened, spread a little clean straw over the plants for the night.

Decidedly Magoonish.—It is said that in his lecture on 'Mind your own business,' Dr. Magoon relates the following story:

"A young man went from New York city to the West where he commenced business on his own account, and married. His friends in the city were interested in his welfare, and when a merchant was about to journey to the place where the young man had located, he was requested to visit the emigrant and ascertain how he lived, what sort of a wife he had chosen, his prospects, &c. Accordingly the New Yorker ascertained the residence of his young friend, and called upon him quite early in the morning.—He found him in a small, neat cottage, and just taking his breakfast. The introduction of the New Yorker to his wife was quite off-hand and unceremonious and he was requested to be seated and partake of the morning meal. The young wife had prepared the steak, biscuit and coffee with her own hands, and for a table had used her kneading board, over which a napkin was spread and the 'board' placed on her lap. The New Yorker declined a seat at the table, and took his leave. On making his report to his New York friends as to how he found his young friend living, he described the style as 'magnificent!'—and for the explanation of the superlative he sat that were he the owner of that young man's furniture, he would not take ten thousand dollars for the legs of his table!"

Mr. Kalloch Escapes.—It is with no pleasure that we have published the trial of Mr. Kalloch. We merely wished to illustrate to our readers the character of Massachusetts justice. It was known before the trial commenced that the accused was to escape.

The trial, offensive to decency, has its moral, an I,

Like the toad, ugly and venomous,
Bears yet a precious jewel in its head,

in the picture it presents.

The Reverend adulterer sits during the trial surrounded by his deacons, while he hears his fellow ministers testify to the purity of his character, and the moderation of his attributed—his wittols mount the stand to testify a tenderness as overflowing as that of their wives, and men and women, awaiting to be put in the same category, subscribe for his defence. The jury alone agrees to disgrace in regard to the agreeable pastor.

All this might have happened in any State; but only in Massachusetts could the community withdraw their eyes from such a tableau to exclaim; how wicked they are in South Carolina; how much holier are we!—*Albany Argus.*

Marrying in Fun.—Another instance of the folly of "marrying in fun" is just now exciting the good people of Fonda. It seems that a banking officer of that town met at a ball a young lady from this neighborhood, who was very good-looking, sprightly and attractive. While waltzing with her, he proposed in jest that they should be married. The lady accepted his proposition and they adjourned to a side-room, where a person present was called upon to perform the ceremony, which he did to the infinite amusement of all concerned. The gentleman thought no more of the matter until the breaking up of the ball, when his fair partner called upon him to conduct her to his residence. He demurred, and thought she had better go to her own residence. She said that the house of her husband was her home; "whither thou goest I will follow thee." He didn't hardly understand that she was his wife. She insisted upon her martial rights, and claimed that as the ceremony had been performed by a Justice of the Peace, it was a perfectly fair and legal transaction. The gentleman inquired into matters; found that her positions were correct, and that he was in a bad box. He is now endeavoring to ignore his wife and back out of the bargain, with little prospect of success, however. The lady has before been married, and was, it is understood, divorced from her former husband, but under such circumstances as admitted of her marrying a-gin.—*Albany (N. Y.) Transcript.*

On Sight and on Demand.—One of "Porter's" is responsible for the following anecdote:

Judge C——, a well known and highly respected Knickerbocker, on the shady side of fifty, a widower with five children—full of fun and frolic ever ready for a joke to give or take, was bantered the other evening by a miss of five and twenty, for not taking a wife; she urged that he was hale, hearty, and deserved a matrimonial messmate. The judge acknowledged the fact, admitted that he was convinced by the eloquence of his fair friend that he had been very remiss, and expressed contrition for the fault confessed; ending with offering himself to the lady, telling her she certainly could not reject him, after pointing out to him his heinous offence.

The lady replied that she would be most happy to take the situation, so uniquely advertised, and become bone of his bone and flesh of his flesh; but there was one, to her serious obstacle.

"Well," says the judge, "name it. My profession is to surmount such impediments."

"Ah! judge, this is beyond your powers. I have vowed if I ever marry a widower, he must have ten children."

"Ten children! Oh! that's nothing" says the Judge. "I'll give you five now, and my notes on demand in instalments for the balance."

Fact!

A Gay Lothario.—A good story is told of a fellow of North Carolina. Having been put in jail for marrying thirteen wives, he made his escape. He was seen three or four days afterward by a gentleman who recognized him. The gentleman, anxious to secure the reward for his apprehension, invited him to his house to dine, and then slyly slipped out in pursuit of a constable, but great was his horror on his return to find that the culprit had absconded with his own wife.

Are you Planting Out a Grape-Vine?—Then dig the ground two feet deep, and at least a space of four feet in diameter, and also dig and mix in with the earth one bushel of *well-rotted* barnyard manure for each vine. Do *not* use *fresh* manure, and if you have no old, then mix one quart of lime and two quarts ground or broken bones, with one gallon of chamber ley; scatter it over the ground beforehand, and dig in thoroughly. When you plant the vine, see to it, first, that the roots are not dry and dead; cut one: if it is dead; try another; if any are blackened and dead, cut them away. The roots of young grape-vines will not bear much exposure, and often plants are set out when not a single root will grow, and thus the plant is not better than a cutting. Cut your vine after planting, so that only two bud are left to grow. If you have been careful to prepare the ground as above—have spread out the roots carefully, in setting—have not trod upon the ground, and afterward are careful to keep the ground hoed in two weeks, all summer, your vines will be six feet high in October.—*Ohio Farmer.*

Have you a Choice Grap-cutting that you Want to Grow?—Then go to the woods, dig some roots of a wild grape-vine, cut them into pieces of only one, or at most, two buds; insert the lower end, by the common cleft grafting method, i to the piece of wild vine root; plant, it in the earth, leaving the bud of the cutting just level with the top of the ground. Every one so made will grow, and in two years become bearing plants.—*Ibid.*

My Artificial Stone House.

EDS. COUNTRY GENTLEMAN.—I wish to say some words to your readers upon the best and cheapest material used and recommended by Fowler and others—artificial stone walls, made of lime, sand, and cinder, &c. But I object to the usual method of using it in what is called "grout" houses, cement houses, &c. It is sloppy and annoying work to build it up in troughs, as is usually done. The fluid runs down over the walls, and each layer does not harden fast enough to build on, as soon as it is often wished.

I use the same material, and propose to obviate these objections by a neater and pleasanter mode of use, which shall be easier and stronger work than the usual mode. I make my material into blocks of stone, and build my houses of these. Thus, make cheaply some 20 or 30 boxes, of sides only, without top or bottom, of proper size, say two feet long, one foot high, and fourteen to eighteen inches wide. These are the dimensions of the future blocks. Make up, of a morning, sufficient material in a bed, fill up all the boxes, smooth the tops, and go off. Next morning lift off the boxes; let the blocks stand to dry and harden; set the boxes in a new place, and fill up as before.—Do this under a shed, or if out of doors, cover over the blocks during the first rains, and they will soon harden enough to use. In this way any Irishman may, in twenty-five mornings, at fifty cents or less, each, *hew out* stone enough for a large house.

Then build your house, as any one would of stone. The blocks for first story may be 14 or 16 or 18 inches wide, and for second story, 10 or 12, narrowing the mould boxes by nailing a board or two inside or sawing the ends narrower. Walls so built are dry; but they may be made still more so, and warmer if possible, and still cheaper, if any could wish it, by putting a wooden cylinder or two into the mould box, and knocking it out after the box is lifted off, thus making dead air in the wall. Besides this, the wall is of course, to be furred and lathed and plastered inside. Of course some blocks are to be made solid, for corners and ends of the walls.

The dimensions of your house being given, one can easily calculate the number of blocks needed, and any farmers boy may make them.

In laying the wall, if, in order to bring a flush wall for door or window, it should be necessary to leave a few inches between some few blocks, the space may be easily filled by pieces of brick or regular stones well mortared in.

I commend this as the *best* plan for building a cheap and durable house—better than brick, as good as stone, and lasts forever. If nice finish is needed, cement and color the outssde wall, and lay it off by times, like stone as indeed it is.

If any one doubts this plan, try it on a smoke-house, or hog-pen, or shed of any kind, or indeed, a stone wall.

No rats infest this house, no storm can shake it, no wind whistle thro' it. Dry, tight, warm in winter and cool in summer, it is the cheapest, stongest, and best.

A proportion of the ingredients which Fowler and all others recommend, is—say 10 bushels or barrow loads of lime, twenty of sand, and 70 of stones, &c., and any quantity of water. I take it for granted your readers understand something of the gravel wall plan. I write merely to advocate the block stone plan—the same material, but in different shape. One can see how c

SATURDAY, APRIL 25, 1857.

Democratic Nominations—The balloting for democratic candidates for City Offices is being held to-day, and will be kept open until 9 o'clock P. M. The following are the candidates:—For Mayor, W Stewart and L Wolke. Treasurer, H G Wagner and Ch. Piepenbrink; Marshal, P McGee; Clerk, T Meegan and J Strout; Civil Engineer, S McElfatrick; Assessor, Jas. Howe; Street Commissioner, John Hardendorf and M Langan. For School Trustees, Wm Rockhill, C E Stargis, and W H Link—all in favor of free schools and opposed to any distribution of the School Fund.

S S Morss has withdrawn and declines being a candidate for mayor.

The Congressional Vacancy—The Noble Co. Democrat makes a suggestion—which is not intended so much as a suggestion as an inquiry—that the democrats in this district dispense with a regular nomination and put our old candidat-Hon Robert Lowry again on the track by common consent. The Democrat does not recommend this course, but simply makes the suggestion, to elicit a consideration of the matter.

Personally, we should have no particular objection; but we think it probable there may be others wishing a chance to visit Washington to whom such an arrangement would not be exactly satisfactory.

Indiana Appointments.—We hear that Gov Jos A Wright of this state will be tendered the appointment of Minister to Prussia: and Judge James W. Borden of this city that of Commissioner to the Sandwich Islands. Both are good appointments, worthily bestowed, and show a just appreciation on the part of the Executive of the gallant support given by Indiana to the democratic cause.

Democratic Mass Convention.

The Mass Convention on Saturday evening was certainly the largest assemblage ever convened for such a purpose in our city. The Court House was literally crammed and packed, and hundreds were outside who could not gain admission. As a matter of course there was so much noise and confusion that it was impossible to do any business, and the people were so closely wedged together, that they could not get to the ballot box to deposite their votes. P. McGee being the only candidate proposed, was nominated by unanimous consent for Marshal. It being utterly out of the question to ballot for the candidates for other offices, with any hope of getting through before the commencement of the Sabbath, it was finally resolved to abandon the attempt, and adjourn the convention until 9 o'clock this morning, at which hour the ballot is to be opened and continue until 9 at night, so as to give all a chance to have a vote in the nomination of candidates.

As this is a *democratic* convention for the nomination of candidates for *city* offices, it is to be hoped none but democrats who reside within the city will interfere, and proper means should be adopted to confine the voting exclusively to that class of citizens.

The experience of last Saturday is enough to satisfy all right thinking men and honest democrats of the utter absurdity and impracticability of nominating candidates by mass convention, and the absolute necessity of adhering to our successful and time-honored system of nominating by delegate conventions. We are aware that very plausible arguments may be used in favor of the opposite course; it may be urged that the people can do their own business best in their own way—that they know their own rights and are prepared to defend them—that all political powers rests in the sovereign people—*vox populi, vox Dei*—and much more of the same sort. We are not disposed to deny that these all sound very fair and democratic; but we take a more rational and common sense view of the matter, and when it is inconvenient if not impracticable for the people *en masse* to exercise those rights, we contend that it is equally democratic and much more sensible for them to delegate the exercise of such powers and such rights to a smaller and less unwieldy body than a mass convention. This has been the almost invariable practice of the democratic party, and when it has been departed from they have usually been glad to return to it. It has been long tried and found to answer, as the general success and excellence of the organization of the democratic party abundantly proves. The people meet together in their primary meetings—in wards for city and townships for county purposes,—and select a portion of their number—men whom they can trust, and delegate to them to power to act in their behalf, instructing them how to vote, if thought necessary, in their conventions. Can anything be simpler or more purely democratic than this course? And how much better and more satisfactorily such a delegate convention will transact its business than an unwieldy and unmanageable crowd like that of last Saturday.

There have always been among us a few discontented and bogus democrats, jealous of those whose devoted attention to the interest of the democratic party gave them an influence which they exercised for the public good. The cry of *clique*, and corrupt *party leaders* is nothing new. Such men have often sought to break down our party organization—and we regret to see such men yet exist among us, and are now striving by every means to distract the party, or thrust themselves into positions they are unworthy to fill. They have always hitherto failed, and they will again fail. The organization of the democratic party will be kept up, and the regular democratic method of delegate conventions, under which we have been so successful, will be adhered to. The best interests of the party dictate that course, and the inconveniences of the Mass Convention system have been so clearly demonstrated, that the disorganizers will have to abandon the project, acquiesce in the will of the majority, and again sink into the obscurity nature intended them for.

The State Sentinel.—We welcome the reappearance on our table of the Indianapolis State Sentinel, which had been temporarily suspended in consequence of the lamentable disaster which destroyed their office. The energy and determination shown by the proprietors, in so promptly recommencing their paper, is deserving the substantial approbation of the democracy throughout the state. This can be best shown by an immediate and extensive subscription to the paper—accompanied, of course, by the payment in advance.

SCHOOL TRUSTEES.

In our last we alluded to the effort of the Times to create the impression that the democrats, and especially the Catholic and Lutheran portion of that party, were seeking to destroy our Common School. We denied the charge, so far as the mass of the party was concerned, though we admitted there might be a few who were desirous of distributing the school funds; and we further pointed out the consequences that must inevitably arise from any such attempt. For this we have been severely taken to task by two correspondents in the Jeffersonian. They both willfully misrepresent our position, representing us as making the very charge we were defending them from, and on the false premises thus assumed labor stoutly and with many words to demolish us and prove we were wrong in doing what we did not do. Of course it is needless to attempt any reply to such rigmaroles. One of the writers is well known to our readers as a man fond of seeing himself in print, meddling with matters that he does not understand and has no business with, and as a perfect monomaniac on religious matters. He is not, and never was, a democrat, further than he could use that party to subserve what he thought the interests of his church. In his own opinion he is undoubtedly "some pumkins;" but others differ in this view of his capabilities, and what ever his aspirations may be they look upon him at present as anything but infallible. The other correspondent we judge to be a man of much the same calibre.

Our position of last week we are satisfied is the correct one—namely, that the democratic party, or even the mass of the Catholics or Lutherans did not wish to disturb our common school system or divert its funds from their legitimate purposes; but that a few injudicious men might entertain such a design. This view is abundantly sustained by the events of the past week. The only candidates put in nomination for School Trustees are warm friends of our public school, and we are assured by all classes that they have never entertained any wish to disturb the system or make it an issue at the polls. So much for our first position. Our second, that there were hot-headed injudicious individuals who did wish this, is equally proved by the fluttering of these writers; they take the remarks to themselves. The cap fits and they have put it on; without noticing the bells affixed to it, they think it highly ornamental, and they strut before an admiring public through the appropriate medium of the Jeffersonian, with as much vanity and self-complacency as a newly made militia officer would in his equipments—fuss, feathers, and all.

We have devoted more space to this matter than it deserves, and will only briefly allude to another circumstance connected with it. Some few have felt sufficiently aggrieved to avail themselves of that last dread resort of offended dignity—stopping their papers. This we do not complain of—they paid up honorably and had a perfect right to stop whenever they saw fit—They are old friends, and we regret to part with them, but we have no wish to force the paper on them, or intrude it on any one to whom it is obnoxious. A subscriber or two more or less is only like a drop in a bucket compared with the circulation of a newspaper. If they thought they could intimidate us from doing what we conceive our duty to the democratic party and the public, we have only to say that they entertain a very erroneous idea of our disposition and habits. Such things never trouble us an instant; and even if they did, they would in this case fail of their object, as their loss is already make up ten-fold by new subscribers. Should more do the same thing the effect would be the same. Our citizens will not see a press proscribed because the editor does his duty, but will sustain him in the conflict. We have abundant assurances that any other subscribers we may lose on this account will be made up in the same ratio as has been done with those who have already withdrawn the light of their countenances from us.

Democratic Victory in Albany—The democrats in Albany, N. Y. have achieved a most glorious triumph, having routed the combined republican and know-nothing forces, and carried the city ticket by 300 majority, and elected seven of the ten aldermen.

☞ Notwithstanding the general cry of hard times, we observe preparations for an unusual amount of new buildings. Already workmen have commenced clearing off the ground for 12 or 13 new business houses—all to be three or four story brick buildings; and in all parts of the city piles of brick, stone, and lumber are accumulating for the erection of dwellings, called for by our rapidly increasing population. A few years, and we shall see such a city here as was never dreamed of by the most sanguine of our old settlers.

Who is Responsible?—The State Sentinel contains a letter from Dr Sage, American Senator from Ohio and Switzerland, in which he distinctly and unhesitatingly asserts that the failure to pass the Appropriation Bills, through means of which the wheels of our state government are locked and our benevolent institutions closed, rests entirely with the republicans. He says:—

"It will be recollected by those who read the proceedings of the last Senate, that the Miller and Shyrock contested seats was laid over until two o'clock on the last Saturday of the session, by the consent of all parties, and made the special order for that day and hour. But when the hour arrived, the Democrats refused to take it up, but were clamorous from that time until the close of the session, and were continually making motions to take up those very bills failed to pass; thus showing a desire to pass upon the most important legislation of the State; but the Republicans, who had a majority in the Senate, refused to the last to let any business be done until the said contested seat was decided, thus showing that they considered that one case of more importance to the people of the State than the passage of those bills."

Fusion Injustice.—The fusionists, having a majority in the New York Legislature, have resolved to punish those cities which gave large democratic majorities at the late election. They have accordingly passed a bill taking the entire police force of New York and Brooklyn out of the hands of their respective Mayors, and placing it under the control of Commissioners appointed by the Legislature; another bill takes the control of the police of Buffalo from the democratic council and give it to the Republican Mayor. These changes have not been made because the citizens asked for them, but are a gross and uncalled for usurpation of power by the Legislature, to punish those cities for having dared to give majorities for Buchanan.

This unjust act of tyranny will not be submitted to without opposition, and having its constitutionality tested by the proper courts. It will be seen that the Mayor of New York has already served an injunction on the usurping commissioners and charged the police force not to obey their authority.

NEW YORK, April 22.

This morning, at the instigation of Mayor Wood, an injunction was served on the new Police Commissioners, the Mayor entering into bonds of $50,000 to abide the issue. There has been great excitement all day at the City Hall. The Mayor addressed the Police Captains, telling them that the new law was unconstitutional and charging them to obey no authority except the present Police Commissioners.

A Significant Fact.—At the late municipal election in Leavenworth City, Kansas, the free soil party were successful, and elected their Mayor by 160 majority. Leavenworth City was settled chiefly by southern men and has been looked upon as the head-quarters of the pro-slavery party. They however are not insensible to their own interests, and know that their property will be vastly more valuable under a system of free than of slave labor.

The result of this election shows the truth, force, and justice of the position the Democracy have occupied throughout this controversy, that if the people would turn out and express their real sentiment and will on the question of slave or free labor the cause of the latter would triumph; that if left to the regular and natural progress of affairs, undisturbed by outside interference, the people of Kansas would pursue their own interest and establish those institutions which were best adapted to the circumstances of the country.

Pittsburgh, Fort Wayne, & Chicago Railroad.—The Secretary of the Pittsburg, Fort Wayne and Chicago Railroad Company has issued a notice from their office in Pittsburgh, that the company are prepared to issue their new stock in exchange for that of the Ohio and Pennsylvania, Ohio and Indiana, and Fort Wayne and Chicago Railroad Companies, upon the terms and in the manner prescribed in the articles of consolidation.

Ohio and Pennsylvania, interest to July 1 1856, and 20 per cent premium; Ohio and Indiana, interest to July 1, 1856, and par; Fort Wayne and Chicago interest to July 1, 1856, and 6 per cent. premium. Stockholders in either of the old companies, who may have assigned any portion of their stock previous or subsequent to the consolidation, (August 1, 1856.) without having had such stock transferred on the books of the old companies, and parties holding the certificates for such stock are notified that this company will not recognize the transfer of such assigned stock, as the full shares of the interest to July 1, 1856, and premium, have been credited to the original holders.

☞ It is surprising to witness the perfection to which our friend McDONALD has brought the Photographic Art. We have seen a portrait of Mr. Starkweather, our late County Auditor, taken after his death, by Mr. McDonald, in which the eyes and other features, are as perfect and the whole picture as natural and lifelike as if it had been taken during life. There are few artists who so thoroughly understand their profession as Mac, and none who take better pictures.

An Undeniable Fact—It is a fact which cannot be controverted, that people will buy where they can get the best goods at the lowest price. This is the reason why Schwegman's Farmer's Depot has been so crowded with customers since he received his new goods. He has certainly got a superb assortment, and is well known for selling cheap. Besides this, he knows the value of printer's ink, and takes pains, by advertising freely and circulating handbills, to keep the people advised of the bargains he has in store for them. A course like this cannot fail of success.

Chinese Sugar Cane—We have a copy of a neat little pamphlet of 106 pages, giving much useful information in relation to the Chinese Sugar Cane and sugar-making, which ought to be in possession of all who design cultivating the new cane. It is entitled "CHINESE SUGAR CANE and Sugar Making; its History, Culture, and adaptation to the Soil and Economy of the United States. With an account of various Processes of Making Sugar. Drawn from Authentic Sources. By Charles F. Stansbury, A. M. late Commissioner at the exhibition of the Industry of all Nations, at London."

For 28 cents a copy of the book and seed enough to plant two square rods will be sent free of postage. Address C. M SAXTON & Co. Agricultural Book Publishers, 140 Fulton Street, New York.

Public Convenience—It is a great convenience to the shopping community (which class, we presume, includes all the ladies of our city) to be able to find anything they may want, however new the style, without having to ransack every store in the city. This can always be done at TOWNLEY's old established store, as they are continually receiving new goods; one of the firm is living in the east for the express purpose of buying every novelty as soon as it appears, being on hand when bargains are to be had, and keeping the assortment always complete. At this time their store presents a magnificent appearance, being literally filled with gay and fashionable goods suited to the season, and every other article required by their numerous customers.—There is no store in the state where you may so certainly find the precise article you want or get it of better quality or at lower prices.

A Hint to Emigrants.

Many of our farmers have a strong inclination to emigrate to Iowa, under the delusion that they can better their condition. Our opinion is that they had better remain where they are.—Land is dearer in Iowa than it is here, and no better. That the climate is worse and the prospects of crops more uncertain is a fact that cannot be denied. For proof take the following items from the Burris (Iowa) Commercial. Read them, and if you are wise stay here, where such a thing as a complete failure of winter wheat was never known.

No Winter Wheat—Our exchanges from all parts of the country bring us bad news for winter wheat. In this section, the heavy frosts in March did the business. There will not be fall wheat enough raised in this and the counties adjoining, for next Fall's seed. In Mercer county, there was an unusual breadth of wheat sown last fall, but the seed and labor are a loss. In Louisiana county it is no better, and continued cold weather and unprecedented backwardness of the spring, add much to loss, since it will now be impossible to supply the deficiency with a spring wheat crop. We never had confidence in fall wheat growing in this country, and we are now more convinced than ever of the bad policy of depending upon that crop. In a country of heavy frosts and no snow, fall wheat must ever be a mere chance crop.

Scarcity of Fodder.—In this part of the country, fodder of all descriptions was never known to be so scarce. As a consequence, stock have suffered immensely, and in numerous instances cattle have actually died from starvation. The earth is still frost bound, and at this writing, prospects of a *thaw* are decidedly in the dubious. Talk of the earth being destroyed by fire in June next! If it gets comfortably *warmed up* by dog days, the way it is now going on, if we don't get grass soon, there will be an awful harvest of hides and horns, with a doubtful chance for beef steak, butter and cheese.

Tiffin & Fort Wayne Railroad—From the report of the President of the Tiffin and Fort Wayne railroad, we would judge that this road was progressing most rapidly. The grading on the whole line—102 miles—is now principally completed, and ties for the whole work are contracted for, and are now being delivered on the track, in readiness for the laying down of the iron rails in May or June next. All the grading, right of way and other expenses of the company, have been fully paid by the company, without the issue or sale of a single bond or other security of the road for that purpose; and, from the commencement of the work to the present, each monthly estimate has been promptly paid without a single exception. This company has recently purchased iron rails, of Pennsylvania manufacture, for the road, at a house in the city of Philadelphia, and the delivery of which is to commence early in the opening of spring. Of the first mortgage bonds of the company, amounting in all to $11,500 per mile, there will remain unexpended in the iron purchase about $5,0 000, which the company propose to offer for sale to the market or stock board to enable the purchasing of cars and machinery, and to provide all other necessary fixtures and appurtenances for the road. The Tiffin and Fort Wayne Railroad in an important link in the Great American Central Railroad Line. This line is attracting great attention in the East, because it will furnish short and speedy means of transit from the East to the West—connecting the most important Western points with the great Eastern cities.—*Cin. Toledo, Wabash and Western Railway—The receipts for March, were as follows:

Passengers	$19,399 99
Freight	31,811 53
Mails and Expresses	4,438 06
Total	$55 649 58

Cold Weather at the South.—We make the following extract from the Augusta (Georgia) correspondent of the New York Journal of Commerce, who writes this under date of April 10:

The recent cold weather has destroyed our fruit, and killed no inconsiderable amount of young cotton in this State. On the morning of the 7th instant, the mercury was down to twenty-five degrees, or seven degrees below the freezing point. Corn will probably grow again where it is cut down by frost, but cotton must be replanted, and as many do not keep seed for such a contingency, all the ground cannot be replanted, even if there time for so much extra labor.

The low temperature of March and the first week in April has operated advantageously on growing wheat, keeping it from shooting into head too rapidly, and causing it to tiller well and spread over the ground. In southern and central Georgia, wheat harvest usually commences the third week in May, so that in six weeks you may expect samples of our new crop in the New York market. Prices were calculated to cause an unusual breadth of land to be sown in wheat at our last seeding time, and we are expecting a fine harvest. One cultivator has used $2,000 worth of Peruvian guano, at a cost of over $70 a ton, delivered.

Feeding England.—A parliamentary paper has just been issued, showing the total imports of grain and flour into England for the past year. Three-fourth of the total supply of foreign flour were obtained from the United States, in addition to three-fifths of the amount of Indian corn and more than a fourth of the amount of wheat.

WASHINGTON, April 18.

No papers have been received beyond Columbus, Ga. The New Orleans letter mail has been received, which was due on the 12th.

The Post Office Department has invited proposals to the first of June, for carrying the entire letter mail overland from Mississippi to San Francisco, in four horse coaches, semi-monthly, weekly and semi-weekly. The Department has nearly completed arrangements for the construction of a wagon road.

A special dispatch to the Washington Evening Statesman, from New Orleans of the 16th says: Official advices are received in that city to the effect that the Mexican Government has admitted that contractors are engaged to open the Tehuantepec Road and have complied with the terms of the original contract, and that the official authorities have received the road.

NEW YORK, April 16.

The steamship Tennessee arrived here this morning.

Her news confirm the defeat of Lockbridge, who retreated without striking a blow, destroying all the fortifications below Castillo. Lockbridge subsequently formed a new battalion from the scattered troops, with the design of joining Walker via Panama.

The boiler of the steamer Scott exploded during the retreat of Lockbridge, when near Serapqua, killing and wounding fifty officers and men. The wounded were sent in the steamer Rescue to Puenta Arenas, while Lockbride remained up the river. He was well supplied with provisions.

ST LOUIS, April 22.

The officers of the steamer Minnehaha from the upper Missouri report that great excitement exists at Platte, mouth of the Nebraska River, in consequence of the Pawnee Indians having driven in a number of settlers at Salt Creek.

A fight occurred resulting in the killing of several of the Indians and one white man. Thirteen Indians were captured. Gen Thayer, of Omaha city, had raised a party of volunteers to protect the settlers.

CHICAGO, April 17.

Indian Troubles.—Advices have been received that the Sioux, after destroying a settlement at Spirit Lake, attacked Springfield, in Southern Minnesota, but were repulsed, with a loss of ten or twelve of their number.

A detachment of one hundred Government troops pursued them, but, being wholly without provisions, were compelled to return.

CHICAGO, April 22.

The Democratic Press says that a band of 600 Siox are committing depredations at South Bend on the Minnesota River. It is rumored that Mankato had been attacked, destroped by fire, and many of the inhabitants murdered by the Indians. The people were flocking to St Peters for security. Several companies of troops from Fort Snelling had been sent for. Great panic existed in various settlements. The farmers were prepering to join the pursuit.

CHICAGO, April 18.

On the 11th, Eli Grifford, a half breed, was hung by a mob for the murder of John Ingalls, of Jackson county, Iowa.

On the same day a mob entered the jail in Bellvue, took a prisoner accused of murder and counterfeiting, and hung him. Great excitement prevails in the vicinity.

TRENTON, N. J., April 14.

Trenton City Election.—The whole Democratic ticket for city officers have been elected by three hundred majority. The Common Councils is also Democratic. A great Democratic victory, this.—*Pennsylvanian.*

Arrival of the Arabia.

NEW YORK, April 16

The steamship Arabia, with dates from Liverpool to the 4th inst., arrived off Sandy Hook this forenoon.

The difficulty between Austria and Sardinia was widening.

The elections were still progressing favorably for Palmerston.

Peace with China is probable.

The foregoing abstract of the steamer's news was received by telegraph from Sandy Hook.

She will not reach her berth till about half past two.

The steamships Emeu, Kangaroo and Hermann had arrived out.

Arrests continue at Paris of conspirators against Napoleon.

Reports from Madrid say that a Spanish force will, under every circumstance, occupy a portion of the Mexican territory for the protection of Spanish subjects.

Austria has issued a new circular against Sardinia.

France and England will remonstrate with both Sardinia and Austria to keep the peace.

Prussia announces a determination to maintain her policy respecting the Danish Duchies, and has ordered her coast defenses to be strengthened.

Russia is concentrating forces at Anapa, to act against the Circassians.

Chinese details confirm the previous telegraphic dispatches, repeating the report that the Emperor has ordered Yeh to make peace upon any terms, but the report is doubted.

The American ship Highflyer has been wrecked at Formosa, the crew murdered and the ship burnt.

Four Days Later.

BALTIMORE, April 21.

The steamer Fulton with dates to the 8th inst arrived at New York this morning.

The Grand Duke of Tuscany has declined to conclude with the Papal Chair a concordant like the Austrian.

The accouchment of Queen Victoria was daily expected.

The English elections were over, with a few exceptions. There will be a large Liberal majority in the new House of Commods.

The amount of gold on the way to England from Australia, the greater portion of which could not be far distant, was estimated at £2,500,000.

The closing of five Chinese ports against European commerce was considered imminent.

At the last advices the Persian army was posted at Shiras. General Bukler was fortifying Arabians.

Some salutary reforms were progressing in Turkey. In two cases Christian witnesses had given evidence against Turks, in both instances the latter were found guilty.

A dispatch from Madrid says that Mexico recognises the justice of the Spanish demands.

The diplomatic rupture between Austria and Sardigia is not likely to be adjusted, but neither contemplates hostilities.

The Australian commercial advices are unfavorable.

In consequence of the spread of murrain in the north of England prohibits the importation of cattle skins, &c, which it is thought will affect the provision trade.

Murrain has also appeared among the cattle in Austria.

General Ashburton will commaud the military force which will be sent to China.

The Neufchatel Conference has indefinitely adjourned, as is said, on account of the impracticable demands of Prussia.

Liverpool Markets.—Breadstuffs dull. Provisions steady.

The Corn market throughout France was declining.

Flour closed quiet. Some forced sales at a decline of 1s. Corn has a declining tendency, holders are offering freely.

McHenry & Co's Circular quotes Flour at a decline of 6d a 1s; Western Canal 33s; Ohio 29s a 30s; Southern 28s 6d a 9d and 30s.

White Wheat 8s9d a 9s; red 7s 6d a 8s.

Lard is dull at 70s; holders demand an advance to 71s. Beef firm. Bacon buoyant. Pork quiet but firm. Tallow considerably declined; sales at 52t 6d.

The Sound Dues.—We suppose the abolition of the Danish Sound dues may be regarded as a fact accomplished. It is understood that the capitalization of them, proposed by Denmark, has been accepted by the European government interested, and that a treaty has been signed with the United States, by the forms of which, in consideration of the payment of an inconsiderable amount of money, ($393,000) this annoyance to our commerce is to be forever discontinued. The treaty must await, of course, the approval of the Senate; but of this, and necessary appropriation by Congress of the sum stipulated to be paid, there can be no reasonable doubt; and we take it for granted, therefore that the "Belt and Sounds" will be and remain free of toll from the opening of navigation this season.

It is gratifying to remember that this concession to the commerce of the world has initiated by the measures of our own Government; and it marks, also, the spirit of the age, that it has been accomplished by Denmark and the other powers interested through peaceful negotiations, and without a resort to arms.—*Washington Union.*

NEW ORLEANS, April 21.

Later from Mexico—By the arrival of the brig Union we have papers from the city of Mexico to the 4th.

A reactionary revolutionary government, headed by the clergy and Santa Anna's emissaries, has been discovered at the capital, which was to take place on the evening of the 1st. Several arrests were made, among them General Fraconis Aquilla, one of Santa Anna's ministers. Considerable excitement existed concerning the Spanish expedition.

The British Charge had delivered his ultimatum to the government, giving nine days for an answer.

Right at Last.—A gentleman from Kansas City, just arrived, informed us on Saturday that Colonel Lane was about to leave Kansas Territory for Salt Lake.

Judicial Appointments.—Gov. Willard has appointed Hon John Pettit, of Lafayette, Circuit Judge of the 12th Circuit, in place of Andrew Ingram, resigned. Also, A. G Davis Judge of the 10th Circuit, in place of T. J. Stanfield, resigned.

The appointments are excellent ones, and so far as an expression of public opinion has been had, appear to give general satisfaction.—*State Sentinel.*

Stand from Under.—The following eastern banks are reported *down*:—Exeter Bank, N. H. Tiverton Bank, R. I. It is also reported that the Commercial Bank, of Perth-Amboy, N, J. has gone by the board.—*Toledo Com.*

New Counterfeits.—Fives on the the Exchange Bank, Hartford, Conn., vignette, two females, eagle, shield and flags, two 5's on each end, dated Dec 1st 1856. This note made its appearance in New York about ten days ago. The first of last week a man was arrested in Cleveland with a large amount of them in his possession.

☞ The National Intelligencer contains a letter from ExGovernor Gorman, of Minnesota, announcing that he regards the bill for the removal of the seat of Government of that Territory from St Paul's to St Peter's, before the legislature at its last session, as having become a law, and saying that the Hon Reverdy Johnson has given an opinion endorsing the correctness of this view.

PHILADELPHIA, April 13.

Ex-President Pierce left for New Hampshire to-day to return on Saturday. Mrs. Pierce remains in this city. Her health is improving.

NEW YORK, April 17.

A man named John Scratcher was examined yesterday, on charge of attempting to effect the release of Huntington, the forger, from State Prison, by means of a forged pardon. Scratcher as alleged, has been endeavering to obtain money from various parties to carry out this object. The affair, which is involved in complete mystery is to be further investigated.

BOSTON, April 11.

Chief Justice Shaw will to-day pronounce sentence of death upon Jas McGee and Chas L. Carter, for the murder of the Warden and Dept Warden of the State Prison. The sentence takes effect after one year's imprisonment.

Panic About Wheat.—The St. Louis Intelligencer of Monday says:

A very sudden and entirely unexpected rise has taken place in wheat. This results from the general disaster attending the wheat crop this year. The extraordinary cold and unfavorable season has destroyed many hundred thousand acres of wheat that a few weeks since was promising enough. We understand that some very heavy wheat consuming prophet in St. Louis is predicting that "good white" will soon bring $2 a bushel. It will be time then for the Comet to come.

☞ We notice similar accounts of the destruction of the wheat crop in most of our Illinois and Iowa exchanges. Those prairies, though very beautiful in summer, are anything but pleasant in winter, and thousands who are now going there will have cause to wish themselves back in the "tall timber."

Important Expedition.—The Philadelphia Inquirer, of April 14th says:

We learn that to-morrow, a corps of engineers headed by Mr Trautwine, of this city, will leave New York for Honduras, to make the final survey and to fix the exact location for a double track railroad to connect the Atlantic and Pacific Oceans. Porto Cabellos, on the Atlantic side, and Conchagua, or the Gulf of Fonseca, on the Pacific, will be the termini; embracing a distance of about 170 miles, through a highly fertile and diversified country, abounding in all the requisites for railroad building—fine timber, pure water and quarries of rock. The route lies through a section of country which offers but little more than ordinary obstacles to the construction of a road; a fact which the Hon E Geo. Squier, and the efficient engineers who surveyed the route in 1854, have fully demonstrated to an enterprising English company, which has now undertaken to build it.

Land Sales in Kansas—The President of the United States has issued his proclamation for the sale of the Indian Trust Lands in Kansas Territory. The sale of the lands held in trust for the Iowa Indians will take place at Iowa Point, Doniphan County, on Wednesday, the 3d day of June next. A like sale will take place at Paoli, Lykins County, of lands held in trust for the Kaskaskia; Peoria, Piankeshaw and Wea Indians, on Wednesday, the 24th day of June next. Of the lands thus held in trust, under the treaty, forty-eight thousand acres are withheld from sale, one hundred and sixty acres having been given to each individual member of these confederated bands; ten sections as a national reservation, and six hundred and forty acres for the benefit of the American Indian Mission Association. The last sale, for the benefit of the Delaware Indians, "comprising the *western* portion of the lands ceded by the Delaware Indians," will take place at Osawkee, on Wednesday, the 15th day of July next. The sales will be for cash, and no bid will be recieved below the valuation placed upon the several tracts by the Commissioners appointed for the purpose.

Paper Towns in Nebraska—We would advise all our friends to beware of paper towns. There is at this time a perfect town making mania; everybody seems desirous to be the owner of a town. All persons desiring to secure an interest in Nebraska would do well to examine for themselves or get a responsible agent to act for them. Never buy from floating speculators, unless you thoroughly examine the title and property, or you may be fleeced.—*Nebraska Pioneer, March 24th.*

DIED—In this city, Thursday, 9th inst., of paralysis, ROBERT STARKWEATHER, Esq., in the 67th year of his age.

[*Communicated*]

The bands of affection that had for nearly two score years strongly bound and endeared him to his affectionate family, have alas been broken.

Judge Starkweather was born in Northamp. ton Mass. Dec. 25th, 1790. At about the age of three years he was left an orphan. From this time up to the age of nineteen he resided with an uncle of his, within which period he learned the trade of an iron moulder. At this period he left Mass., and went into the State of Vermont in the vicinity of the Green Mountains to work in an iron-foundry on his own account, from which place he went to Conn. on the Hausatonic river and commenced working on a farm.

After this we find him in the city of Albany, N. Y. strugling against the adversities of fortune to obtain an education, which he had no means of accomplishing but from the earnings of his own hands during the intervening hours of school and study: at this place however, he succeeded in making himself competent as a teacher,—commencing and continuing as such in the town of Coxsackie, Green Co. N. Y. for the term of three years. From thence to Baltimore, the adjoining town and back to Coxsackie, for the next two or three years.

Not considering himself as yet proficient in his two favorit branches of learning—Grammar and Mathematics, he entered an Academy then established at Greensville, N. Y., under the tutorship of Prof. Parker, for the term of t ree months. From this time onward, there was no problem too deep or intricate for him to solve. He now marries, and with her, the companion of his bosom whom he over cherished with truest devotion and affection, is next found in the State of Ohio, without means and among strangers, but not without ambition. He returns for a livelihood (with which he was no stranger) to farming; from thence to teaching in the different States of Virginia, Kentucky and Ohio; from thence to Athens, Greene Co. N. Y., in which town he held by the voice of the people for several successive years the office of Constable, discharging the duties thereof with all that promptness, firmness, accuracy and humane feeling, which has no signally characterized him through life; and leaving that office only, to accept the appointment of under Sheriff and jailor of said County, under Mr. Chancey Hall, Sheriff, elect in 1831. During this term of office, in a single instance where he extended the hand of friendship and generosity, in giving a confined debtor the privilege of his house and of his private table, within four days of the expiration of his term of confinement, was induced by dishonest advisers to leave Sheriff Starkweather to pay the debt—which, together with the attendant expenses of endeavoring (though unsuccessful) to return him to justice, amounted to about eighteen hundred dollars. Thus did fortune in the above instance frown on him, after having extended to his fellow man with feeling of purest charity, the mantle of comfort, and the pleasure of his own firsside. With perseverence however, and ampition as yet uncrushed by the hand of misfortune, Judge Starkweather together with his family, whom (either in prosperity or adversity) he ever ardently cherished and loved, is now (twenty years ago) again seen wending his way westward in search of a new field for the still further development of talent and the more full exercise of those true and genuine virtue which ever characterised him through life.

He at last, after a tedious and prolonged journey of forty two days, reached Fort Wayne, where for the first time during the journey, he halted for rest for himself and family with any view of locating. It is for days, however, he located in Lake Township, Allen county Indiana; taking up, once more, the occupation of farming and continuing the same, until 1851.—previous to which he was elected, and served as county Commissioner, for the term of three years. Then Associate Judge; and lastly elected Auditor of said county, in August 1851. Holding this office for the full term of four years;—was reelected, Oct. 1851 by the vote of the People and discharged the duties of the same up to the time of his death—all of which offices he filled with fullest regard to the best interest of all, and with unwavering firmness, frankness, credit and honor to himself.

It can be truly said of him, that in his bosom virtue sat enthroned, and directed him in all his private as well as public acts and business transactions with mankind.

FADED FLOWERS.—It causes sad reflections to take up a boquet once smilling with beauty, and gaze upon its withered leaves and faded colors. But how many faded flowers do we see on the great boquet of humanity; men and ladies, too, whose beauty has fled with almost the lightning's speed, and whose forms were sinking with premature decay. What a pity it is that all such do not know that ere disease has taken hold upon the vital parts, a simple preparation would restore them to health, to joy, and to beauty. Such a preparation, for instance, as Hostetter's Stomach Bitters, which drives away despondency, strengthens the weaker parts, and restores the whole system. It is recommended by physicians, and commended by all who have used it. Sold by all Druggists, Grocers, and dealers generally.

For sale by H. B. Reed, Meyer & Brother; J. D. Wordeu & Co., G. H Wagner.

☞ As a SPRING and SUMMER MEDICINE, Carter's Spanish Mixture stands pre eminent above all others. Its singularly efficacious action on the blood; its strengthening and vivifying qualities, its tonic action on the Liver; its tendency to drive all humors to the surface, thereby cleansing the system according to Nature's own prescription; its harmless and at the same time extraordinary good effects, and the number of cures testified to by many of the most respectable citizens of Richmond, Va, and elsewhere, must be conclusive evidence that there is no humbug about it.

The trial of a single bottle will satisfy the most skeptical of its benefit.

HOOFLAND'S GERMAN BITTERS.

The Great Remedy for Nervous Debility

J M HULSH ZER, Doylestown, Pa., June 20, 1853, says: "My wife has been afflicted with a nervous debility since September, 1851, since which time I have been unable to find any physician or medicine that would benefit her in the least, until one day I called at the store of Dr. Harvey, of this town, for some tincture of iron, and described to him the afflictions of my wife; he then handed me a lot of papers to read, among which I found one describing your German Bitters. I immediately procured a few bottles from him, and am pleased to state that the use of the Bitters has done her more good than all the medicine she has heretofore taken. I wish you send me a half dozen bottles."

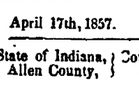
ROCKHILL & NELSON'S

FIRST SALE OF THOROUGH-BRED

Short Horn Cattle

AT FORT WAYNE,

On the 28th day of May, 1857.



THESE CATTLE embrace several Bulls fit for service, Cows, Heifers, and Calves, that will compare in point of size beauty, and purity of blood, with any Durham Cattle ever offered for sale in the State.—Among them is the well known Kentucky Cow "EFFIE" and her FOUR CALVES, that have taken premiums in every contest, besides many others of equal merit, some of which are the finest milkers of any breed in this State or out of it. But their chief and crowning aduantage to the farmer is their great size, aptness to take on flesh, and early maturity, which has been so recently demonstrated in this County in the exhibition and sale of Mr. Ruffner's half and three fourth blood Steers, and which were also seen at the last Allen County Fair.

It is intended to have regular annual or biennal sales, of which this is the first, and that Farmers who are not duly prepared may have an opportunity to improve their stock, a credit of one year will be given on all sums of $200 and less, and 18 months on all sums over $200; the purchaser giving notes with approved security, waiving benefit of appraisement laws, with interest from day of sale, or a discount of 5 per cent. for cash.

Catalogue pedigree will be furnished previous to the day of sale, and also be more fully described in the 2nd vol. of the American Herd Book.

EAGLE DRUG STORE. MEEGAN & NILL,

PROPRIETORS.

THE Proprietors would respectfully announce to the citizens of Fort Wayne and vicinity, that they have opened a DRUG STORE

Corner of Calhoun and Main sts.,

opposite Evans' Dry Goods Store, where they intend keeping always on hand a large and well selected stock of

DRUGS, CHEMICALS,

Paints, Varnishes,
Dye-Stuffs, Glass Ware,
Perfumery Extracts,
Hair, Nail, and Tooth Brushes,
Oils, Fancy Articles, &c, &c,

and every approved Article for the Toilet, to suit the most fastidious. The will always keep on hand a PURE and carefully selected stock of

Brandies, Wines, Gins, &c,

all of which they will guarantee *Pure and Free from Adulteration*, and will sell in quantities to suit purchasers, for medical purposes only. In addition to the above, they intend always keeping on hand a large assortment of imported CIGARS of the most favorite or approved brands.

The proprietors would call attention to their carefully selected stock of

Drugs, Medicines, and Chemicals,

for their Prescription Department, which have been selected in the eastern markets, with special care, by one of the firm. To this department they direct the attention of Physicians, it being the object of the proprietors to devote their special care and attention to this branch of business, believing it a desideratum in and about Fort Wayne to know where to get Pure and Unadultered Medicines; also to know where *Prescriptions can be put up with care and neatness.*

Their object will be to protect the professional honor and character of the Physician by putting up such articles as they know to be pure, thereby giving the patient what the Physician intended. While they pledge themselves to the above, they, at the same time, will carefully guard against the many fatal mistakes which daily occur through the negligence or incompetency of Druggists or their Clerks

The proprietors would call the attention of COUNTRY PHYSICIANS to their large and carefully selected stock of DRUGS, MEDICINES, &c, which they will sell on reasonable terms. While they do not wish to come in unfair competition with their neighbors, yet they say they *will not and cannot be undersold.*

As one of the firm lives on the premises, those requiring medicine at night will be promptly attended to.

PHYSICIANS always in attendance at the Eagle Drug Store, or procured when desired.

The Proprietors hope, by special care and attention to their business, to merit a liberal share of public patronage.

O. P. MORGAN

IS SELLING

Cooking Stoves AT COST.

FOR the purpose of having *one uniform price*, and to avoid changing prices from week to week, which has been done so much of late, and that every one may know he is buying a Stove so cheap as his neighbor, Morgan has determined to close out his large and extensive stock of

STOVES

at the price it cost to bring them here from the Eastern Foundries.

The number and variety of his STOVES will compare with any stock in Fort Wayne, and a call from buyers will satisfy them that these Stoves are being *sold at cost.*

In the stock may be found 3 varieties of SQUARE AIR TIGHT STOVES; each kind having 3 sizes. ELEVATED OVENS—4 kinds; all with the latest improvements. Among them the "Young America," better adapted to Farmers' use than any Stove made.

Ordinary FLAT TOP STOVES as low as $15, with all the trimmings;—and of the

PREMIUM, so long and favorably known, is offered "Ransom's Albany Hot Air," a good size, reliable in weight and superior in finish, as low as $12 00

To Merchants he offers a large assortment of TIN WARE, at greatly reduced prices.

Tin, Sheet Iron, & Copper Work, Hot Air Furnaces,

and Galvanized Iron Cornices,

Manufactured in a superior manner by experienced workmen.

He is constantly receiving additions to his already large stock of HARDWARE, IRON, NAILS, GLASS, BUILDING MATERIALS, &c, which he is selling at *very Low Prices.*

DAGUERREOTYPE, AMBROTYPE, And PHOTOGRAPHIC Rooms.

A. McDONALD returns his sincere thanks to the citizens of Fort Wayne and surrounding country for their liberal patronage heretofore bestowed upon him; and would respectfully invite their attention to a new style of pictures beautifully gotten up on Glass, and also on paper, which he is prepared to execute equal to anything of the kind now in the United States. These Pictures are peculiarly life-like and true to nature. The Ambrotype being the latest improvement, far excells the Daguerreotypes with the accuracy of delineation.

Nursery Notice.

THE undersigned, Proprietors of the ELM PARK NURSERIES, 4 miles east of Fort Wayne, will offer, the ensuing spring, great inducements to those wishing to set Orchards, or fit up Yards, Lawns add Ornamental Grounds.

They have a fine grown stock of

FRUIT TREES

in cultivation. No pains or expenses have been spared to obtain and test all the varieties of any celebrity, grown in any part of the United States.—The Trees are very thrifty, being grown in deep rich soil, without the use of manure, and much more certain to live than Eastern Trees that are grown almost exclusively by stimulating manures, in compact nursery rows, with scarce any roots; whilst ours have fine mass of fibrous roots, which, when taken fresh from the ground, will ensure their growth, if they receive any ordinary care in transplanting.

We have a fine stock of

Evergreens, Ornamental Trees, and Shrubbery,

including all the rare and beautiful Roses in cultivation; Peonies, white, pink, red and fragrant of different colors, besides SMALL FRUITS, such as Currants, Gooseberries, Strawberries, &c, &c.

GRAPE ROOTS of any size, from one year old plants to bearing vines, can be furnished in large or small quantities. The Grape is as easily grown as the Apple, and no person should disp

FORT WAYNE
MERCANTILE INSTITUTE.

Phœnix Block, cor. Main & Calhoun Sts Ft. Wayne In

THE PRINCIPAL of this Institution, from past experience and success as a Teacher and Practical Book Keeper, has no hesitation in saying that the facilities here afforded to young men for qualifying themselves for the counting room, and various other mercantile pursuits are unsurpassed by any similar institution in the Union.

The course of instruction is thorough and practical, embracing Book-keeping by single and double Entry, and its application to every department of trade, as now practised by the most accomplished and experienced accountants (taught on an entirely new and successful plan, enabling the student to become much more self-reliant, in less time than any other plan,) Commercial law, Mercantile Correspondence, Commercial calculation, Practical and Ornamental Penmanship, &c.

The system of Penmanship adopted in this institution is unrivaled, giving a free and easy use of the hand and pen, thereby enabling the student to effect any style of writing. Young ladies and gentlemen desirous of qualifying themselves for teachers, will save much time and expense by securing this system taught in no other institution in the West.

The thorough and extensive course of Instruction combined with the elegance, beauty and convenience of the rooms, the highly qualified teachers, and pleasant and healthy location, renders this the most attractive institution to all who may desire an accomplished commercial education.

Being impressed with the necessity of Ladies acquainting themseves more thoroughly with business transactions, the Principal has fitted up apartments with neatness, elegance and convenience, expressly for them.

The ladies Department is entirely separate from the male, having separate entrances from the street and will remain permanently conected with the institution.

Students are taught individually, and not in classes; therefore they can enter at any time, and advance in the ratio of their capacity.

TUITION.

For full Commercial Course, including Practical Penmanship $25,00

NOTICE

To Liquor Dealers and Merchants.

A COMPLETE assortment of the OILS necessary for

Making and Flavoring every kind of

LIQUOR,

and a package of the articles used for giving ARTIFICIAL STRENGTH to Liquors, (converting 70 gallons of Whisky to 100 gallons,) and every article necessary to commence a LIQUOR STORE, will be furnished for $20. Also all the information necessary to conduct such an establishment, thus enabling the new beginner to successfully compete with the oldest liquor dealers.

Address through the Post Office,

PARLOR COOKING STOVES.—You will find three kinds of these Stoves at

BRANDRIFF'S.

COFFEE—Old Gov. Java, 6lbs for a dollar, at

J. U WINSLOW'S

Quit Drinking Poisonous Liquors.

PATENT IMPROVED PROCESS
FOR MAKING ALL KINDS OF
Liquors and Vinegar,
INSTANTLY, by the use of
LACOUR'S ESSENTIAL OILS.

THESE OILS are obtained by Distillation at the Chemical Laboratory, Parish of Jefferson, of PIERRE LACOUR, author of Lacour's Chemical Analysis, Lacour's Chemical Manipulations, Lacour on the Manufacture of Liquors, &c.

Purchasers are particularly requested to return the Casks and obtain their money, if the Oil does not give perfect satisfaction.

LACOUR'S OIL OF COGNAC converts neutral spirit to a superior imitation of Imported Brandies, viz: Otard, Sazerac, Marett Cognac, Poultney, Seignette, United Vineyard Proprietors, Castillon and London Dock Brandies. These Liquors will have a full fruitly flavor and a beautiful sparkling color. Common Rectified Whisky will be changed, by the use of the Oil of Cognac to New York Brandy, Fine Apple Brandy, Common Cognac Brandy, &c.

LACOUR'S OIL OF RYE changes Rectified Whisky to Monongahela Rye Whisky, Old Virginia Malt Whisky, Bourbon Whisky, &c.

OIL OF CEDRAT changes common Rectified Whiskey to Old Irish Malt Whisky, and a superior article of Scotch Whisky.

OIL OF PEACH changes common Whisky to Virginia Peach Brandy, &c. Oil of Peach and Oil of Cognac will convert common Whisky to Apple Brandy.

OIL OF GIN converts the poorest Whisky to Holland Gin, Scheidam Schnapps, Rose Gin, Swan Gin, English Gin, &c.

LACOUR'S CONCENTRATED ACID will, in five hours after being mixed, change five gallons of good Vinegar and twenty-five gallons of water to thirty gallons of the most acid Vinegar that can be found in the market. By the use of Lacour's Concentrated Acid, vinegar can be made for one dollar and sixty cents per barrel.

FOR MAKING LIQUORS, Lacour's Oils require no preparation—only pour the Oil into the Whisky and shake well. The Liquors thus made will have a fine natural aroma, a full, rich, oily taste, a beautiful transparent color, and a fine bead. Lacour's Oils exert three distinct properties in converting common Whisky to Brandy, Gin, &c. The first property combines with and subsides in the form of flocculent particles the whole of the grain oil (Amyle Alcohol). The Whisky is thus deprived of that peculiar irritating and burning taste, and becomes a neutral spirit; the second property consists in an oily mucilaginous taste imparted to the liquor, which renders it mellow and imparts an appearance of great age; the third property is exhibited in the rich vinous nutty odor that is imparted to the liquor, which renders distinction from the genuine brands impossible.

These oils are put up in quart flasks, each flask contains sufficient oil for making three hundred gallons of liquor. Full and comprehensive directions accompany the bottles. Price $2 per bottle.

For Sale at the corner of St. Charles and Poydras Streets, New Orleans.

One bottle of these oils, five in number, will be securely packed and shipped with bill of lading, to any part of the country, upon the receipt of $10, to be address of

P. LACOUR, New Orleans.

Parcasers are requested, as a guarantee of good faith, to furnish us the name of any house in New Orleans, and we will ship them a package of the Oils. If they do not perform all that is claimed for them, they will cost nothing.

Who Wants a Home,

and Ten Years to pay for it?

I WILL sell all that part of the well known Kercheval Reserve, laying in St. Joseph Township, containing 413 acres, in lots to suit purchasers. The land is of the best quality, and well timbered with Poplar, Walnut, Oak, Ash, &c. I have a Saw Mill on the adjoining premises, so that all the logs can be put into cash. The wood will pay well to haul in Fort Wayne.

TERMS—Those that will go on to improve their land will have two years credit on the entire amount, by paying the interest annually in advance. The principal will then be required in eight equal payments at three, four, five, six, seven, eight, nine, and ten years from time of purchase.

Purchasers can, if they wish, rent portions of my improved farm adjoining, until they get their land cleared.

For particulars inquire of the subscriber, living at the Steam Saw Mill adjoining, four miles east of Fort Wayne, on the north side of the Maumee river.

HOMŒOPATHY.

DR. LEONARD, M. D., respectfully tenders his professional services to the citizens of Fort Wayne and vicinity, as Homœopathic Physician and Surgeon. He may be found at the office of Dr. Brooks, on Calhoun street, in building north of Canal Bridge, at all times when not professionally engaged.

To the Afflicted.

DR. M. FAHOYE'S Practice is confined entirely to all obstinate or critical diseases such as CANCERS, TUMORS, ULCERS, SCROFULA, SALT RHEUM, TETTER, ERYSIPELAS, KINGS EVIL, (BARBER'S ITCH,SCALD HEAD,FEVER SORES, PILES, KIDNEY DISEASES, LUMBAGO, DYSPEPSIA, CATARRH, FISLE OR FISTULA,CANKER OR NURSING SORE MOUTH, ETC., ETC.

All Diseases of the Eyes
Successfully treated.

He is the first treating CANCERS in by giving, Medicine internally to operate on the blood, and apply external Medicines, which separates the cancerous tissue from sound flesh, and consequently removes it root by root, and without the use of any caustic medicine or surgical operation.

He has cancels of Cancers removed by him, for any person to examine that wishes, which will convince any rational person that it is the only mode in the city which a permanent cure can be effected.

Dr. F. will give references to hundreds of persons cured of the above diseases, through different parts of the United States.

Dr. M. FAHOYE has recently located in Fort Wayne, Ind., Office and dwelling on corner of Clinton and Wayne streets.

A CARD FOR THE LADIES.

THE GREAT TURKISH PERIODICAL REMEDY—For the immediate removal of Obstructions, Irregularities, Prolapsus Uteri, (Falling of the Womb,) Leucorrhœa or Whites, &c. &c.

These Pills have never in a single instance failed in producing the desired effect. No woman can enjoy good health while that particular part of her peculiar organization is deranged. Sickness at stomach, headache, languor, debility, pain in the head, side and back, loss of appetite, costiveness, &c., are some of the symptoms which often herald certain ravages in a few weeks as these Pills to remove one and all of these symptoms.

Be sure and get the genuine, which has our signature on each box. These Pills may be had by addressing Dr. Swilley and Co., and inclosing $1, the Pills will be sent by return mail.

N. B.—Ladies whose health will not permit of an increase of family, will find these Pills a successful preventive.

Ladies who are pregnant should not use these Pills, as they are sure to bring on miscarriage, though no injury to health would follow. Address,

Carter's Spanish Mixture.
THE GREAT PURIFIER OF THE BLOOD!
THE BEST ALTERATIVE KNOWN
Not a Particle of Mercury in it!

An infallible remedy for Scrofula, King's Evil, Rheumatism, Dedmanic Cutaneous Eruptions, Pimples or Pustulous on the Face, Blotches, Boils, Ague and Fever, Chronic Sore Eyes, Ringworm or Tetter, Scaldead-head, Enlargement and pain of the Bones and Joints, Salt Rheum, Sathorn Ulcers, Syphilitic Diseases, and all diseases arising from an injudicious use of Mercury, Imprudence in Life, or Impurity of the Blood

This great alterative Medicine and Purifier of the Blood is now used by thousands of grateful patients, from all parts of the United States, who testify daily to the remarkable cures performed by the greatest of all medicines, *"Carter's Spanish Mixture."* Neuralgia, Rheumatism, Scrofula, Eruptions of the Skin, Liver Disease, Fever, Ulcers, Old Sores, Affection of the Kidneys, Diseases of the Throat, Female Complaints, Pains and Aching of the Bones and Joints, are speedily put to flight by using this unequalled remedy.

For all diseases of the blood, nothing has yet been found to compare with it. It cleanses the system of all impurities, acts gently and efficiently on the Liver and Kidneys, strengthens the Digestion, gives tone to the stomach, makes the skin clear and healthy, and restores the Constitution enfeebled by disease or broken down by the excess of youth, to its pristine vigor and strength.

For the diseases of females it is peculiarly applicable, and wherever it has become known, is regularly prescribed with the happiest effects. It invigorates the weak and debilitated, and imparts elasticity to the worn out frame, clears the skin, and leaves the patient fresh and healthy; in a single bottle of this inestimable remedy is worth all the so-called Sarsaparillas in existence.

The large number of certificates which we have received from persons from all parts of the United States, is the best evidence that there is no humbug about it. The press, local papers, magistrates, physicians, and public men, well known in the community, all add their testimony to the wonderful effects of the *Great Blood Purifier.*

Call on the Agent and get an Almanac, and read the details of astonishing cures performed by *Carter's Spanish Mixture,* (in most cases where every thing else has signally failed,) the limits of an advertisement will not admit their full insertion.

CAUTION.

Carefulness should be our study, but more particularly when the health is at stake. Since these Bitters have been before medical quackdom, become so popular, there have been a great many concoctions called Stomach Bitters, and often represented to be the same in virtue as Dr. Hostetter's, palmed upon the public. Be careful of these villainous compounds. Our Bitters are put up in square quart bottles, and a wood cut of the establishment on wrapper. "Hostetter's Stomach Bitters," and Dr. J. Hostetter blown in the glass. All others are imitation.

PURIFY THE BLOOD
Moffat's Life Pills
AND
PHŒNIX BITTERS,
FREE FROM ALL MINERAL POISONS.

THE great popularity which *Moffat's Life Pills* and *Phœnix Bitters* have attained, in consequence of the extraordinary cures effected by their use, renders it unnecessary for the proprietor to enter into a particular analysis of their medicinal virtues or properties. Having been in use for twenty years by the entire public, supplanting the necessity of more than a thousand nostrums, of which we have been restored to the enjoyment of perfect health by them, it is believed that their reputation as the best vegetable medicine now before the public, admits of no dispute, as in almost every city and village in the United States there are many who are willing to testify to their efficacy in removing disease, and giving to the whole system renewed vigor and health.

In cases of SCROFULA, CLERK'S, CANCER OR ERYSIPELAS of the skin, the operation of the Life Medicines is truly astonishing, often removing in a few days every vestige of these distressing diseases by their purifying effects on the blood. FEVER AND AGUE, DYSPEPSIA, DROPSY, PILES, &c., in short most all diseases, soon yield to their curative properties. No family should be without them, as by their timely use much sickness and expense may be saved.

POETRY.

Religion—What is It?

'Tis not to go to church to-day,
To look devout and seem to pray,
And rove to-morrow's sun goes down,
Be dealing scandal through the town.

Not every sanctimonious face
Denotes the certain region of grace,
A phiz that seems to screwed at sin,
Oft veils hipocrisy within.

'Tis not to mark our duty's walk,
Or of our own good deeds to talk
And then to proclaim secret crime
And so suspend and waste our time.

'Tis not for sots and creeds to fight
And o'ercome all the rule of right,
When all we wish is at the best,
To see our church excel the rest.

'Tis not to wear the Christian's dress,
And love to all mankinds profess,
Then treat with scorn the suffering poor,
And fast against them close the door.

Ah, no! Religion means not this,
Its fruit far sweeter, fairer is:
In heavenly soil alone it thrives,
And more than blossoms where it lives.

Religion! 'tis the rule of life,
The bond of love, the balm of strife,
Its precept this, "to others do,
As you would have them do to you."

It grieves to hear an ill report;
And sooths with human woes to sport;
Of other's deeds to speak no ill;
But tell of good, or else be still.

And thus *Religion* this import;
Oh! may our souls its influence court;
Haste, haste, the bright and blissful day,
When the whole earth shall own its sway.

What a Royal Marriage is to Cost.

The proposed marriage of our Princess Royal with a Prussian Prince has never been popular in England. The political attitude of Prussia of Prussia during our late war disgusted the people of this country with the Prussian king his government, and the rumors—which rest on good authority—as to what the marriage is to cost us are noticed to render the projected royunion more favourably received. The Sun makes the following remarks on this subject:—

"Electors, do not forget Prussia! Many will wonder what they are to remember—are they to recollect her dirty conduct before the war, at the beginning of the war, all through the war, and at the end of the war? Is it her bullying Neufchatel and Switzerland, her getting the prisoners liberated to avoid a conviction of treachery and her now playing the Emperor of the French false, and Switzerland, too, by refusing to settle the business? Yes—all and any of these if they please; but probably no effort of memory is needed—the contemptible meanness, the avarice, self-seeking, and political crouching of Prussia are never likely to be forgotten by the generation which has witnessed the war with Russia. But what have electors to do with Prussia just now? Why bring her up at the lasting in 1857? Has Lord Palmerston indicated any wish to maintain the honor of England at Berlin or at Dantzig? Lord Palmerston will have to guard both the honor and the purse of England in the new Parliament, if we be not much mistaken; and Prussia will not be the source of danger. We pray, as in duty bound, for her Majesty Queen Victoria, for his Royal Highness Prince Albert, for Albert Prince of Wales, and for all the Royal Family, the Princess Royal surely included; and amongst our prayers we certainly ask that they may never dishonor their position, nor disgrace their country, nor become channels to enrich German poverty, or to satisfy German longings for the proceeds of English taxation. We have had too much of that already. Leopold of Belgium and Queen Adelaide will never be forgotten. True or false, it will always be believed that a German Princess instigated a Mooncch, shrewd in such matters, to get her the enormous sum of £100,000 per annum as the price of his signature to the Reform Bill, and for what on earth could it be wanted but for a needy German cousins? Now the rumour has been that the new Parliament will be asked for £50,000 per annum!—for the interest of £1,000,000 at 5 per cent., to marry the Princess Royal to a Prussian prince! Could Prussia and its royal family be degraded further in the eyes of Europe, we should say that such a mercenary transaction would sink them yet lower. Happily for us the credit of Prussia is not in our keeping: for we certainly would not discount a single draft on *her* honor. But we must be blind ourselves of the credit of our own Royal Family, and of our own pockets. These are points for the hustings. Nothing made Queen Adelaide so unpopular with the nation, and so indisposed it to mourn for her death as the repulsive Germanism which taxed the people so unmercifully, either to enable her to roll in wealth; or to enrich her poor German relations. We would not have our young Princess brought in the same mortifying position. We should like our Royal Family to be favorites with the country. They will be so if only reasonable support is asked for them, but if our Princesses are to cost £50,000 a year each, bless us—where is the end to be? If the daughters are to be salaried in it's style, and the sons in proportion, and if the latter are to swallow up military sinecures retained as special rewards for veteran service, Lord Palmerston may rest assured that the country will think we pay *too* much for the whisker of royalty, and that the opinion will spread that a president is better. Prodigiously less costly at least. Let electors be awake—There is the utmost danger of a job. The Prince and the Premier will need the voice of the country to enable them to resist the urgency of Germany, especially of Prussian, avarice. They must be able to reply that England will not endure it. That England expect her Princesse to marry Englishmen who can support them—especially if *Cockfarmers* get her hand, producing an admiral. If they marry members of a royal family. That England would much rather have *her* nothing to do in the royal marriage line with a country it despises more than any other in Europe, but that, if the young people are in love, why the country of the husband must maintain the happy pair. We have no objection to give our Princess Royal £50,000 as a *dowry*, and to have done with it. Against any further taxing of the country to enrich a Prussian husband we firmly protest. Fifty thousand pounds per annum then to the electors, if they now speak out. It is an electors, if they now speak out. It is an election for Parliament that Courts and Cabinets get through with such jobs as these. Nothing will prevent something of the kind but pledging the next dates to vote against it. It is silly to talk of *reducing* expenditure if such annual luxuries are to be inflicted on us. If taxpayers do their duty at the hustings, and on that condition only, they will obtain for themselves the reward of £50,000 per annum."

Indian Murders in Iowa.

By the letters below, our readers will learn that a terrible murder of white settlers has taken place in the north-western part of Iowa. Twenty bodies of the slain had already been found. The letter is as follows:

FORT DODGE, Iowa, MARCH 13.

Dear Sir: This town is in a perfect blaze of excitement. For two months past reports of depredations by the Indians have been received here, but occasioned no alarm. Yesterday, however some residents from the vicinity of Spirit Lake, Dickenson county, arrived here, bringing intelligence that some forty persons were missing, and that the bodies of fourteen had been found lifeless and mutilated.

Three companies of volunteers, raised in Webster City and this place, will start to-morrow morning to hunt the murderers. The Sioux, Chippewas, and Winnebagoes deny any connection with these dreadful acts; and Major W. Williams, Indian Agent at this point, says that the villains are criminals who have been banished the several tribes.

Among the families known to be killed are those of Mr. Howe (consisting of seven persons), Mr. Gardner's, Mr. Lacasse, and Mr. Matlock's. But fourteen bodies had been found when the messengers left, the residents being fearful to search for their neighbors.

I am going with the volunteers in the morning, and will give you the news of our movements the first opportunity, if the red-skins in the mean time do not shoot me. We are all well armed with revolvers, bowie-knives, and rifles, and the most of us would like a little brush—all, however, through patriotism, humanity, and a hand warrant.

Yours, truly,
GEORGE W. BRIZER.

P. S.—A messenger who has arrived since the above was written, states that twenty bodies had been found up to the time of his departure, and that it was ascertained that two half breeds were among the Indian gangs.

Arrest and Release.—E. F. Noxon, the fraudulent Bank financier, was recently arrested in New York city on a requisition, but subsequently released on his pledge to afford every facility to those on the affairs of the broken banks and to protect, so far as he is able, the creditors in the claims that a true exhibit will show larger assets than has been supposed. He is conceded to be the only person who can make an accurate exhibit. It is said he will return as soon as he is assured of his personal safety.—*Madison Courier.*

We hope the above is not altogether true. How any one had the authority to arrest the scoundrel and then release him we cannot imagine. The thousands of poor men in this State who have suffered through his roguery, demand that he should be treated like any other guilty criminal. There should be a stop put to these kid-gloved scoundrels who prey upon society. They should as fast as arrested, be consigned to some penitentiary, and as ours is now conducted, upon the system of reformation, perhaps it would do them good. Banks, like churches, are getting to be excellent cloaks for rascality. All manner of cheating is practiced. The Presidents and cashiers steal the capital and deposites and it is politely called "failing," "disfamiting," or something of the kind. This Noxon should be brought back, and not only be compelled to make every possible restitution to his creditors, but should suffer the extreme rigor of the law.—*New Albany Ledger.*

How Old Reed was Reformed.—We once knew a man by the name of Reed, commonly known as "old Reed," quite notorious in his way and whose religious belief is, that after death he shall appear in the shape of some animal, and thinks he will be a horse. Now, old Reed has been a hard man, and has not been in the habit of treating his family as a religious man should. One day, after his wife had suffered from neglect and borne his abuse until her patience was completely exhausted, she determined to give him a plain lecture, and to touch him upon his religious belief; so, resolutely rousing herself by his side, and looking him full in the face, while a tear-drop glistened in her eye, she commenced: "Reed, I am going to have a serious talk with you; I have something to say to you, and you must hear it. I have a duty to perform, and I shall do it; and then if you are miserable here after, it shall not be my fault. You believe, Reed, that when you die you will turn into some animal, and you think you will be a horse. Now, if you keep on in your present course, and continue to neglect and abuse your family, squandering your money in drink, when you die you will turn into some poor old twelve-shilling horse, and some old clam-peddler will get you, and you will be hard-worked and half-starved, and I'll see you every day in a rickety old wagon, full of clams. But now, Reed, it needn't be so. Your future may be even according to your theory—as bright, a happy one—for if you will reform, and turn right about, and become a better man—be kind and affectionate to your family, be kind and treat them as you should, when you die you will turn into a fine hundred dollar horse, and some West-land buck will get you and give you a bushel of oats a day, rub you down with pea straw, and have you docked and tail set up. Old Reed was converted—has reformed—and is patiently waiting for death to introduce him into his converted horse-heaven.

☞ An interesting story is told of the famous Parisian hair-dresser, Jarge, recently deceased. He was so much a man that he not unfrequently spoke of the sublime inspirations which he had in his art. One evening he was called to dress the hair of a very beautiful woman then much admired in Paris. He found a quantity of flowers, ribbons and wreaths on the table to choose from, and, by change, near them a pair of silk stockings, which that lady was to wear at Longer exact a glance of contempt at the ordinary articles prepared for him, and seizing on the stockings declared that he would dress her hair with them. The Lady, who had full confidence in his taste made no objection, and the same night she appeared with an incomparable mode of *chef-d'œuvre* for her head, producing an admiral effect.

The next morning the lady received several offers from persons whom she knew, requesting to know where they could obtain a specimen of similar beauty, and inquiring whether it would not be best for an hour. The lady replied that the principal material was a web of the tarantula spider, which never lasted but one night, and that consequently leading was out of the question. Strange to say not one of them was ever able to find the material necessary for the lady.

Cure of an Old Stone-Leary Bat—1. Do not remove the stone covering, if straw, or other protection, till the weather be more soft and the frosts begin to depart. 2. When you have taken your time to do this, then put the vines, having the youngest and healthiest; and when you think you have thinned them enough, take out the third of what are left. 3. Then sprinkle in a good dusting of lime vegetable mold with a little ashes, well mixed. 4. Cover the ground with a mulch about an inch deep, every where to the plants, where it should be thin. 5. If a severe frost is threatened, spread a little clean straw over the plants for the night.

Decidedly Magoonish.—It is said that in his lecture on "Mind your own business," Dr. Magoon relates the following story:

"A young man went from New York city to the West where he commenced business on his own account, and married. His friends in the city were interested in his welfare, and when a merchant was about to journey to the place where the young man had located, he was requested to visit the emigrant and ascertain how he lived, what sort of a wife he had chosen, his prospects, &c. According, the New Yorker ascertained the residence of his young friend, and called upon him quite early in the morning.—He found him in a small, neat cottage, and just taking his breakfast. The introduction of the New Yorker to his wife was quite off-hand and unceremonious and he was requested to be seated and partake of the morning meal. The young wife had prepared the steak, biscuit and coffee with her own hands, and for a table had used her kneading board, over which a napkin was spread and the board placed on her lap. The New Yorker declined a seat at the table, and took his leave. On making his report to his New York friends as to how he found his young friend living, he described the style as 'magnificent'—and for the explanation of the superlative he sat that were he the owner of that young man's furniture, he would not take ten thousand dollars for the legs of his table."

Mr. Kalloch Escapes.—It is with no pleasure that we have published the trial of Mr. Kalloch. We merely wished to illustrate to our readers the character of Massachusetts justice. It was known before the trial commenced that the accused was to escape.

The trial, offensive to decency, has its moral, and is,

Like the toad, ugly and venomous,
Bears yet a precious jewel in his head,

in the Reverend adulterer sits during the trial surrounded by his deacons, while he hears his fellow ministers testify to the purity of his character, and the moderation of his attributes—his wittols mount the stand to testify a tenderness as overflowing as that of their wives, and men and women, awaiting to be put in the same category, sub-scribe for his defence. The jury alone agrees to disgree in regard to the agreeable pastor.

All this might have happened in any State; but only in Massachusetts could the community withdraw their eyes from such a tableau to examine: how wicked they are in South Carolina; how much holier are we!—*Albany Argus.*

Marrying in Fun.—Another instance of the folly of "marrying in fun" is just now exciting the good people of Fonda. It seems that a banking officer of that town met at a ball a young lady from this neighborhood, who was very good-looking, sprightly and attractive. While waltzing with her, he proposed in just that they should be married. The lady accepted his proposition and they adjourned to a side-room, where a person present was called upon to perform the ceremony, which he did to the infinite amusement of all concerned. The gentleman thought no more of the matter until the breaking up of the ball, when his fair partner called upon him to conduct her to his residence. He demurred, and thought she had better go to her own residence. She said that the house of her husband was her home; whither then goest I will follow thee." He didn't hardly understand that she was his wife. She insisted upon her marital rights, and claimed that as the ceremony had been performed by a Justice of the Peace, it was perfectly fair and legal transaction. The gentleman inquired into matters; found that her assertions were correct, and that he was in a bad box. He is now endeavoring to ignore his wife and back out of the bargain, with little prospect of success however. The lady has before been married, and was, it is understood, divorced from her former husband but under such circumstances as authorized her marrying a sin.—*Albany (N. Y.) Tomorrow.*

On Sight and on Demand.—One of "Porter's" is responsible for the following anecdote:

Judge C——, a well known and highly respected Knickerbocker, on the shady side of fifty, a widower with five children—full of fun and frolic ever ready for a joke to give or take, was bantered the other evening by a mess of five and twenty, for not taking a wife; she urged that he was hale, hearty and deserved a matrimonial messenate. The judge acknowledged the fact, admitted that he was convinced by the eloquence of his fair friend that he had been very remiss, and expressed contrition for the fault confessed: ending with offering himself to the lady, telling her she certainly could not reject him, after pointing out to him his heinous offence.

The lady replied that she would be most happy to take the situation, to uniquely advertise, and could procure a bone of his bone and flesh of his flesh; but there was one to her friends objectionable.

"Well," says the judge, "name it. My profession is to surmount such impediments."

"Ah! judge, this is beyond your powers. I have vowed if ever marry a widower, he must have ten children."

"For children! Oh! that's nothing" says the Judge, "I'll give you five now, and my notes on demand in installments for the balance."

Fact!

A Gay Lothario.—A good story is told of a fellow of North Carolina. Having been put in jail for marrying thirteen wives, he made his escape. He was seen three or four days afterward by a gentleman who recognized him. The gentleman, anxious to secure the reward for his apprehension invited him to his house to dine, and then slyly slipped out in pursuit of a constable, but great was his horror on his return to find that the culprit had absconded with his own wife.

Are you Painting Out a Large Tract?—Then dig the ground two feet deep, and at least a space of four feet in diameter, and also dig and mix in with the earth one bushel of *well-rotted* barn-yard manure for each vine. Do not use *fresh* manure, and if you have no old, then mix one quart of lime and two quarts ground or broken bones with one gallon of chamber lye; scatter over the ground beforehand, and dig in thoroughly. When you plant the vine see to it that the roots are not dry and dead; cut it back, and if dead, try another; if any are dead, cut them away. The most of young grape-vines will not bear much experience; and often plants are set out when not a single root will grow, and thus the plant is not fed to them a nothing. Cut your vine after planting, so that only two buds are left to grow. If you have been so called to prepare the ground as above directed set out the roots carefully, in spring in thunder tones, "it is time."

Never fall back from a bargain after the articles of agreement has been drawn up and duly executed by your signature to make it as perfect as if it had been the modest by ribbon-like grosse de Swiss.

Never insult the press by a contemptible effusion of stinginess.

Never refuse to pay the printer when you have read his paper for a year or more. A man who does this is mean enough to steal rotten necessaries.

Never be guilty of any of these offences against decency and propriety: if you are, you are not a gentleman.

My Artificial Stone House.

EDS. CONSTANT GUTTENBERG.—I wish to say some words to your readers upon the best and cheapest material used and recommended by Fowler and others—artificial stone walls, made of lime, sand, and cinder, &c. But I object to the usual method of using it in what is called "grout" houses, cement houses, &c. It is sloppy and annoying work to build it up in troughs, as is usually done. The fluid runs down over the walls, and each layer does not harden fast enough to build on, as soon as it is often wished.

I use the same material, and propose to obviate these objections by a neater and pleasanter mode of use, which shall be easier and stronger work than the usual mode. I make my material into blocks of stone, and build my houses of these. Thus, make cheaply some 20 or 30 boxes, of sides only, without top or bottom, of proper size, say two feet long, one foot high, and fourteen to eighteen inches wide. These are the dimensions of the future blocks. Make up, of a morning, sufficient material in a bed, fill up all the boxes; smooth the tops, and go off. Next morning lift off the boxes; let the blocks stand to dry and harden; set the boxes in a new place, and fill up as before.—Do this under a shed, or if out of doors, cover over the blocks during the first rains, and they will soon harden enough to use. In this way any Irishman may, in twenty-five mornings, at fifty cents, or less, each, *have* out stone enough for a large house.

Then build your house, as any one would do stone. The blocks for first story may be 14 or 16 or 18 inches wide, and for second story, 10 or 12, narrowing the mould boxes by nailing a board or two inside or sawing the ends narrower. Walls so built are dry, but they may be made still more so, and warmer if possible, and still cheaper, if any could wish it, by putting a wooden cylinder or two into the mould box, and knocking it out after the box is lifted off, thus making a dead air in the wall. Besides this, the wall is of course, to be furred and lathed and plastered inside. Of course some blocks are to be made solid, for corners and ends of the walls.

The dimensions of your house being given, one can easily calculate the number of blocks needed, and any farmers boy may make them.

In having the wall, if in order to bring a flush wall for door or window, it should be necessary to leave a few inches between some few blocks, the space may be easily filled by pieces of brick or regular stones well mortared in.

I commend this as the *best* plan for building a cheap and durable house—better than brick, as good as stone, and lasts forever. If nice finish is needed, cement and color the outside wall, and lay it off by lines, like stone as indeed it is.

If any one doubts this plan, try it on a smoke-house, or hog-pen, or shed of any kind, or indeed, a stone wall.

No rats infest this house, no storm can shake it, no wind whistle thro' it. Dry, tight, warm in winter and cool in summer, it is the cheapest, strongest, and best.

A proportion of the ingredients which Fowler and all others recommend, is—say 10 bushels or barrow loads of lime, twenty of sand, and 70 of stones, &c., and any quantity of water. I think it safe to surmount such impediments.

Again: I wish to say a word to my brother farmers who are ashamed of their mother; or to a struggling professional who is horrified at her grandmother's bad grammar.

Never keep a boy to black your boots and attend to your stable, while you frighten your wife out of the idea of keeping a nurse for the twins, by constantly talking of "hard times."

Never keep a cigar in your mouth while talking with a lady, nor smoke in a carriage or room where a lady is sitting.

Never remind other people of personal defects, or of the relatives who have disgraced them.

Never leave a letter unanswered, and use the stamp which was so closed to you to reply with, on a letter to your sweetheart.

Never ride in a fine carriage and keep a score of servants, whilst your widowed sister trudges on foot and toils for her daily bread.

Never wear a finer coat than the tailor who *you owe for it*, or the tailor whom you have not paid for the making.

Never turn a deaf ear to woman in distress because you can not see how you would be the gainer by her fortunate condition.

Never wound wantonly the sensitive nature of the constitutional invalid nor by rude jests and sarcasms send a blush to the temple of modest worth.

Never joke with a single woman at one time and with all women to be married, nor tell your wife any of all women to be married, nor tell your wife you married her because you pitied her lonely condition.

Never go to bed at ten, leaving your wife or wife's two with a cold baby, and look pitchforks at her at the breakfast table, because the meal is not on hour too late.

Never hear ungracious strictures upon the character of a woman, with a quiet, insinuating, half saying in thunder tones, "it is time."

Never fall back from a bargain after the articles of agreement has been drawn up and duly executed by your signature to make it as perfect as if it had been the modest by ribbon-like grosse de Swiss.

Never insult the press by a contemptible effusion of stinginess.

Never refuse to pay the printer when you have read his paper for a year or more. A man who does this is mean enough to steal rotten necessaries.

Never be guilty of any of these offences against decency and propriety: if you are, you are not a gentleman.

Profitable Advice.

Never tip your bearer to a fine lady, and pass the poor widow without seeming to see her.

Never pass an aged man or woman without making a reverential obeisance, unless your house is on fire.

Never break your neck to bow at all to a "sweet sixteen" with a thousand dress, who is ashamed of her mother; or to a scratting, frightful who is horrified at her grandmother's bad grammar.

Never keep a boy to black your boots and attend to your stable, while you frighten your wife out of the idea of keeping a nurse for the twins, by constantly talking of "hard times."

Never keep a cigar in your mouth while talking with a lady, nor smoke in a carriage or room where a lady is sitting.

Never remind other people of personal defects, or of the relatives who have disgraced them.

Never leave a letter unanswered, and use the stamp which was so closed to you to reply with, on a letter to your sweetheart.

Fort Wayne Sentinel.

SATURDAY, APRIL 23, 1853.

[illegible] Standard announces the following list of candidates for City Offices is being [illegible] and will be kept open until [illegible] following are the candidates:—[illegible] W Sowerwine and I. Wolfe, Treasurer, [illegible] and Ch. Reynolds, Marshal, [illegible] Clerk, T Morgan and J Spruit: Civil [illegible] S M Edwards, Assessor, Jas. Howe, [illegible] Commissioner, John Hardendorf and M. [illegible] Fr. School Trustees, Wm Rockhill, [illegible] and W H Link—all in favor of [illegible] and opposed to any distribution of [illegible] School Fund.

S S Moore has withdrawn and declines being a candidate for mayor.

The Congressional Vacancy.—The Noble Co. [illegible] makes a suggestion—which is not in itself so much as a suggestion as an inquiry—that the democrats in this district dispense with a [illegible] nomination and put our old candidate, Hon. Robert Lowry again on the track by common consent. The Democrat does not recommend this course, but simply makes the suggestion, to elicit a consideration of the matter.

Personally, we should have no particular objection, but we think it probable there may be others wishing a chance to visit Washington to whom such an arrangement would not be exactly satisfactory.

Foreign Appointments.—We hear that Gov. [illegible] A. Wright of this state will be tendered the appointment of Minister to Prussia; and Judge [illegible] W. Borden of this city that of Commissioner to the Sandwich Islands. Both are good appointments, worthily bestowed, and show a [illegible] reflection on the part of the Executive of the gallant support given by Indiana to the Democratic cause.

Democratic Mass Convention.

The Mass Convention on Saturday evening was certainly the largest assemblage ever convened for such a purpose in our city. The Court House was literally crammed and packed, and hundreds were outside who could not gain admittance. As a matter of course there was so much noise and confusion that it was impossible to do any business, and the people were so close packed together, that they could not get room to deposite their votes. P. McMahon being the only candidate proposed, was declared by unanimous consent to Marshal, leaving utterly out of the question to ballot for the various duties for other officers, with any hope of getting through before the commencement of the next month; it was finally resolved to abandon the attempt, and adjourn the convention until next Monday morning, at which hour the balls to be opened and continue until night, so as to give all a chance to have a vote in the nomination of candidates.

As this is a *democratic* convention for the nomination of candidates for *city* offices, it is to be hoped none but democrats who reside within the city will interfere, and proper means should be adopted to exclude the voting exclusively to citizens of citizens.

The experience of last Saturday is enough to satisfy all right-thinking men and honest democrats of the utter absurdity and impracticability of attempting candidates by mass conventions and the impossibility of adhering to our success-ful time honored system of nominating by delegate conventions. We are aware that very plausible arguments may be used in favor of the [illegible] course; it may be urged that the people [illegible] do their own business best in their own way—that they know their own rights and are able and willing to defend them—that all political power exists in the sovereign people—*vox populi, vox Dei*—and much more of the same sort. We are not disposed to deny that these all sound very fine and democratic; but we take a more rational and common sense view of the matter; and when it is inconvenient if not impracticable for the people *en masse* to exercise those rights we contend that it is equally democratic and much more sensible for them to delegate the exercise of such powers and such rights to a smaller and less unwieldy body than a mass convention. This has been the almost invariable practice of the democratic party, and when it has been departed from they have usually been glad to return to it. It has been fairly tried and found to answer, and the general success and excellence of the organization of the democratic party abundantly proves it. The people meet together in their primary meetings in wards for city and townships in country purposes, and select a portion of their number—men whom they can trust, and delegate to them power to act in their behalf, instructing them how to vote, if thought necessary in their conventions. Can anything be simpler or more purely democratic than this mode? And how much better and more satisfactorily such a delegate convention will transact its business than an unwieldy and unmanageable mass like that of last Saturday.

There have always been among us a few discontented and bogus democrats, jealous of those who devoted attention to the interest of the democratic party gave them an influence which they exercised for the public good. The cry of clique and corrupt party leaders is nothing new. Such men have often a right to break down our party organization—and we regret to see such men [illegible] and are now striving by mass meetings to distract the party, or thrust them into positions they are unworthy to fill. This game always failed, and they will again fail. The organization of the democratic party will be kept up, and the regular democratic method of delegate conventions, under which we have been so successful, will be adhered to. The best interests of the party dictate that course, and the former success of the Mass Convention system have been so clearly demonstrated, that the disorganizers will have to [illegible] back to the [illegible] confidence in the will of the majority, and again sink into the obscurity from which they have so unwisely attempted to emerge from for.

Indiana Sentinel.—We welcome the reappearance once more upon the table of the Indianapolis State Sentinel, which had been temporarily suspended by the burning of the former office by the disastrous fire which visited that city a few days since. The energy and determination shown by the proprietors, in so promptly resuming their paper, is deserving the substantial support of the democracy throughout the State. This can be best shown by an immediate and extensive subscription to the paper recommenced, of course, by the payment in advance.

SCHOOL TRUSTEES.

In our last we alluded to the effort of the Times to create the impression that the democracy, and especially the Catholic and Lutheran portion of that party, were seeking to destroy our Common School. We denied the charge, so far as the mass of the party was concerned, though we admitted there might be a few who were desirous of distributing the school funds; and we further pointed out the consequences that must inevitably arise from any such attempt. For this we have been severely taken to task by two correspondents in the Jeffersonian. They both willfully misrepresent our position, representing us as making the very charge we were defending them from, and on the false premises thus assumed labor stoutly and with many words to demolish us and prove we were wrong in doing what we did not do. Of course it is needless to attempt any reply to such signatories. One of the writers is well known to our readers, as a man fond of seeing himself in print, meddling with matters that he does not understand and has no business with, and as a perfect monomaniac on religious matters. He is not, and never was, a democrat, further than he could use that party to subserve what he thought the interests of his church. In his own opinion he is undoubtedly "some punkins," but others differ in this view of his capabilities, and whatever his aspirations may be they look upon him at present as anything but infallible. The other correspondent we judge to be a man of much the same calibre.

Our position of last week we are satisfied is the correct one—namely, that the democratic party, or even the mass of the Catholics or Lutherans did not wish to disturb our common school system or divert its funds from their legitimate purposes; but that a few injudicious men might entertain such a design. This view is abundantly sustained by the events of the past week. The only candidates put in nomination for School Trustees are warm friends of our public school; and we are assured by all classes that they have never entertained any wish to disturb the system or make it an issue at the polls. So much for our first position. Our second, that there were hot-headed injudicious individuals who did wish this, is equally proved by the fluttering of these writers; they take the remarks to themselves. The cap fits and they have put it on; without noticing the bells affixed to it, they think it highly ornamental, and they strut before an admiring public through the appropriate medium of the Jeffersonian, with as much vanity and self-complacency as a newly made militia officer would in his equipments—lace, feathers, and all.

We have devoted more space to this matter than it deserves, and will only briefly allude to another circumstance connected with it. Some few have felt sufficiently aggrieved to avail themselves of that last dread resort of offended dignity—stopping their papers. This we do not complain of—they paid up honorably and had a perfect right to stop whenever they saw fit—They are old friends, and we regret to part with them; but we have no wish to force the paper on them, or intrude it on any one to whom it is obnoxious. A subscriber or two more or less is only like a drop in a bucket compared with the circulation of a newspaper. If they thought they could intimidate us from doing what we conceive our duty to the democratic party and the public, we have only to say that they entertain a very erroneous idea of our disposition and habits. Such things never trouble us an instant: and even if they did, they would in this case fall of their object, as their loss is already make up ten-fold by new subscribers. Should more do the same thing the effect would be the same. Our citizens will not see a press proscribed because the editor does his duty, but will sustain him in the conflict. We have abundant assurances that any other subscribers we may lose on this account will be made up in the same ratio as has been done with those who have already withdrawn the light of their countenances from us.

Democratic Victory in Albany.—The democrats in Albany, N. Y. have achieved a most glorious triumph, having routed the combined republican and know-nothing forces, and carried the city ticket by 300 majority, and elected seven of the ten aldermen.

☞ Notwithstanding the general cry of hard times, we observe preparations for an unusual amount of new buildings. Already workmen have commenced clearing off the ground for 12 or 13 new business houses—all to be three or four story brick buildings; and in all parts of the city piles of brick, stone, and lumber are accumulating for the erection of dwellings, called for by our rapidly increasing population. A few years, and we shall see such a city here as was never dreamed of by the most sanguine of our old settlers.

Who is Responsible?—The State Sentinel contains a letter from Dr. Sage, American Senator from Ohio and Switzerland, in which he distinctly and unhesitatingly asserts that the failure to continually receiving new goods; one of the firm living in the east for the express purpose of buying every novelty as soon as it appears, being on hand when bargains are to be had, and keeping the assortment always complete. At this time their store presents a magnificent appearance, being literally filled with gay and fashionable goods suited to the season, and every other article required by their numerous customers.—There is no store in the state where you may so certainly find the precise article you want or get it of better quality or at lower prices.

pass the Appropriation Bills, through means of which the wheels of our state government are locked and our benevolent institutions closed, rests entirely with the republicans. He says:

"It will be recollected by those who read the proceedings of the last Senate, that the Miller and Shyrock contested seats was laid over until two o'clock on the last Saturday of the session, by the consent of all parties, and made the special order for that day and hour. But when the hour arrived, the Democrats refused to take it up, but were clamorous from that time until the close of the session, and were continually making motions to take up those very bills; failed to pass; thus showing a desire to pass upon the most important legislation of the State: but the Republicans, who had a majority in the Senate, refused to be led to let any business be done until the said contested seat was decided, thus showing that they considered that one case of more importance to the people of the State than the passage of these bills."

Fusion Injustice.—The locofocos, having a majority in the New York Legislature have resolved to punish those cities which gave large democratic majorities at the late election. They have accordingly passed a bill taking the entire police force of New York and Brooklyn out of the hands of their respective Mayors, and placing it under the control of Commissioners appointed by the Legislature; another bill takes the control of the police of Buffalo from the democratic council and give it to the Republican Mayor. These changes have not been made because the citizens asked for them, but are a gross and uncalled for usurpation of power by the Legislature, to punish those cities for having dared to give majorities for Buchanan.

This unjust act of tyranny will not be submitted to without opposition, and having its constitutionality tested by the proper courts. It will be seen that the Mayor of New York has already served an injunction on the usurping commissioners and charged the police force not to obey their authority.

NEW YORK, April 22.

This morning, at the instigation of Mayor Wood, an injunction was served on the new Police Commissioners, the Mayor entering into bonds of $50,000 to abide the issue. There has been great excitement all day at the City Hall. The Mayor addressed the Police Captains, telling them that the new law was unconstitutional and charging them to obey no authority except the present Police Commissioners.

A Significant Fact.—At the late municipal election in Leavenworth City, Kansas, the free soil party were successful, and elected their Mayor by 184 majority. Leavenworth City was settled chiefly by southern men and has been looked upon as the head quarters of the pro-slavery party. They however are not insensible to their own interests, and know that their property will be vastly more valuable under a system of free than of slave labor.

The result of this election shows the truth, force, and justice of the position the Democracy have occupied throughout this controversy, that if the people would turn out and express their real sentiment and will on the question of slave or free labor the cause of the latter would triumph; that if left to the regular and natural progress of affairs, undisturbed by outside interference, the people of Kansas would pursue their own interest and establish those institutions which were best adapted to the circumstances of the country.

Pittsburgh, Fort Wayne, & Chicago Railroad.—The Secretary of the Pittsburg, Fort Wayne and Chicago Railroad Company has issued a notice from their office in Pittsburgh, that the company are prepared to issue their new stock in exchange for that of the Ohio and Pennsylvania, Ohio and Indiana, and Fort Wayne and Chicago Railroad Companies, upon the terms and in the manner prescribed in the articles of consolidation.

Ohio and Pennsylvania, interest to July 1 1856, and 20 per cent. premium; Ohio and Indiana, interest to July 1, 1856, and par; Fort Wayne and Chicago interest to July 1, 1856, and 6 per cent. premium. Stockholders in either of the old companies, who may have assigned any portion of their stock previous or subsequent to the consolidation, (August 1, 1856,) without having had such stock transferred on the books of the old companies, and parties holding the certificates for such stock are notified that this company will not recognize the transfer of such assigned stock, as the full shares of the interest to July 1, 1856, and premium have been credited to the original holders.

☞ It is surprising to witness the perfection to which our friend McDonald has brought the Photographic Art. We have seen a portrait of Mr. Shackweather, our late County Auditor, taken after his death, by Mr. McDonald, in which the eyes and other features, are as perfect as when alive and the whole picture as natural and lifelike as if it had been taken during life. There are few artists who so thoroughly understand their profession as Mac, and none who take better pictures.

An Undeniable Fact.—It is a fact which cannot be controverted, that people will buy where they can get the best goods at the lowest price. This is the reason why Schwegman's Farmer's Depot has been so crowded with customers since he received his new goods. He has certainly got a superb assortment, and is well known for selling cheap. Besides this, he knows the value of printer's ink, and takes pains, by advertising freely and circulating handbills, to keep the people advised of the bargains he has in store for them. A course like this cannot fail of success.

Chinese Sugar Cane.—We have a copy of a neat little pamphlet of 105 pages, giving much useful information in relation to the Chinese Sugar Cane and sugar making, which ought to be in possession of all who design cultivating the new cane. It is entitled "CHINESE SUGAR CANE and Sugar Making; its History, Culture, and adaptation to the Soil and Economy of the United States. With an account of various Processes of Making Sugar. Drawn from Authentic Sources. By Charles F. Stansbury, A. M. late Commissioner at the exhibition of the Industry of all Nations, at London."

For 26 cents a copy of the book and seed enough to plant two square rods will be sent free of postage. Address C. M. SAXTON & Co. Agricultural Book Publishers, 140 Fulton Street New York.

Public Convenience.—It is a great convenience to the shopping community (which class, we presume, includes all the ladies of our city) to be able to find anything they may want, however new the style, without having to ransack every store in the city. This can always be done at TOWNLEY'S old established store, as they are unhesitatingly asserts that the failure to continually receiving new goods; one of the firm living in the east for the express purpose of buying every novelty as soon as it appears, being on hand when bargains are to be had, and keeping the assortment always complete. At this time their store presents a magnificent appearance, being literally filled with gay and fashionable goods suited to the season, and every other article required by their numerous customers.—There is no store in the state where you may so certainly find the precise article you want or get it of better quality or at lower prices.

A Hint to Emigrants

Many of our farmers have a strong inclination to emigrate to Iowa, under the delusion that they can better their condition. Our opinion is that they have better remain where they are.—Land is dearer in Iowa than it is here, and no better. That the climate is worse and the prospects of crops more uncertain is a fact that cannot be denied. For proof take the following items from the Burris (Iowa) Commercial. Read them, and if you are wise stay here, where such a thing as a complete failure of winter wheat was never known.

No Winter Wheat.—Our exchanges from all parts of the country bring us bad news for winter wheat. In this section, the heavy frosts in March did the business. There will not be half wheat enough raised in this and the counties adjoining, for next Fall's seed. In Mercer county, there was an unusual breadth of wheat sown last fall, but the seed and labor are a loss. In Louisiana county it is no better, and continued cold weather and unprecedented backwardness of the spring, add much to loss, since it will now be impossible to supply the deficiency with a spring wheat crop. We never had confidence in fall wheat growing in this country, and we are now more convinced than ever of the bad policy of depending upon that crop. In a country of heavy frosts and no snow, fall wheat must ever be a mere chance crop.

Scarcity of Fodder.—In this part of the country, fodder of all descriptions was never known to be so scarce. As a consequence, stock have suffered immensely, and in numerous instances, cattle have actually died from starvation. The earth is still frost bound, and at this writing, prospects of a *thaw* are decidedly in the dubious. Talk of the earth being destroyed by fire in June next! If it gets comfortably *warmed up* by dog days, the way it is now going on, if we don't get grass soon, there will be an awful harvest of hides and horns, with a doubtful chance for beef steak, butter and cheese.

Tiffin & Fort Wayne Railroad.—From the report of the President of the Tiffin and Fort Wayne railroad, we would judge that this road was progressing most rapidly. The grading on the whole line—102 miles—is now principally completed, and ties for the whole work are contracted for, and are now being delivered on the track, in readiness for the laying down of the iron rails in May or June next. All the grading, right of way and other expenses of the company, have been fully paid by the company, without the issue or sale of a single bond or other security of the kind for that purpose; and, from the commencement of the work to the present, each monthly estimate has been promptly paid without a single exception. This company has recently purchased iron rails, of Pennsylvania manufacture, for the road, at a house in the city of Philadelphia, and the delivery of which is to commence early in the opening of spring. Of the first mortgage bonds of the company, amounting in all to $11,500 per mile, there will remain unexpended in the iron purchase about $5,000,000, which the company propose to offer for sale to the market or stock board to enable the purchasing of cars and machinery, and to provide all other necessary fixtures and appurtenances for the road. The Tiffin and Fort Wayne Railroad is an important link in the Great American Central Railroad Line. This line is attracting great attention in the East, because it will furnish short and speedy means of transit from the East to the West—connecting the most important Western points with the great Eastern cities.—*Cin. Toledo, Wabash and Western Railway.—The receipts for March, were as follows:

Passengers	$19,399 99
Freight	31,811 53
Mails and Expresses	4,438 06
Total	$55,649 58

Cold Weather at the South.—We make the following extract from the Augusta (Georgia) correspondent of the New York Journal of Commerce, who writes this under date of April 10:

The recent cold weather has destroyed our fruit, and killed no inconsiderable amount of young cotton in this State. On the morning of the 7th instant, the mercury was down to twenty-five degrees, or seven degrees below the freezing point. Corn will probably grow again where it is cut down by frost, but cotton must be replanted; and as many do not keep seed for such a contingency, all the ground cannot be replanted, even if there time for so much extra labor.

The low temperature of March and the first week in April has operated advantageously on growing wheat, keeping it from shooting into head too rapidly, and causing it to tiller well and spread over the ground. In southern and central Georgia, wheat harvest usually commences the third week in May, so that in six weeks you may expect samples of our new crop in the New York market. Prices were calculated to cause an unusual breadth of land to be sown in wheat at our last seeding time, and we are expecting a fine harvest. One cultivator has used $2,000 worth of Peruvian guano, at a cost of over $70 a ton, delivered.

Feeding England.—A parliamentary paper has just been issued, showing the total imports of grain and flour into England for the past year. Three-fourth of the total supply of foreign flour were obtained from the United States, in addition to three-fifths of the amount of Indian corn and more than a fourth of the amount of wheat.

WASHINGTON, April 18.

No papers have been received beyond Columbus, Ga. The New Orleans letter mail has been received, which was due on the 12th

The Post Office Department has invited proposals to the first of June, for carrying the entire latter mail overland from Mississippi to San Francisco, in four horse coaches, semi-monthly, weekly and semi-weekly. The Department has nearly completed arrangements for the construction of a wagon road.

A special dispatch to the Washington Evening Statesman, from New Orleans of the 16th says: Official advices are received in that city to the effect that the Mexican Government has admitted that contractors are engaged to open the Tehuantepec Road and have complied with the terms of the original contract, and that the official authorities have received the road.

NEW YORK, April 16.

The steamship Tennessee arrived here this morning.

Her news confirm the defeat of Lockbridge, who retreated without striking a blow, destroying all the fortifications below Castillo. Lockbridge subsequently formed a new battalion from the scattered troops, with the design of joining Walker via Panama.

The boiler of the steamer Scott exploded during the retreat of Lockbridge, when near Serapiqui, killing and wounding fifty officers and men. The wounded were sent in the steamer Rescue to Puenta Arenas, while Lockbride remained up the river. He was well supplied with provisions.

ST LOUIS, April 22.

The officers of the steamer Minnehaha from the upper Missouri report that great excitement exists at Platte, mouth of the Nebraska River, in consequence of the Pawnee Indians having driven in a number of settlers at Salt Creek.

A fight occurred resulting in the killing of several of the Indians and one white man. Thirteen Indians were captured. Gen Thayer, of Omaha city, had raised a party of volunteers to protect the settlers.

CHICAGO, April 17.

Indian Troubles.—Advices have been received that the Sioux, after destroying a settlement at Spirit Lake, attacked Springfield, in Southern Minnesota, but were repulsed, with a loss of ten or twelve of their number.

A detachment of one hundred Government troops pursued them, but, being wholly without provisions, were compelled to return.

CHICAGO, April 22.

The Democratic Press says that a band of 600 Sioux are committing depredations at Southbend on the Minnesota River. It is rumored that Mankato had been attacked, destroyed by fire, and many of the inhabitants murdered by the Indians. The people were flocking to St Peters for security. Several companies of troops from Fort Snelling had been sent for. Great panic existed in various settlements. The farmers were preparing to join the pursuit.

CHICAGO, April 18.

On the 11th, Eli Grifford, a half breed, was hung by a mob for the murder of John Ingalls, of Jackson county, Iowa.

On the same day a mob entered the jail in Bellevue, took a prisoner accused of murder and counterfeiting, and hung him. Great excitement prevails in the vicinity.

TRENTON, N. J., April 14.

Trenton City Election.—The whole Democratic ticket for city officers have been elected by three hundred majority. The Common Councils is also Democratic. A great Democratic victory, this.—*Pennsylvanian.*

Arrival of the Arabia.

NEW YORK, April 16.

The steamship Arabia, with dates from Liverpool to the 4th inst, arrived off Sandy Hook this forenoon.

The difficulty between Austria and Sardinia was widening.

The elections were still progressing favorably for Palmerston.

Peace with China is probable.

The foregoing abstract of the steamer's news was received by telegraph from Sandy Hook.

She will not reach her berth till about half past two.

The steamships Ericsson, Kangaroo and Hermann had arrived out.

Arrests continue at Paris of conspirators against Napoleon.

Reports from Madrid say that a Spanish force will, under every circumstance, occupy a portion of the Mexican territory for the protection of Spanish subjects.

Austria has issued a new circular against Sardinia.

France and England will remonstrate with both Sardinia and Austria to keep the peace.

Russia is concentrating forces at Anapa, to act against the Circassians.

Chinese details confirm the previous telegraphic dispatches, repeating the report that the Emperor has ordered Yeh to make peace upon any terms, but the report is doubted.

The American ship Highflyer has been wrecked at Formosa, the crew murdered and the ship burnt.

Four Days Later.

BALTIMORE, April 21.

The steamer Fulton with dates to the 8th inst arrived at New York this morning.

The Grand Duke of Tuscany has declined to conclude with the Papal Chair a concordant like the Austrian.

The accouchment of Queen Victoria was daily expected.

The English elections were over, with a few exceptions. There will be a large Liberal majority in the new House of Commons.

The amount of gold on the way to England from Australia, the greater portion of which could not be far distant, was estimated at £3,500,000.

The closing of five Chinese ports against European commerce was considered imminent.

At the last advices the Persian army was posted at Shiraz. General Bukler was fortifying Arabians.

Some salutary reforms were progressing in Turkey. In two cases Christian witnesses had given evidence against Turks, in both instances the latter were found guilty.

A dispatch from Madrid says that Mexico recognizes the justice of the Spanish demands.

The diplomatic rupture between Austria and Sardigia is not likely to be adjusted, but neither contemplates hostilities.

The Australian commercial advices are unfavorable.

In consequence of the spread of murrain in the north of England prohibits the importation of cattle skins, &c., which it is thought will affect the provision trade.

Murrain has also appeared among the cattle in Austria.

General Ashburton will command the military force which will be sent to China.

The Neufchatel Conference has indefinitely adjourned, as is said, on account of the impracticable demands of Prussia.

Liverpool Markets.—Breadstuffs dull. Provisions steady.

The Corn market throughout France was declining.

Flour closed quiet. Some forced sales at a decline of 1s. Corn has a declining tendency, holders are offering freely.

Mellenry & Co's Circular quotes Flour at a decline of 6d a 1s; Western Canal 33s; Ohio 29s a 30s; Southern 28s 6d a 9d and 30s.

White Wheat 8s9d a 9s, red 7s 6d a 8s.

Lard is dull at 70s, holders demand an advance to 71s. Beef firm. Bacon buoyant. Pork quiet but firm. Tallow considerably declined; sales at 52s 6d.

The Sound Dues.—We suppose the abolition of the Danish Sound dues may be regarded as a fact accomplished. It is understood that the capitalization of them, proposed by Denmark, has been accepted by the European government interested, and that a treaty has been signed with the United States, by the forms of which, in consideration of the payment of an inconsiderable amount of money, [$393,000] this annoyance to our commerce is to be forever discontinued. The treaty must await, of course, the approval of the Senate; but of this, and necessary appropriation by Congress of the sum stipulated to be paid, there can be no reasonable doubt; and we take it for granted, therefore that the "Belt and Sounds" will be and remain free of toll from the opening of navigation this season.

It is gratifying to remember that this concession to the commerce of the world has initiated by the measures of our own Government; and it marks, also, the spirit of the age, that it has been accomplished by Denmark and the other powers interested through peaceful negotiations, and without a resort to arms.—*Washington Union.*

NEW ORLEANS, April 21.

Later from Mexico.—By the arrival of the brig Union we have papers from the city of Mexico to the 4th.

A reactionary revolutionary government, headed by the clergy and Santa Anna's emissaries, has been discovered at the capital, which was to take place on the evening of the 1st. Several arrests were made, among them General Francisco Aguilla, one of Santa Anna's ministers. Considerable excitement existed concerning the Spanish expedition.

The British Charge had delivered his ultimatum to the government, giving nine days for an answer.

Right at Last.—A gentleman from Kansas City, just arrived, informed us on Saturday that Colonel Lane was about to leave Kansas Territory for Salt Lake.

Judicial Appointments.—Gov. Willard has appointed Hon. John Pettit, of Lafayette, Circuit Judge of the 12th Circuit, in place of Andrew Jugram, resigned. Also, A. G. Davis Judge of the 10th Circuit, in place of T. J. Stanfield, resigned.

The appointments are excellent ones, and so far as an expression of public opinion has been had, appear to give general satisfaction.—*State Sentinel.*

Stand from Under.—The following eastern banks are reported *down*:—Exeter Bank, N. H. Tiverton Bank, R. I. It is also reported that the Commercial Bank, of Perth-Amboy, N. J. has gone by the board.—*Toledo Com.*

New Counterfeits.—Fives on the Exchange Bank, Hartford, Conn., vignette, two females, eagle, shield and flags, two 5's on each end, dated Dec 1st 1856. This note made its appearance in New York about ten days ago. The first of last week a man was arrested in Cleveland with a large amount of them in his possession.

☞ The National Intelligencer contains a letter from ExGovernor Gorman, of Minnesota, announcing that he regards the bill for the removal of the seat of Government of that Territory from St Paul's to St Peter's, before the legislature at its last session, as having become a law, and saying that the Hon Reverdy Johnson has given an opinion endorsing the correctness of this view.

PHILADELPHIA, April 13.

Ex-President Pierce left for New Hampshire to-day to return on Saturday. Mrs. Pierce remains in this city. Her health is improving.

NEW YORK, April 17.

A man named John Scratcher was examined yesterday, on charge of attempting to effect the release of Huntington, the forger, from State Prison, by means of a forged pardon. Scratcher as alleged, has been endeavoring to obtain money from various parties to carry out this object. The affair, which is involved in complete mystery is to be further investigated.

BOSTON, April 11.

Chief Justice Shaw will to-day pronounce sentence of death upon Jas McGee and Chas L. Carter, for the murder of the Warden and Dept Warden of the State Prison. The sentence takes effect after one year's imprisonment.

Panic About Wheat.—The St. Louis Intelligencer of Monday says:

A very sudden and entirely unexpected rise has taken place in wheat. This results from the general disaster attending the wheat crop this year. The extraordinary cold and unfavorable season has destroyed many hundred thousand acres of wheat that a few weeks since was promising enough. We understand that some very heavy wheat consuming prophet in St. Louis is predicting that "good white" will soon bring $2 a bushel. It will be time then for the Comet to come.

☞ We notice similar accounts of the destruction of the wheat crop in most of our Illinois and Iowa exchanges. Those prairies, though very beautiful in summer, are anything but pleasant in winter, and thousands who are now going there will have cause to wish themselves back in the "dull timber."

Important Expedition.—The Philadelphia Inquirer, of April 14th says:

We learn that to-morrow, a corps of engineers headed by Mr Trautwine, of this city, will leave New York for Honduras, to make the final survey and to fix the exact location for a double track railroad to connect the Atlantic and Pacific Oceans. Porto Caballos, on the Atlantic side, and Conchagua, or the Gulf of Fonseca, on the Pacific, will be the termini; embracing a distance of about 170 miles, through a highly fertile and diversified country, abounding in all the requisites for railroad building—fine timber, pure water and quarries of rock. The route lies through a section of country which offers but little more than ordinary obstacles to the construction of a road; a fact which the Hon E Geo. Squier, and the efficient engineers who surveyed the route in 1854, have fully demonstrated to an enterprising English company, which has now undertaken to build it.

Land Sales in Kansas.—The President of the United States has issued his proclamation for the sale of the Indian Trust Lands in Kansas Territory. The sale of the lands held in trust for the Iowa Indians will take place at Iowa Point, Doniphan County, on Wednesday, the 3d day of June next. A like sale will take place at Paoli, Lykins County, of lands held in trust for the Kaskaskia, Peoria, Piankeshaw and Wea Indians, on Wednesday, the 24th day of June next. Of the lands thus held in trust, under the treaty, forty-eight thousand acres are withheld from sale, one hundred and sixty acres having been given to each individual member of these confederated bands; ten sections as a national reservation, and six hundred and forty acres for the benefit of the American Indian Mission Association. The last sale for the benefit of the Delaware Indians, "comprising the western portion of the lands ceded by the Delaware Indians," will take place at Osawkee, on Wednesday, the 15th day of July next. The sales will be for cash, and no bid will be received below the valuation placed upon the several tracts by the Commissioners appointed for the purpose

Paper Towns in Nebraska.—We would advise all our friends to beware of paper towns. There is at this time a perfect town making mania; everybody seems desirous to be the owner of a town. All persons desiring to secure an interest in Nebraska would do well to examine for themselves or get a responsible agent to act for them. Never buy from floating speculators, unless you thoroughly examine the title and property, or you may be fleeced.—*Nebraska Pioneer, March 24th.*

DIED—In this city, Thursday, 9th inst., of paralysis, ROBERT STARKWEATHER, Esq., in the 67th year of his age.

[*Communicated.*]

The bands of affection that had for nearly two score years strongly bound and endeared him to his affectionate family, have also been broken.

Judge Starkweather was born in Northamp. ton Mass. Dec. 25th, 1790. At about the age of three years he was left an orphan. From this time up to the age of nineteen he resided with an uncle of his, within which period he learned the trade of an iron moulder. At this period he left Mass., and went into the State of Vermont in the vicinity of the Green Mountains to work in an iron-foundry on his own account, from which place he went to Conn. on the Housatonic river and commenced working on a farm.

After this we find him in the city of Albany, N. Y. struging against the adversities of fortune to obtain an education, which he had no means of accomplishing but from the earnings of his own hands during the intervening hours of school and study; at this place however, he succeeded in making himself competent as a teacher,—commencing and continuing as such in the town of Coxsackie, Green Co. N. Y. for the term of three years. From thence to Baltimore, the adjoining town and back to Coxsackie, for the next two or three years.

Not considering himself as yet proficient in his two favorit branches of learning—Grammar and Mathematics, so entered an Academy then established at Greenville, N. Y., under the tutorship of Prof. Parker, for the term of two months. From this time onward, there was no problem too deep or intricate for him to solve. He now married, and, with her, the companion of his bosom whom he ever cherished with truest devotion and affection, is next found in the State of Ohio, without means and among strangers, but not without ambition. He returns for a livelihood (with which he was no stranger) to farming; from thence to teaching in the different States of Virginia, Kentucky and Ohio; from thence to Athens, Greene Co. N. Y., in which town he held by the voice of the people for several successive years the office of Constable, discharging the duties thereof with all that promptness, firmness, accuracy and humane feeling, which has so signally characterized him through life; and leaving that office only, to accept the appointment of under Sheriff and jailer of said County, under Mr. Chauncey Hall, Sheriff elect in 1831. During this term of office, in a single instance where he extended the hand of friendship and generosity, in giving a confined debtor the privilege of his house and of his private table, within four days of the expiration of his term of confinement, was induced by dishonest advisers to leave Sheriff Starkweather to pay the debt—which, together with the attendant expenses of endeavoring (though unsuccessful) to return him to justice, amounted to about eighteen hundred dollars. Thus did fortune in the above instance frown on him, after having exteuded to his fellow man with feeling of purest charity, the mantle of comfort, and the pleasure of his own fireside. With perseverence however, and ambition as yet uncrushed by the hand of misfortune, Judge Starkweather together with his family, whom (either in prosperity or adversity) he ever ardently cherished and loved, is now (twenty years ago) again seen wending his way westward in search of a new field for the still further development of talent and the more full exercise of those true and genuine virtues which ever characterised him through life.

He at last, after a tedious and prolonged journey of forty two days, reached Fort Wayne, where for the first time during the journey, he halted for rest for himself and family with any view of locating. In a few days, however, he located in Lake Township, Allen county Indiana; taking up, once more, the occupation of farming and continuing the same, until 1831;—previous to which he was elected, and served as county Commissioner, for the term of three years. Then Associate Judge; and lastly elected Auditor of said county, in August 1851. Holding this office for the full term of four years;—was reelected, Oct. 1851 by the vote of the People and discharged the duties of the same up to the time of his death—all of which offices he filled with fullest regard to the best interest of all, and with unwavering firmness, frankness, credit and honor to himself.

It can be truly said of him, that in his bosom virtue sat enthroned, and directed him in all his private as well as public acts and business transactions with mankind.

FADED FLOWERS.—It causes sad reflections to take up a bouquet once smiling with beauty, and gaze upon its withered leaves and faded colors But how many faded flowers do we see on the great boquet of humanity; men and ladies, too, whose beauty has fled with almost the lightning's speed, and whose forms are sinking with premature decay. What a pity it is that all such do not know that our disease has taken hold upon the vital parts, a simple preparation would restore them to health, to joy, and to beauty. Such a preparation, for instance, as Hostetter's Stomach Bitters, which drives away despondency, strengthens the weaker parts, and restores the whole system. It is recommended by physicians, and I commended by all who have used it. Sold by all Druggists, Grocers, and dealers generally.

For sale by H. B. Reed, Meyer & Brother; J. D. Wordell & Co., G. H. Wagner.

☞ AYER'S SPRING and SUMMER MEDICINE, Carter's Spanish Mixture stands pre-eminent above all others. Its singularly efficacious action on the blood, its strengthening and vivifying qualities, its tonic action on the Liver; its tendency to drive all humors to the surface, thereby cleansing the system according to Nature's own prescription; its harmless use and at the same time extraordinary good effects, and the number of cures testified to by many of the most respectable citizens of Richmond, Va., and elsewhere, must be conclusive evidence that there is no humbug about it.

The trial of a single bottle will satisfy the most skeptical of its benefit.

HOOFLAND'S GERMAN BITTERS.

The Great Remedy for Nervous Debility.

J M HUTSELESS, Doylestown, Pa., June 20, 1853, says: "My wife has been afflicted with a nervous debility since September, 1851, since which time I have been unable to find any physician or medicine that would benefit her in the least, until one day I called at the store of Dr. Harvey, of this town, for some tincture of iron, and described to him the afflictions of my wife; he then handed me a lot of papers to read, among which I found one describing your German Bitters. I immediately procured a few bottles from him, and am pleased to state that the use of the Bitters has done her more good than all the medicine she has heretofore taken. I wish you send me a half dozen bottles."

A LADY

WHO has been cured of GREAT NERVOUS DEBILITY, after many years of misery, desires to make known to all fellow-sufferers the same means of relief. Address, enclosing stamp to pay return postage, Mrs. MARY E. DEWITT, Boston, Mass, and the prescription will be sent, free, by return mail. 3m32

A PERFUMED BREATH—What lady or gentleman would remain under the curse of a disagreeable breath when by using the "BALM OF A THOUSAND FLOWERS" as a dentifrice would not only render it sweet but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate their friends will never mention it. Pour a single drop of "BALM" on your tooth-brush and wash the teeth night and morning. A fifty cents bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "*Balm of a Thousand Flowers.*" It will remove tan, pimples and freckles from the skin, leaving it of a soft and rosebuds hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

SHAVING MADE EASY.—Wet your shaving-brush in either warm or cold water, pour on two or three drops of "*Balm of a Thousand Flowers*," rub the beard well, and it will make a beautiful soft lather, much facilitating the operation of shaving.—Price only Fifty cents

For sale by all Druggists.

ROCKHILL & NELSON'S FIRST SALE OF THOROUGH-BRED Short Horn Cattle AT FORT WAYNE,

On the 28th day of May, 1857.

THESE CATTLE embrace several Bulls fit for service, Cows, Heifers, and Calves, that will compare in point of size beauty, and purity of blood, with any Durham Cattle ever offered for sale in the State.

Among them is the well known Kentucky Cow "EFFIE" and her FOUR CALVES, that have taken premiums in every contest, besides many others of equal merit, some of which are the finest milkers of any breed in this State or out of it. But their chief and crowning advantage to the farmer is their great size, aptness to take on flesh, and early maturity, which has been so recently demonstrated in this County in the exhibition and sale of Mr. Buffner's Bull and three fourth blood Steers, and which were also seen at the last Allen County Fair.

It is intended to have regular annual or biennial sales, at which this is the first, and that Farmers who are not only prepared may have an opportunity to improve their stock, a credit of one year will be given on all sums of $200 and less, and 18 months on all sums over $200, the purchaser giving notes with approved security, waiving benefit of appraisement laws, with interest from day of sale, or a discount of 5 per cent. for cash.

Catalogue pedigree will be furnished previous to the day of sale, and also be more fully described in the 2nd vol. of the American Herd Book.

FORT WAYNE

MERCANTILE INSTITUTE.

Phœnix Block cor. Main & Calhoun Sts Ft Wayne In

THE PRINCIPAL of this Institution, from past experience and success as a Teacher and Practical Book Keeper, has no hesitation in saying that the facilities here afforded to young men for qualifying themselves for the counting room, and various other mercantile pursuits are much passed by any similar institution in the Union.

The course of instruction is thorough and practical, embracing Book-keeping by single and double Entry, and its application to every department of trade, as now practised by the most accomplished and experienced accountants; taught on an entirely new and successful plan; enabling the student to be come much more proficient, in less time than on other plans. Commercial law, Mercantile Correspondence, Commercial calculations, Practical and Ornamental Penmanship, &c.

The system of Penmanship adopted in this institution is unrivalled, giving a free and easy use of the hand and pen, thereby enabling the student to effect any style of writing. Young ladies and gentlemen desirous of qualifying themselves for teachers, or just a much time and expense by securing this system, can get the best instruction in the West.

The thorough and extensive course of instruction, combined with the elegance, beauty and convenience of the rooms, the highly qualified teachers, and pleasant and healthy location, renders this the most attractive institution in all who may desire an accomplished commercial education.

Being impressed with the necessity of ladies acquainting themselves more thoroughly with business transactions, the Principal has fitted up apartments, with neatness, elegance and convenience, expressly for them.

The Ladies Department is entirely separate from the male, having separate entrances from the street and will remain permanently connected with the institution.

Students are taught individually and not in classes; therefore they can enter at any time, and advance in the ratio of their capacity.

TUITION.

For full Commercial Course, including Practical Penmanship $25,00

For same with Ornamental Penmanship $30,00

NOTICE

To Liquor Dealers and Merchants.

A COMPLETE assortment of the OILS necessary for

Making and Flavoring every kind of

LIQUOR,

and a package of the articles used for giving ARTIFICIAL STRENGTH to Liquors, sufficient to make 5 gallons of Whisky to 100 gallons, and every article necessary to commence a LIQUOR STORE, will be furnished for $20. Also all the information necessary to conduct such an establishment, thus enabling the new former to successfully compete with the oldest liquor dealers.

Address through the Post Office,

P. LACOUR, New Orleans.

LACOUR'S CONCENTRATED ACID for making VINEGAR is put up in 5 gallon packages, at $5 per package—in good shipping order.

January 10th, 1857. 1y28

PARLOR COOKING STOVES.—You will find three kinds of tables Stoves at BRANDRIFF'S.

COFFEE—Old Gov Java, Gilts for a dollar, at J. U WINSLOW'S

Quit Drinking Poisonous Liquors.

PATENT IMPROVED PROCESS

FOR MAKING ALL KINDS OF

Liquors and Vinegar,

INSTANTLY, by the use of

LACOUR'S ESSENTIAL OILS.

THESE OILS are obtained by Distillation at the Chemical Laboratory, Parish of Jefferson, of Prof. Lacour, a pupil of Lacour's Chemical Americus, Laundry Chemical Manufacturer, Lacour on the Manufacture of Liquors, &c.

Purchasers are particularly requested to return the Casks and obtain their money, if the Oil does not give perfect satisfaction.

LACOUR'S OIL OF COGNAC converts neutral spirit to a superior imitation of Imported Brandies, viz: Otard Dupuy, Martel Gaymac, Dupuy, Seignette, United Vineyard Proprietors, Castillon and London Dock Brandies. These Liquors will have a delicate flavor and a beautiful sparkling color. Common Rectified Whisky will be changed by the use of this Oil of Cognac to New York Brandy. Pure Apple Brandy, Common Cognac Brandy, &c.

LACOUR'S OIL OF RYE changes Rectified Whisky to Monongahela Rye Whiskey, Old Virginia Malt Whisky Bourbon Whisky, &c.

OIL OF CURAT changes common Rectified Whiskey to Old Irish Malt Whisky, and a superior article of pure Whisky.

OIL OF PEACH changes common Whisky to Virginia Peach Brandy, &c. Oil of Peach and Oil of Cognac will convert common Whisky to Apple Brandy.

OIL OF GIN converts the poorest Whisky to Holland Gin, Schiedam Schnapps, Rose Gin, Sweet Gin, English Gin &c.

LACOUR'S CONCENTRATED ACID will, in few hours after being mixed, change five gallons of good Vinegar and twenty-five gallons of water or thirty gallons of the most acid Vinegar that ever is found in the market. By the use of Lacour's Concentrated Acid, vinegar can be made for one dollar and sixty cents per barrel.

FOR MAKING LIQUORS. Lacour's Oils require no preparation—only pour the Oil into the Whisky and stir well. The Liquors thus made will have a fine natural aroma, a full, rich, oily appearance, beautiful transparent color, and a fine bead. Lacour's Oils exert three distinct properties in converting common Whisky to Brandy, Gin, &c. The first property combines with and absorbs in the form of fine dust or fluid, the whole of the poisonous oil, or Alcohol. The Whisky is then deprived of the peculiar irritating and burning taste, and becomes a neutral spirit; the second property consists in an oily mucilaginous substance separated from the liquor, which renders it mellow and imparts the appearance of great age to the liquor; the third property is exhibited in the rich vinous aroma and flavor that is imparted to the liquor, which renders distinction from the genuine goods impossible.

The oils are put up in quart flasks each flask containing sufficient for making two hundred gallons of Beer, Ale and Champagne, or one dozen wineglasses, the bottles. Price $2 per bottle.

For Sale at the corner of St. Charles and Poydras Streets, New Orleans.

Our bottle of these oils, five in number, will be carefully packed and shipped with bill of lading, to any part of the country, upon the receipt of $10, to be addressed

P. LACOUR, New Orleans.

Purchasers are requested, as a guarantee of good faith, to furnish us the name of any house in New Orleans, and we will ship them a package of the Oils. If they do not perform all that is claimed for them, they will cost nothing.

January 24th, 1857. 1y28

MARSH-MALLOW PASTE—Jujube Paste — Lemon, Rose, Banana, Pine-Apple Liquorice, Hoarhound, Wild-Cherry and Iceland Moss Gum Drops for sale at *Apothecaries Hall.*

Who Wants a Home,

and Ten Years to pay for it?

I WILL sell all that part of the well known Kercheval Reserve, laying in St. Joseph Township, containing 413 acres, in lots to suit purchasers. The land is of the best quality, and well timbered with Poplar, Walnut, Oak, Ash, &c. I have a Saw Mill on the adjoining premises, so that all the logs can be put into cash. The wood will pay well to build in Fort Wayne.

TERMS—Those that will go on to improve their land will have two years credit on the entire amount, by paying the interest annually in advance. The principal will then be required in eight equal payments at three, four, five, six, seven, eight, nine, and ten years from time of purchase.

Purchasers can, if they wish, rent portions of my improved farm adjoining, until they get their land cleared.

For particulars inquire of the subscriber, living at the Steam Saw Mill adjoining, four miles east of Fort Wayne, on the north side of the Maumee river.
